PREFACE xvii

INTRODUCTION xxix
  Intended Audience xx
  Driving Principle xxi
  Organization of the Text xxiii

PART I. WHY SCENARIO-DRIVEN PLANNING? 1

1. PRODUCTIVITY AND STRATEGY 3
  1.1 The Productivity Dilemma 4
  1.2 Learning from Experience? 11
  1.3 A Way Out? 17
  Summary 19

2. ENVIRONMENTAL TRIGGERS AND SCENARIOS 21
  2.1 The Concept of Scenario 22
     History of the Concept 22
     Benefits of Scenario-driven Planning 23
  2.2 Areas of Application and Scenario Scope 24
  2.3 Example 1: Drucker’s Macroenvironmental Scenarios 28
  2.4 Example 2: GE’s Forecasting with Scenarios 31
  2.5 Example 3: Shell’s Classic Scenario Experience 33
  2.6 Why Are Forecasts Always Wrong? 35
     Forecasting with Delphi 35
     Shell’s Scenarios Were NOT Forecasts 38
Scenario-Driven Planning

Partial Model Test #2: Intended Rationality of Objective Setting 207
Bounded Rationality and Inefficiency in the Entire Model 207
From Downside Risk to Upside Potential of the Entire Model 209
Conclusion 213
Summary 213

PART VI. REPERCEIVING IN THE MULTIVERSE OF RATIONALITY 215

11. STRATEGY DESIGNS OF THE 1990s 217
11.1 Back from the USSR: A Commonwealth of Independent States 218
    Russia's Alternative Futures 219
    Potentially Expedient Levers 223
11.2 Reaching for the Transnational Gestalt 224
    Internationalization Archetypes 225
    Toward the Transnational Breakthrough 229
    The Transformation Prerequisites 232
    Conclusion 234
Summary 236

12. PLANNING TECHNOLOGY FOR THE 1990s 237
12.1 It Pays to Think Globally, but When in Rome… 238
    Planning Organizational Learning 238
    Modeling Organizational Learning 239
    Organizational Learning Scenarios 242
    Conclusion 244
12.2 Productivity and Organizational Learning 247
    The Root Metaphor 248
    Bridging the Gap 250
    Conclusion 255
Summary 255

PART VII. APPENDIX 257

A. THEORETICAL FOUNDATIONS OF SCENARIO-DRIVEN PLANNING 259
A.1 A Commonsense Approach to Scenarios Has Come of Age 260
    Background: Qualitative Versus Quantitative Scenarios 260
    Reference Scenarios Versus Interactive Planning 262
    Point Estimates Versus Probabilistic Scenarios 264
    Computing Scenarios for a Decision Situation 266
A.2 Some Recent Theoretical Contributions 267
A.3 Where Are We Headed in Scenario Analysis? 269
Summary 276
Contents

B. THE ART OF ORGANIZATIONAL LEARNING 277
  B.1 Modeling: Prelude To Organizational Learning 278
     Modeling What? 278
     The Modeling Process 280
  B.2 The Art of Plot Composition 284
     Schwartz's Macroenvironmental Scenario Rules of Thumb 285
     Schwartz's Steps to Developing Macroenvironmental Scenarios 286
     Summary 289

C. INTELLIGENCE-AMPLIFYING TOOLS 291
  C.1 Influence Diagramming (ID) 292
     Background: Early Developments 292
     Influence Diagramming (ID) 296
     Cognitive Mapping at the University of Bath 298
  C.2 Comprehensive Situation Mapping (CSM) 300
     Background: Systems Concepts 300
     Comprehensive Situation Mapping (CSM) 302
     Additional CSM Features 305
     CSM's Mapping Conventions 307
  C.3 Cross-Impact Matrix Multiplication Applied to Classification: The
     MICMAC Method 308
     Combining MICMAC with Infoplus' CSM 312
     Combining MICMAC with Combank's CSM 315
  C.4 Battelle Scenario Input to Corporate Strategy (BASICS) 318
     BASICS' Input 321
     Battelle's Computational Procedure 322
     BASICS' Output 324
     Conclusion 326
  C.5 System Dynamics Simulation Modeling Software 326
     The Zorbalander's College Fund: An Illustration of
     DYNAMO®, DYSMAP2, iThink™, STELLA®, and Vensim™ 327
     Summary 335

9.2.1 Combank's Scenario Input 176
C.4.1 Index Values Used in Defining BASICS' Cross-Impact Matrices 322
Illustrations

FIGURES

1 (a) Cause-&-Effect View of Early Human Relations School
(b) Japanese View of Management as Main Coproducer
(c) View Advocated in This Book

1.1.1 Cones of Resolution Showing the Contribution of Scenario-Driven
Planning to Strategic Management

1.2.1 Grouping Managerial Problems

2.4.1 GE’s Environmental Analysis Procedure Used from 1960
Until the Early 1980s

3.1.1 Environmental Dimensions and Perceived Uncertainty

3.2.1 Uncertainties Besetting Strategic Management

4.1.1 Examples of (a) a Corporate Model and (b) a CSM Causal Map

4.2.1 Changes in Strategy Framework Extending the One Presented
by Ginsberg (1988)

5.2.1 Infoplus’ Organization

5.3.1 Infoplus’ (a) Influence Diagram (ID) and (b) Comprehensive
Situation Map (CSM)

5.4.1 Grouping Strategic Variables According to Their Exposure and Influence

5.4.2 Overall (a) Exposure and (b) Influence at Infoplus

5.4.3 Grouping Infoplus’ Variables into Dispersing, Linking and Absorbing
According to Their Exposure and Influence

6.3.1 CSM of Combank’s Integrated View

6.4.1 Overall (a) Exposure and (b) Influence at Combank

6.4.2 Grouping Combank’s Variables into Dispersing, Absorbing
and Singular According to Their Exposure and Influence
