CONTENTS

Preface xi

Acknowledgments xix

PART ONE Multimedia Needs Assessment and Analysis 1

1 Introduction to Multimedia Needs Assessment and Front-End Analysis 3

2 Needs Assessment 5

3 Front-End Analysis 14

4 Audience Analysis 17

5 Technology Analysis 20

6 Situational Analysis 26

7 Task Analysis 29

8 Critical Incident Analysis 34

9 Objective Analysis 37

10 Media Analysis 48

11 Extant Data Analysis 65

12 Cost Analysis 68

13 Rapid Analysis Method 71

PART TWO Multimedia Instructional Design 81

14 Introduction to Multimedia Instructional Design 83
15 Project Schedule 88
16 Project Team 93
17 Media Specifications 100
18 Content Structure 113
19 Configuration Control 131

PART THREE Multimedia Development and Implementation 137

20 Introduction to Multimedia Development 139
21 Common Development Components 145
22 Developing Computer-Based Learning Environments 156
23 Developing Internet, Intranet, Web-Based, and Performance Support Learning Environments 164
24 Developing Interactive Distance Broadcast Environments 178

PART FOUR Multimedia Evaluation 185

25 Introduction to Multimedia Evaluation 187
26 Purpose of Evaluation 190
27 Measures of Validity 195
28 Instrument Development and Measurement Plan 201
29 Collecting and Analyzing Data 214

APPENDIX A Instructional Design Process Step/Action Checklist 219
APPENDIX B Assessment and Analysis 227
APPENDIX C Development and Implementation 245
APPENDIX D Evaluation 248

APPENDIX E Tools 268
Assessment and Front-End Analysis Tools 269
Design Tools 288
Development and Implementation Tools 303
Evaluation Tools 327
