

Contents

1	Vocational Training for Computer-Integrated Production <i>Felix Rauner</i>	1
2	A Task-Centered Learning Concept <i>Jürgen Broschat, Walter Kötter and Tillman Krogoll</i>	5
3	Criteria of Basic Training in the Field of “Computer-Integrated Manufacturing (CIM)” <i>Michael Burgmer</i>	13
4	CIM - Postgraduate Studies. Job-Integrated Training for Engineers <i>Peter Fröhlich and Hans-J. Holland</i>	27
5	Study Units in the CIM-Oriented Study Factory <i>Martina Klocke</i>	38
6	CIM Training in the Learning Factory <i>Siegfried Reith</i>	52
7	A Laboratory Learning Factory Called the “Rulers Factory” <i>Johan Vesterager</i>	60
8	Network for Operating Production Technology <i>Jörg Kluger, Norbert Meyer and Helmut Richter</i>	75
9	Qualified CIM Training by a Car-Supplier <i>Heiner Mählick</i>	89
10	CIM Training Concept for Small and Medium-Size Enterprises (SME) <i>Markus Nüttgens and August Wilhelm Scheer</i>	92
11	The Teaching of Key Qualifications Using Integrated Learning Stations as Shown in the Example of the Flexible Learning Laboratory System (FLS) <i>Walter E. Theuerkauf and Andreas Weiner</i>	105
12	CIM Training for Open and Migrationable Technology <i>Wolf Martin</i>	120

13 Training Facilities for CIM <i>Flavio Canetti and Reinhold Dreßler</i>	124
14 CIM Training through CIM Practice <i>Frank Hanewinkel</i>	131
15 Vocational and Continuing Training in CIM - An Analysis of the FESTO/IBM Modular Training System <i>Willi Petersen and Manfred Schön</i>	143
16 CIM Training by Means of Simulation Models <i>Herbert Tilch</i>	159
17 FPASIM - A System Approach to Human-Centered, Flexible Production Automation (FPA) <i>Kuteiba Alshahid and Roland Thomas</i>	164
18 Simulation and Critical Human Factors; The Dutch Contribution to CIM Simulation <i>Henk Bolk</i>	173
19 Joint Project: Simulating Work and Technology - Development, Implementation and Application of Computer-Based Systems for Planning, Simulation and Animation in Manufacturing <i>Friedrich Wilhelm Bruns, Lüder Busekros and Axel Heimbucher</i>	188
20 FPA Training Within the Dutch Apprenticeship System <i>D. van der Ent and Peter de Jong</i>	196
21 Integrating Organisational Development and Learning Development in a CIM Context <i>Barry Nyhan</i>	207
22 New Methods of Interdisciplinary Education for Engineers and Computer Scientists in the Field of CIM <i>Klaus-Jürgen Peschges, Jürgen Bollwahn, Kai Maurer, Erich Reindel and Jörg Schumacher</i>	216
Appendix	233
