<i>Preface</i>	xv
<b>Introduction</b>	<b>1</b>
1.1 <i>The need for a new approach to social welfare</i>	1
1.2 <i>From utilitarianism to positivist subjectivism</i>	4
1.3 <i>Preference orderings and social choice</i>	12
1.4 <i>Justice, empathy, and the ‘veil of ignorance’</i>	17
1.5 <i>A positive theory of social welfare</i>	23
<b>PART I</b>	
<b>Evolution, behavior, and learning</b>	<b>27</b>
<b>2 Evolution and learning – the rise of behavioral plasticity</b>	<b>29</b>
2.1 <i>Learning and man’s success in evolution</i>	30
2.2 <i>From inherited to learned behavior</i>	32
2.3 <i>Behaviorist approaches to learning</i>	35
2.4 <i>Restrictions on the potentiality to learn</i>	39
2.5 <i>Cognitive sciences and learning</i>	41
<b>3 Motivation and well-being</b>	<b>51</b>
3.1 <i>Drives and needs</i>	52
3.2 <i>Drives and instincts</i>	56
3.3 <i>Fear and learned drives</i>	57
3.4 <i>Drives and incentives: push versus pull</i>	59
3.5 <i>Drive for cognition – what makes us think?</i>	62

3.6	<i>Drives and desires – an instrumental relationship</i>	64
3.7	<i>Habits – between drives and desires</i>	67
3.8	<i>Reason and wants – the empiricist philosopher’s view</i>	70
3.9	<i>Emotions – amplifiers of drives and origin of commitment</i>	75
3.10	<i>Conflicts between motivations</i>	82
3.11	<i>Motivation and hedonism</i>	85
3.12	<i>Motivation and well-being – a conclusion</i>	90
<b>4</b>	<b>Propagation of behavioral determinants</b>	<b>92</b>
4.1	<i>Natural selection and genes</i>	93
4.2	<i>Genes as replicators</i>	96
4.3	<i>Natural selection and adaptation</i>	97
4.4	<i>Learning and memes</i>	102
4.5	<i>Sociobiology and the relevance of memes</i>	104
4.6	<i>The functioning of memes in evolution</i>	107
4.7	<i>Two kinds of memes</i>	123
4.8	<i>Three kinds of replicators</i>	125
4.9	<i>The interaction of replicators</i>	127
4.10	<i>Conclusion</i>	132
<b>PART II</b>		
<b>Coordination, cooperation, and social welfare</b>		<b>135</b>
<b>5</b>	<b>The significance of the group for the evolution of order and cooperation</b>	<b>137</b>
5.1	<i>Coordination</i>	138
5.2	<i>Cooperation</i>	142
5.3	<i>Altruism and group-level selection in biology</i>	144
5.4	<i>Rationality and commitment in economics</i>	148
5.5	<i>Cooperation and social learning</i>	153
5.6	<i>Cooperation and economic institutions</i>	158
5.7	<i>Group selection and ‘spontaneous order’</i>	162
5.8	<i>The functional principles of social group selection</i>	166
5.9	<i>Fitness in the context of social group selection</i>	170
5.10	<i>Social group selection – some evidence</i>	173
5.11	<i>Adaptiveness of social group selection</i>	179
5.12	<i>Conclusions</i>	181

<b>6</b>	<b>Welfare and evolution</b>	<b>182</b>
6.1	<i>Cardinal utility and interpersonal comparability</i>	183
6.2	<i>Interpersonal comparison – empathy and moral principles</i>	185
6.3	<i>Social welfare versus individual well-being</i>	189
6.4	<i>Welfare comparison across cultures.<sup>2</sup> – The role of subjective well-being</i>	191
6.5	<i>The evolution of welfare</i>	199
6.6	<i>The normative approach to meta-criteria of welfare</i>	205
6.7	<i>Conclusions</i>	210
<b>7</b>	<b>Conclusions</b>	<b>212</b>
	<i>Notes</i>	220
	<i>References</i>	228
	<i>Index</i>	240

# Illustrations

## Figures

2.1	Classical conditioning	36
2.2	Operant conditioning	37
2.3	Steps to recognition by evaluating visual information	44
2.4	A network of propositions	48
3.1	The hierarchy of driving forces motivating human action	66
3.2	Structural and functional components of emotions within the brain	79
4.1	Schematic comparison of the evolution of genes and memes	110
4.2	Schematic representation of the interaction between genes and memes	112
4.3	The interaction of the replicators 'genes', 'norms and values', and 'hypotheses' in forming human behavior	128
5.1	Payoff matrix of the coordination game	139
5.2	Payoff matrix of the prisoner's dilemma game	143
5.3	The 'threat' game	152
5.4	The effect of emotions and dissonance avoidance on the respective payoff matrices of the former prisoner's dilemma and threat game	155
5.5	Characterizing of ethnocentrism according to Levine and Campbell (1972)	170
