<b>1 Some introductory reflections</b>	<b>1</b>
MASSIMO G. COLOMBO	
<i>Introduction</i>	1
<i>Co-operative agreements among firms and the internalization of externalities</i>	2
<i>Technology, knowledge, the nature of the firm and the dynamics of competition</i>	5
<i>A competence-based view of co-operation among firms</i>	11
<b>PART I</b>	
<b>Alliance capitalism?</b>	<b>27</b>
<b>2 Reappraising the eclectic paradigm in an age of alliance capitalism</b>	<b>29</b>
JOHN H. DUNNING	
<i>Introduction</i>	29
<i>Hierarchical capitalism</i>	30
<i>Alliance capitalism</i>	34
<i>Reappraising the eclectic paradigm</i>	41
<i>Conclusions</i>	48
<b>3 On knowledge and power in the theory of the firm</b>	<b>60</b>
CHRISTOS PITELIS	

*Introduction* 60  
*Knowledge, power, and the theory of the firm* 61  
*A critique and proposed alternative* 65  
*Concluding remarks and policy implications* 68

X 4 **Blurring boundaries: new inter-firm relationships and the emergence of networked, knowledge-based oligopolies** 73  
 MICHEL DELAPIERRE AND LYNN KRIEGER MYTELKA

*Introduction* 73  
*Changes in the mode of competition* 73  
*Strategic partnering activity* 79  
*The emergence of networked, knowledge-based oligopolies* 83  
*Conclusion* 90

**PART II**  
**Joint ventures, alliances, and hierarchical integration** 95

5 **The evolution of collaborative activity in the firm** 97  
 NEIL M. KAY

*Introduction* 97  
*The evolution of collaborative activity* 98  
*The evolution of joint venture activity* 103  
*Patterns of joint venture activity* 107  
*Conclusions* 109

6 **Testing theories of joint ventures: Why Japanese investors in the United States choose joint ventures over acquisitions** 113  
 JEAN-FRANÇOIS HENNART AND SABINE REDDY

*Introduction* 113  
*Joint ventures in a comparative institutional perspective* 114  
*Research design and testable propositions* 122  
*Methodology and dependent variable* 126  
*Results* 131  
*Conclusions* 133

7 **A simultaneous equations model of technological agreements and infra-mural R&D** 140  
 MASSIMO G. COLOMBO AND PAOLA GARRONE

<i>Introduction</i>	140
<i>The theoretical hypotheses</i>	141
<i>The specification of the structural model</i>	145
<i>The results of the econometric estimates</i>	149
<i>Concluding remarks</i>	153

**8 Technological change and vertical integration:  
Analysis of international vertical integration in  
multinational companies** 158  
JOHN CANTWELL AND IVANA PANICCIA

<i>Introduction</i>	158
<i>The role of technology in static and dynamic theories of vertical integration</i>	158
<i>The nature of technology</i>	159
<i>Rate of growth of demand and rate of technological innovation</i>	160
<i>Economic and technological factors explaining vertical integration at an international level</i>	165
<i>Technological change and vertical integration in US MNCs in Europe: the evidence</i>	167
<i>Conclusion</i>	178

**PART III**  
**Supply relations** 185

**9 Cost, quality, and learning based governance of  
buyer–supplier relations** 187  
BART NOOTEBOOM

<i>Introduction</i>	187
<i>TCE</i>	189
<i>Learning</i>	190
<i>Specification of the model</i>	193
<i>The past: a Fordist world</i>	197
<i>The present: efficient quality</i>	199
<i>The future: a raplex world</i>	202
<i>World of the clan</i>	203
<i>Discussion</i>	204
<i>Appendix I</i>	206

<b>10</b>	<b>Japanese 'transplant' supplier relations: are they transferable? Should they be?</b>	<b>209</b>
	SUSAN HELPER	
	<i>Introduction</i> 209	
	<i>Data</i> 210	
	<i>Literature review</i> 211	
	<i>Supplier relations: performance and trends</i> 213	
	<i>Are the transplants creating good jobs – or a 'separate auto economy'?</i> 220	
	<i>Conclusion</i> 226	
<b>11</b>	<b>Customer–subcontractor relationships</b>	<b>234</b>
	EMILIO ESPOSITO AND MARIO RAFFA	
	<i>Introduction</i> 234	
	<i>Methodology of the research</i> 235	
	<i>Evaluation model of the inter-firm technology transfer channels</i> 240	
	<i>Structural characteristics of the Italian subcontracting system</i> 241	
	<i>The trend of the Italian subcontracting system</i> 247	
	<i>Results and conclusion</i> 249	
	<i>Index</i>	<b>257</b>

# ILLUSTRATIONS

## Tables

2.1	A reconfiguration of the eclectic paradigm of international production	43
4.1	Ranking of the main electronics components producers	79
6.1	Frequency count of Japanese entries into US industries by two-digit SIC (single industry entries only)	128
6.2	Means and correlations (coefficient/(t-statistic)/cases)	130
6.3	Parameter estimates for binomial logit model: greenfield joint ventures versus acquisitions	132
6.4	Classification table	133
7.1	Distribution of 1986 sales of the sample firms by geographical area and sector, and share of the universe	146
7.2	Results of the estimates of the structural simultaneous equations model	150
7.3a	Marginal effects of infra-mural R&D in the semiconductor and data processing industries	151
7.3b	Marginal effects of infra-mural R&D – niche strategy; defence industry; non-US	152
7.3c	Marginal effects of infra-mural R&D – diversification within and outside SDPT industries	152
8.1	The geographical distribution of sales and the structure of exports of US majority owned foreign affiliates 1966–89 (%)	169
8.2	The geographical distribution of sales and the structure of exports of US majority owned foreign affiliates in manufacturing 1966–89 (%)	169
8.3	The geographical distribution of sales and the structure of exports of US majority owned foreign affiliates located in the EC (10) 1977–89 (%)	170
8.4	The geographical distribution of sales and the structure of exports of US majority owned foreign affiliates in manufacturing located in the EC (10) 1977–89 (%)	171

## ILLUSTRATIONS

8.5a	The geographical distribution of the sales of all US majority owned foreign affiliates in manufacturing by industry – 1989	172
8.5b	The geographical distribution of the sales of all US majority owned foreign affiliates in manufacturing by industry – 1982	172
8.6	Variations between 1982 and 1989 (%)	173
8.7	Index of intra-firm trade. US majority owned foreign affiliates in manufacturing	174
8.8	Proportional growth of US patenting for the world's largest firms 1969–72 to 1986–90 (%)	177
8.9	US exports shipped to affiliates, by industry of affiliate and intended use – 1989	179
8.10	US exports shipped to affiliates, by industry of affiliate and intended use – 1982	180
8.11	Proportional change in US parent exports to affiliates, 1982–9	181
10.1	Performance measure summary results	214
10.2	Performance measure regression results	216
10.3	Supplier relations variable summary results	221
10.4	Supplier relations variable regression results	222
10.5	Job characteristic summary results	227
10.6	Job characteristic regression results	227
11.1	Main customers of the seventy-eight investigated subcontracting firms	238
11.2	Distribution of the seventy-eight investigated subcontractors by class of employees and geographical location	238
11.3	Production activities of the seventy-eight investigated subcontracting firms	239
11.4	Degree of collaboration between the seventy-eight subcontracting firms and the first two customers, by class of employees	243
11.5	Degree of collaboration between the seventy-eight subcontracting firms and the first two customers, by industries	243
11.6	Degree of utilization of the technology transfer channels between the subcontractor and its first two most important customers by industry	244
11.7	Weight of the first two customers on the seventy-eight subcontractors' turnover by industries	246
11.8	Weight of the first two customers in the seventy-eight subcontractors' turnover by class of employees	247
11.9	Firm's functions in the seventy-eight subcontractors by industries	250
11.10	Firm's functions in the seventy-eight subcontractors by class of employees	250

**Figures**

4.1	Growth of equity and non-equity strategic partnerships 1980–9	80
4.2	Operations of majority holding and merger/acquisition in industry, within the European Community	81
4.3	The main modes in the data processing networked oligopoly in 1993	87
4.4	Main nodes of the networked knowledge-based oligopoly in the biotech-based pharmaceutical industry	89
5.1	Merger versus joint venture	99
5.2	The evolution of collaboration	104
6.1	Necessary and sufficient conditions for equity joint ventures	117
6.2	Distribution of joint ventures and acquisitions over time (sample only)	128
9.1	Subgame of promiscuity	200
9.A1	Tree of the subgame	207
11.1	The stages of the research	237
11.2	The channels for technology-transfer model	241
