| Executive summary   | xii |
| Introduction  | 1   |
| 1 The UK and German economies in the late 1980s                   | 8   |
| 2 The seven UK core cases   | 17  |
| Case No. 1: Fortex  | 18  |
| Case No. 1: (Appendix) - A visit to Fortex's parent,<br>Banek plc | 29  |
| Case No. 2: Litec   | 40  |
| Case No. 3: The Bryant Company                                    | 48  |
| Case No. 4: Vehicle Management Systems                            | 54  |
| Case No. 4: (Appendix) - The Dodo project                         | 65  |
| Case No. 5: Stonehill   | 67  |
| Case No. 6: Autodek   | 77  |
| Case No. 7: Cheyney Systems                                       | 91  |

|    |  |     |
|----|--|-----|
| 3  | The seven German core cases  | 95  |
|    | Case No. 8: Spock Auto   | 96  |
|    | Case No. 9: Spartan  | 105 |
|    | Case No. 10: Wagner  | 115 |
|    | Case No. 11: Crest   | 125 |
|    | Case No. 12: Rotheworks  | 133 |
|    | Case No. 13: Trucknaf  | 139 |
|    | Case No. 14: Failtes   | 146 |
| 4  | Analysis of the core cases   | 154 |
| 5  | Illustrating contrasting control styles in an Anglo-German partnership   | 197 |
| 6  | The analysis of non-core and core company basic control styles           | 219 |
| 7  | Evidence from the non-core cases: formal strategic analysis              | 246 |
| 8  | Evidence from the non-core companies: financial analysis                 | 299 |
| 9  | Miscellaneous points from the non-core companies which need more enquiry | 319 |
| 10 | The findings and their implications                                      | 341 |
|    | Bibliography   | 387 |

# Figures and tables

|            |   |     |
|------------|---|-----|
| Figure 1.1 | Investment by component manufacturers and motor vehicle manufacturers in Germany, 1985-1989   | 13  |
| Figure 1.2 | Net income gearing of industrial and commercial companies, 1970-1990  | 15  |
| Table 1.1  | Annual and annual average changes in consumer prices in UK and Germany, 1971-1989   | 16  |
| Table 1.2  | Nominal interest rates (Government bond yields) in UK and Germany, 1971-1989  | 16  |
| Table 1.3  | Real interest rates (Government bond yields deflated by RPI) in UK and Germany, 1971-1989   | 16  |
| Table 4.1  | Summary of analysis from core cases: hypothesized differences between German and UK motor component manufacturers in the late 1980s/early 1990s |     |
|            | Section 1: Main thrust of the enquiry   | 189 |
|            | Section 2: Themes emerging as 'by-products' of our main enquiry   | 192 |
| Table 6.1  | Ownership of sample of UK companies and type of investment  | 221 |

|           |  |     |
|-----------|--|-----|
| Table 6.2 | Ownership of sample of German companies and type of investment   | 222 |
| Table 6.3 | Features of basic control styles: UK companies   | 225 |
| Table 6.4 | Relationships to strong financial control in UK non-core company sample of motor component manufacturers | 227 |
| Table 6.5 | Control features of the full sample of UK motor component manufacturers                                  | 230 |
| Table 6.6 | Features of basic control styles: German companies   | 237 |
| Table 6.7 | Relationships to strong financial control in non-core German companies                                   | 238 |
| Table 6.8 | Control features of the full sample of German and UK motor component manufacturers                       | 241 |
| Table 7.1 | Strategic and financial analysis of investments: UK companies  | 251 |
| Table 7.2 | Strategic and financial analysis of investments: German companies  | 271 |
| Table 8.1 | Variations in ROCE, payback and IRR  | 314 |
