

# CONTENTS

## Preface v

### 1. Introduction 1

Types of Measurement Error	2
Latent Variable Representations of Measurement Error	4
Correlated Versus Uncorrelated Error	7
Measurement Precision	8
Analyzing Multiple-Indicator Models: An Introduction to LISREL	8
Path Diagrams as Linear Equations	20
Statistical Assumptions of Multiple Regression and Structural Equation Analysis	21

### 2. Qualitative Moderator Variables 23

Nested Goodness-of-Fit Strategy	24
Three-Way Interactions	31
Three-Way Interactions With More Than Two Groups	34
Effect Size of the Interaction	37
Standardized Versus Unstandardized Coefficients	38
Generalizability of Results Across Measures	39
Model Fit at Step 1	41
Main Effects and Interactions	41
Tests of Equality of Covariance Matrices	42
Exploratory Group Comparisons	42
Comparison With Traditional Multiple Regression Analysis	43

### 3. Repeated Measures and Longitudinal Designs 44

The Nested Goodness-of-Fit Test	47
Interaction Analysis With More Than Two Repeated Measures	47
Three-Way Interactions	50
Three-Way Interactions With More Than Two Groups	52
Effect Size of the Interaction	52
Generalizability of Results Across Measures	53
Comparison With Traditional Multiple Regression Analysis	53

<b>4. The Use of Product Terms</b>	<b>53</b>
Additional Matrices in LISREL	54
Statistical Constraints for Product Term Analysis	55
Estimation Issues	57
Programming Strategies	58
Three-Way Interactions	62
Effect Size of the Interaction	64
Generalizability of Results Across Measures	64
Centering	65
Multiple Product Terms	65
Complex Interactions With Continuous Variables	66
Product Terms for a Continuous Moderator Variable and a Qualitative Predictor	66
Comparison With Traditional Multiple Regression Analysis	66
Alternative Approaches	67
<b>5. General Considerations</b>	<b>68</b>
Obtaining Multiple Indicators	68
Decisions Concerning Sample Size	70
Multivariate Normality	74
Missing Data	77
Indices of Fit	79
Covariates and Single Indicators	80
Some Cautions	80
<b>Appendix A: Goodness-of-Fit Indices</b>	<b>80</b>
Tautological Predicted and Observed Covariances/Correlations	84
Deriving Predicted Variances, Covariances, and Correlations	85
Indices of Model Fit	86
<b>Appendix B: Data Sets Used in Examples</b>	<b>90</b>
Chapter 2	90
Chapter 3	92
Chapter 4	93
<b>References</b>	<b>94</b>
<b>About the Authors</b>	<b>98</b>
