<b>Contributing Authors</b> .....	<b>xix</b>
<b>Introduction</b> .....	<b>xxv</b>
Knowledge Discovery .....	xxv
Exploratory Data Analysis and Data Mining.....	xxix
Traditional Methods .....	xxx
Self-Organizing Maps .....	xxxiv
Simple Example: Mapping Scotch Whiskies .....	xxxvi
Overview .....	xl

## Part 1: Applications

<b>1 Let Financial Data Speak for Themselves</b> .....	<b>3</b>
<i>Carlos Serrano-Cinca</i>	
1.1 Initial Analysis of Financial Data .....	3
1.2 SOM as a Tool for Initial Data Analysis .....	4
1.3 Integrating SOM into a Decision-Support System .....	18
<b>2 Projection of Long-term Interest Rates with Maps</b> .....	<b>24</b>
<i>Eric de Bodt, Philippe Grégoire and Marie Cottrell</i>	
2.1 Introduction .....	24
2.2 Building Blocks .....	26
2.3 Simulating Future Behavior using Historical Information.....	28
2.4 Application .....	28
2.5 Validation .....	35
2.6 Extension to Value-at-Risk .....	36
2.7 Conclusions .....	38

<b>3 Picking Mutual Funds with Self-Organizing Maps</b> .....	<b>39</b>
<i>Guido Deboeck</i>	
3.1 Exploratory Data Analysis .....	39
3.2 Morningstar Mutual Fund Database .....	40
3.3 A Simple Binary Example .....	40
3.4 Mapping Mutual Funds .....	45
3.5 Conclusions .....	57
<b>4 Maps for Analyzing Failures of Small and Medium-sized Enterprises</b> .....	<b>59</b>
<i>Kimmo Kiviluoto and Pentti Bergius</i>	
4.1 Corporate Failure – Causes and Symptoms .....	59
4.2 Self-Organizing Map as a Tool for Financial Statement Analysis	61
4.3 The Data .....	62
4.4 Results .....	63
4.5 Summary .....	71
<b>5 Self-Organizing Atlas of Russian Banks</b> .....	<b>72</b>
<i>Serge Shumsky and A.V. Yarovoy</i>	
5.1 Introduction .....	72
5.2 Overview of the Russian Banking System .....	73
5.3 Problem Formulation .....	75
5.4 Linear Analysis using PCA .....	75
5.5 Nonlinear Analysis or the Nonlinear PCA Extension .....	76
5.6 SOM of Russian Banks .....	77
5.7 A SOM Atlas of Russian Banks in 1994 .....	79
5.8 Evolution of Russian Banking from 1994 to 1995 .....	81
5.9 Conclusions .....	81
<b>6 Investment Maps of Emerging Markets</b> .....	<b>83</b>
<i>Guido Deboeck</i>	
6.1 Background .....	83
6.2 Performance and Risks of Investing in Emerging Markets ....	84
6.3 Patterns Among Emerging Markets .....	86
6.4 Strategic Implications of SOM for Investments in Emerging Markets .....	101
6.5 Conclusions .....	105
 <i>Color Plate Section follows Chapter 6</i>	
<b>7 A Hybrid Neural Network System for Trading Financial Markets</b> .....	<b>106</b>
<i>Marina Resta</i>	
7.1 Introduction .....	106
7.2 ISOG: Integrated Self-Organization and Genetics .....	107

7.3 Simulation Results .....	109
7.4 Conclusions .....	116
<b>8 Real Estate Investment Appraisal of Land Properties using SOM .....</b>	<b>117</b>
<i>Eero Carlson</i>	
8.1 Introduction .....	117
8.2 Geographic Information Systems .....	118
8.3 Visualization .....	119
8.4 Scaling .....	121
8.5 Sensitivity Analysis .....	122
8.6 Portfolio Computation .....	123
8.7 Adaptation to New Observations .....	124
8.8 Other Examples .....	124
8.9 Conclusion .....	127
<b>9 Real Estate Investment Appraisal of Buildings using SOM .....</b>	<b>128</b>
<i>Anna Tulkki</i>	
9.1 Characteristic Features of the Finnish Real Estate Market .....	128
9.2 The Data .....	129
9.3 Preprocessing of the Data and the Research Method .....	129
9.4 The Results .....	131
9.5 Component Planes of the Map .....	131
9.6 Conclusions .....	135
<b>10 Differential Patterns in Consumer Purchase Preferences using Self-Organizing Maps: A Case Study of China .....</b>	<b>141</b>
<i>Bernd Schmitt and Guido Deboeck</i>	
10.1 Introduction .....	141
10.2 What do we Know about Chinese Consumers? .....	142
10.3 A Selective Review of the Prior Segmentation Research .....	143
10.4 The CEIBS Survey .....	144
10.5 Methodology .....	144
10.6 Major Results .....	146
10.7 Conclusions .....	156
<b>Part 2: Methodology, Tools and Techniques</b>	
<b>11 The SOM Methodology .....</b>	<b>159</b>
<i>Teuvo Kohonen</i>	
11.1 Regression Principles .....	159
11.2 "Intelligent" Curve Fitting .....	160
11.3 The Self-Organizing Map Algorithm .....	163
11.4 The Neural Network Model of the SOM .....	165

11.5 Labeling the Neurons .....	166
11.6 The Batch Version of the SOM .....	167
11.7 Conclusion .....	167
<b>12 Self-Organizing Maps of Large Document Collections .....</b>	<b>168</b>
<i>Timo Honkela, Krista Lagus and Samuel Kaski</i>	
12.1 Introduction .....	168
12.2 WEBSOM for Document Map Applications .....	169
12.3 Document Map Creation .....	175
12.4 Conclusions .....	178
<b>13 Software Tools for Self-Organizing Maps .....</b>	<b>179</b>
<i>Guido Deboeck</i>	
13.1 Overview of Available Tools .....	179
13.2 SOM_PAK: The SOM Program Package .....	181
13.3 SOM: a MatLab Toolbox .....	184
13.4 Viscovery SOMine Lite: User-Friendly SOM at the Edge of Visualization .....	187
13.5 Appendix: Overview of Commercially Available Software Tools for Applying SOM .....	191
<b>14 Tips for Processing and Color-coding of Self-Organizing Maps .....</b>	<b>195</b>
<i>Samuel Kaski and Teuvo Kohonen</i>	
14.1 The SOM Array .....	195
14.2 Scaling the Input Variables .....	196
14.3 Initialization of the Algorithm .....	196
14.4 Selection of the Neighborhood Function and Learning Rate	196
14.5 Automatic Color-Coding of Self-Organizing Maps .....	197
<b>15 Best Practices in Data Mining using Self-Organizing Maps ..</b>	<b>203</b>
<i>Guido Deboeck</i>	
Main Steps in using Self-Organizing Maps .....	203
Sample Application on Country Credit Risk Analysis .....	212
Conclusions .....	229
<b>Notes .....</b>	<b>230</b>
<b>Glossary .....</b>	<b>233</b>
<b>Bibliography .....</b>	<b>242</b>
<b>Subject Index .....</b>	<b>250</b>
<b>Author Index .....</b>	<b>255</b>
<b>Website Index .....</b>	<b>257</b>
