Preface ix

1

Narrative of Two Eruptions 1

2

Some Definitions 21

3

The Growth of Volcanology 26

42 ***Volcanic Rocks and Magmas***

66 ***Lava Flows***

108 ***Volcanic Domes***

122 ***Products of Explosion***

142 ***Fragmental Flows***

183 ***Minor Structures at Vents***

198 ***Kinds of Volcanic Eruptions***

255 ***Major Volcanic Edifices***

288 ***Craters, Calderas, and Grabens***

Fumaroles, Hot Springs, Geysers and Geothermal Power **323**

Distribution and Geological Relationships of Volcanoes **344**

The Internal Structure and Mechanism of Volcanoes **370**

Volcanoes and Man **409**

Active Volcanoes of the World **429**

Textures, Composition, Classification, and Diversification of Igneous Rocks **451**

References **465**

Index **493**
