PART ONE: THEORETICAL FUNDAMENTALS
1 The fundamentals of urban space 3
   H. S. Geyer
2 An exploration in migration theory 19
   H. S. Geyer
3 On urban systems evolution 39
   H. S. Geyer
4 The urban future 67
   H. S. Geyer

PART TWO: EMPIRICAL FINDINGS
A. Western European Countries 87
5 Population change and migration in the British urban system
   A. G. Champion
6 The French urban system 121
   D. Pumain
7 Urbanization in Germany before and after unification 147
   P. Gans and F. J. Kemper
8 Urban development in the Netherlands: new perspectives 185
   P. Nijkamp and E. Goede
9 Counter urbanization in Italy 215
   P. Petsimeris
B. Nordic And Central European Countries
10 Past present and future of urbanization in Finland
   E. Heikkilä and T. Järvinen
241
11 The maturing of the Polish urban system
   Z. Rykiel and I. Jażdżewska
271
12 The maturing of the Romanian urban system
   I. lanoş
295
13 The demographic transition and urban development in Turkey
   T. Baycan Levent
329

C. American Countries
14 A history of recent urban development in the United States
   W. H. Frey
365
15 The dynamics of the Canadian urban system
   L. S. Bourne and J. W. Simmons
391
16 Evolution and maturing of the Mexican urban system
   A. G. Aguilar and B. Graizbord
419
17 Urbanization and the redistribution of population in Brazil:
   recent changes and trends
   R. Baeninger
455

D. Asian Countries
18 Migration and the development of the Japanese urban system,
   1950-2000
   A. J. Fielding
489
19 Migration and the urban system of South Korea
   H. W. Richardson, C.C. Bae and M. Jun
503
20 Urbanization and migration in India: a different scene
   S. Mukherji
525

E. African Countries
21 Current perspectives on urban change in South Africa
   H. S. Geyer and I. J. van der Merwe
563

Index
593
Tables

Britain
5.1 Population change 1951-91, for a six-level urban hierarchy for Great Britain, % for period 99
5.2 Stages of differential urbanization, 1951-91, for Great Britain 100
5.3 Stages of differential urbanization, 1951-91, for four regional divisions of Great Britain 102
5.4 Rates of population change 1981-91 (%) and net within-Britain migration, 1990-91 (per 1000 people), by population size of functional region and FR zone type 103
5.5 Population change resulting from within-Britain migration, 1990-91, by district type 106
5.6 Net migration between pairings of 13 district types, 1990-91, Great Britain 107
5.7 Pairings of district types exhibiting down-hierarchy net flows, 1990-91, by selected characteristics, Great Britain 109
5.8 Population change for eight large conurbations and rest of UK, 1991-99 and 1981-91 111
5.9 Components of population change for eight large conurbations and rest of UK, 1991-99, thousands 112

France
6.1 Expansion of urbanization in France according to two different definitions 125
6.2 Change in the concentration index of city size distribution, 1968-99 131
6.3 Growth rates by city size (% per year) 132

Germany
7.1 Origins of the population in large cities of Germany, 1907 154
7.2 Rate of migration balance with reference to type of counties and time period (West Germany or old Länder) 162

vii
7.3 Rate of migration balance of 25 to 29 year olds (10,000) with reference to type of county and time period (West Germany or old Länder) 163
7.4 Population change of the GDR according to settlement size, 1980-89 174
7.5 Balance of internal migration by settlement size, 1970-89 174
7.6 Rate of migration balance with reference to type of county and time period (East Germany or new Länder) 176

The Netherlands
8.1 The sample of Dutch agglomerations 188
8.2 Population size and density development for the period 1950-2000 190
8.3 Population sizes and shares of municipalities by degree of urbanization, 1950-90 191
8.4 Percentage population growth in related to the degree of urbanization, 1950-2000 192
8.5 Number of municipalities related to degree of urbanization, 1950-2000 193
8.6 Number of municipalities related to categories of numbers of inhabitants, 1950-99 193
8.7 Immigration and emigration figures, 1950-99 195
8.8 Average annual population growth of the individual C-municipalities, of the C-municipalities as a whole and of the Dutch population, 1950 and 1970 196
8.9 Urban developments between 1950 and 1978 196
8.10 Number of municipalities, degree of urbanization, and migration balance of the determined categories, 1948-60 197
8.11 Annual growth rate of 24 selected Dutch agglomerations in % of the total agglomeration population, 1950-82 197
8.12 Percentages of internal migrants in relation to age for the years 1951 and 1960 198
8.13 Labour migration relative to labour force in the Netherlands (migrants with an occupation and labour force male heads of families) 199
8.14 Income development between 1950 and 1978 200
8.15 Income shares of cores and ring zones between 1950 and 1978 200
8.16 Migration effects in the 24 agglomerations (*1000), 1960 and 1978 203

# Figures

## PART ONE

1.1 A human activities model ............................................. 7  
1.2 Phases of differential urbanization ................................ 10  
1.3 An idealized characterization of one complete cycle of differential urbanization ................................................... 12  
1.4 Changing relationships between net migration rate and settlement size during a complete cycle of urban development .................................. 13  
3.1 The growth of urban centres over time ............................. 58  

## PART TWO-

**Britain**

5.1 Population change by URRA size group, 1951-91 ...................... 98  
5.2 Net migration for functional region size groups, by age and sex, Great Britain, 1990-91 ........................................ 105  

**France**

6.1 The French urban system, 1999 ....................................... 122  
6.2 Urban sprawl in France, 1968-99 ..................................... 127  
6.3 Changing growth rates of different zones of daily urban systems, 1968-99 ........................................ 128  
6.4 Concentration index of city size distribution, 1954-99 .......... 132  
6.5 Trajectories of main cities in the space of economic activities, 1968-90 .................................................. 134  

**Germany**

7.1 Proportion of population by settlement size, 1998 ............... 148  
7.2 Rank-size distribution of cities with at least 100,000 inhabitants, 1939 and 1998 ........................................ 148  
7.3 Cities by size and types of regions according to settlement structure ........................................................................... 150  
7.4 Population development in the German Empire, 1871-1940 .... 152  
7.5 Population change by type of region and time period, West
Germany
7.6 Proportion of population by year and type of region 158
7.7 Population change in West Germany by types of county 159
7.8 Population development of the GDR by settlement size 161
7.9 Population development of the GDR, 1950-89 167
7.10 Population development of the GDR by types of region and county, 1939-1990 168
7.11 Population development of selected cities in the GDR, 1939-90 170
7.12 Rate of migration balance according to age groups, type of county and time period (East Germany or new Länder) 172

The Netherlands
8.1 Agglomerations of the Netherlands, 1987 178
8.2 Development of population distribution related to degree of urbanization, 1960-90 180
8.3 Changes in population distribution between 1960 and 1990 181
8.4 Population distribution of C-municipalities between 1960 and 1990 182
8.5 Changes of population shares of C-municipalities between 1960 and 1990 183
8.6 Population distribution according to address density in 1992 and 2000 185
8.7 Change of population distribution between 1992 and 2000 186

Italy
9.1 Trends of Hoover values for selected Italian regions, 1951-99 190
9.2 The relationship between settlement size and population growth, Italy, 1951-99 191
9.3 Correlation between settlement size and population growth, Piedmont, 1951-99 192
9.4 Correlation between settlement size and population growth, Tuscany, 1951-99 193
9.5 Correlation between settlement size and population growth, Calabria, 1951-99 194
9.6 Population change in selected Italian FURs 195
9.7 Communes classified by period of maximum population 196

Finland
10.1 Net migration in different groups of cities, towns, and rural municipalities in Finland, 1941-98 202
10.2 Countryside types by municipality, 2001 203
10.3 The changes of labour market status until 1997 of those who
migrated in 1996 to the Helsinki labour market area as employed 258

10.4 The change in population structure, 1750-1900 261
10.5 The change in population structure, 1999-2050 262

Poland

11.1 Polish urban sizes, 1998 282
11.2 Rank size distribution of Polish towns, 1950 and 1998 283
11.3 Gross rural-to-urban and urban-to-rural migration in Poland, 1952-98 284
11.4 Foreign migration in Poland, 1948-98 285
11.5 Annual net migration by city size in Poland, 1952-98 286
11.6 Average net migration by city size in Poland, 1952-98 287

Romania

12.1 Urban network and distribution of population, 2000 298
12.2 The comparative rank-size distribution, 1966-92 300
12.3 The multicriterial hierarchy of towns 302
12.4 The territorial pattern of urban systems 304
12.5 A graphical representation of urban hierarchical arrangements 306
12.6 Rank variation of towns between 1966 and 1992 310
12.7 Main stages in the evolution of urban systems in the socialist period 318
12.8 Evolution of net migration by groups of settlements 325

Turkey

13.1 Youth, producer and elderly population, 1935-90, with a projection to 2070 333
13.2 Distribution of the population by region in 1950 and 1997 (1950 percentage / 1997 percentage) 336
13.3 Provinces by socio-economic development level 338
13.4 Differential urbanization in Turkey, 1950-97 340
13.5 Population rates of change, 1990-97 (%) 343
13.6 Annual population growth rates of provinces, 1990-97 (%) 344
13.7 Dynamics of migration 346
13.8 Migration between different types of settlements 352

The United States of America

14.1 High immigration metro areas 371
14.2 High domestic migration metro areas 371
14.3 High out-migration metro areas 371
14.4 Los Angeles 2025 age structure by race-ethnicity 387
14.5 Detroit 2025 age structure by race-ethnicity

Canada
15.1 The size of urban centres in Canada, 1996
15.2 Migration and shifts in the Canadian population growth, 1961-99
15.3 GDP growth of different sectors in Canada, 1971-2000
15.4 Interprovincial and international trade flows, 1984-99
15.5 Local and international trade of Canada, 1972-2000
15.6 Migration trends, Ontario, 1966-99
15.7 Migration trends, Quebec, 1966-99
15.8 Migration trends, Alberta, 1966-99
15.9 Migration trends, British Columbia, 1966-99

Mexico
16.1 Main cities and roads in the eighteenth century
16.2 The railway network before and after 1900
16.3 Population change by rank-size, 1950-95
16.4 Evolution of population by rank-size, 1950-95
16.5 Socio-economic changes by city-size categories
16.6 Regional and city-size distribution of migration flows originating in core and peripheral regions, 1985-90
16.7 Total migration flows between core and peripheral regions, 1985-90

Brazil
17.1 Map of Brazil

Japan
18.1 The spatial structure of the Japanese urban system
18.2 The hierarchical structure of the Japanese urban system
18.3 Migration efficiency for selected prefectures, 1955-90
18.4 Net internal migration for Japan’s largest metropolitan regions, 1954-97
18.5 Processes of economic change and migration to and from Tokyo, 1960-2000

South Korea
