

# CONTENTS

---

Preface.....	xi
Process Oriented, Performance Headed Strategy.....	1
<i>N. Acur, U. Bititci</i>	
Flexible job control in heterogeneous production structures .....	10
<i>D. Ansorge, C. Effert</i>	
Communication Network System for CAD of Functional Decomposition	17
<i>E. Arai, K. Shirase, H. Wakamatsu</i>	
A hierarchical model of distributed simulation of manufacturing systems	25
<i>B. R. Babic, G. D. Putnik</i>	
Short term production management in the context of cyclic delivery schedules .....	34
<i>Z. Bahroun, P. Baptiste, J.P. Campagne, M. Moalla</i>	
Floating beds - a flexible bed-management-system in a Swiss acute hospital.....	43
<i>N. S. Baschung, M. Henz, T. E. Ruppli</i>	
The information de-coupling point .....	50
<i>A.J.M. Beulens , M.H. Jansen , J.C. Wortmann</i>	
Dynamics of performance measurement systems .....	59
<i>U. S. Bititci, A. S. Carrie, T. Turner, P. Suwignjo</i>	
Flexible coordination and information sharing for virtual enterprises in PRODNET .....	67
<i>L. M. Camarinha-Matos, H. Afsarmanesh</i>	
Partners search and quality-related information exchange in a virtual enterprise .....	76
<i>L. M. Camarinha-Matos, H. Afsarmanesh, T. Cardoso</i>	
Project management interactive learning and project oriented learning organizations .....	85
<i>J. L. Cano, M. J. Sáenz, J.A. Cebollada</i>	
ECAS: a collaborative multi-agent system for mixed-model assembly lines programming.....	96
<i>M. Caridi</i>	

Trends in planning and control systems: APS – ERP integration.....	105
<i>M. Caridi, A. Sianesi</i>	
Clusters – the basis of competition.....	112
<i>A. S. Carrie</i>	
Assessing the performances of a market-like model through an experimental comparison with dispatching rules.....	120
<i>S. Cavalieri, M. Garetti, M. Macchi, M. Taisch</i>	
Integrated electronic commerce: an international laboratory for business-to-business integration.....	128
<i>P.K. Chang, T.R. Gullledge, P. Litvak, P. Norton, R. Sommer, A.J.C. Trappey, C. Trappey</i>	
Systems innovation tools.....	136
<i>K. Cormican, D. O'Sullivan</i>	
Management and optimization of multiple supply chains.....	144
<i>J. Dorn</i>	
A neural network approach to dynamic job shop scheduling.....	152
<i>T. Eguchi, F. Oba, T. Hirai</i>	
Supply chain management by using the electronic assistant.....	160
<i>J. Eschenbächer, E. Cocquebert</i>	
A modelling formalism for distributed manufacturing simulator.....	169
<i>S. Fujii, T. Kaihara, H. Morita, A. Ouchi</i>	
Statechart and automaton in the supervisory robust control.....	177
<i>S. Hadji, J. Favrel</i>	
Interorganizational patterns in collaboration – implications for Danish manufacturing industry.....	185
<i>M. W. Hansen, C. Møller</i>	
Knowledge management in Europe – results from a European survey....	193
<i>P. Heisig, K. Mertins</i>	
The development of a method for integration between different types of simulators.....	201
<i>H. Hibino, Y. Fukuda, M. Nakano, S. Sato</i>	
New generation of information system for the extended enterprise.....	212
<i>R. Hieber, R. Alard</i>	
Performance measurement for planning and control in SMEs.....	219
<i>M. Hudson, J. P. Bennett, A. Smart, M. Bourne</i>	
A reactive self-organised scheduling based on multi-agent paradigm.....	226

<i>T. Kaihara, S. Fujii, S. Kunimasa</i>	
A quality function deployment model of best practices in customer-supplier relationships.....	235
<i>A.K.Kochhar, M.K.Saeed</i>	
Performance management.....	243
<i>O. Krause, K. Mertins</i>	
The re-configurable enterprise – dynamic behaviour in manufacturing systems.....	252
<i>H. Kühnle, D. Markfort</i>	
CODA - Communication diagnosis.....	260
<i>H. Kühnle, S. Mertens</i>	
Challenge information logistics in decentralised structures.....	267
<i>H. Kühnle, K.-H. Sternemann</i>	
Tool for the evaluation of cooperations for product development between SMEs .....	276
<i>H. Kühnle, G. Wagenhaus</i>	
Supply chain management with a strategic modelling and simulation tool for virtual supplies.....	284
<i>H. Laurikkala, E. Pajarre</i>	
How can simulation help in supply chain development?.....	292
<i>J-M Lehtonen, J. Holmström</i>	
Concepts & tools for manufacturing planning, control and performance management.....	300
<i>H. Lengning</i>	
Integration of modeling and simulation of a production system using generalised stochastic petri nets.....	310
<i>V.I.N. Leopoulos, M. Tsoskounoglou, L. Tsikonis</i>	
Development of planning and scheduling reference models using the aris method & toolset.....	318
<i>D. Little, J. K. Porter, M. Peck, R. Rollins</i>	
Applying data mining to data analysis in manufacturing.....	324
<i>H. Maki, A. Maeda, T. Morita, H. Akimori</i>	
How to approach and implement strategic outsourcing programme in a global context – case study of Danish industrial enterprise.....	332
<i>J. Momme, H.H. Hvolby</i>	

IT tools for communication in multi-site manufacturing firms.....	340
<i>J. Olhager, M. Jessen</i>	
Concept of an integrated decision-making support and assessment system .....	348
<i>J. Petermann, S. Wirth</i>	
Improving product development: Towards a framework for integrating artefact and process models.....	357
<i>M. Ranta, M. Mäntylä, R. Smeds, P. Haho, Jukka Alvesalo</i>	
The learning curve revisited. A study in four companies.....	366
<i>B.O. Rorsted</i>	
Workflow management: enabling process integration in production management.....	375
<i>M. Rosemann, Chr. von Uthmann, D. Frink</i>	
Simulation in material flow design.....	384
<i>J. P. Saranen</i>	
Process configuration - combining the principles of product configuration and process planning .....	391
<i>K. Schierholt</i>	
Configuration of virtual value chains .....	399
<i>K. Schliffenbacher, W. Rudorfer, G. Reinhart</i>	
Varying concepts of planning and control in dependency upon characteristic features of logistics, branches and IT-support.....	408
<i>P. Schönsleben</i>	
Chaos detection and control in production systems.....	416
<i>B. Scholz-Reiter, M. Freitag</i>	
Knowledge management to achieve the zero-error-goal in small batch assembly.....	424
<i>G. Seliger, M. Thie</i>	
Competitive production networks through software-based reengineering and added value networks.....	432
<i>W. Sihn, U. Mussbach-Winter, Th. Hägele, O. Deutsch</i>	
Knowledge management in global product development: cultural and technological differences .....	440
<i>R. Smeds, J. Amelingmeyer, A. Kalvelage, M. Corso, P. Olivari</i>	

Formal description technique SDL for manufacturing systems specification and description.....	449
<i>R. M. Sousa, G. D. Putnik</i>	
Context sensitive provision of enterprise information with a hypermedia based open system architecture .....	457
<i>D. Spath, K.-H. Sternemann</i>	
Object-oriented simulation of real-time scheduling in holonic manufacturing systems.....	466
<i>N. Sugimura, Y. Tanimizu, S. Ae</i>	
Procurement of information technology as an integral part of business process improvement .....	474
<i>H. Sundmaeker</i>	
A simulation engine to support production scheduling using genetics-based machine learning.....	482
<i>H. Tamaki, V.V. Kryssanov, S. Kitamura</i>	
Multiobjective combinatorial optimization for performance evaluation by a metaheuristic satisficing tradeoff method.....	490
<i>H. Tamura, T. Shibata, I. Hatono</i>	
Business process assessment using discrete simulation.....	498
<i>I. P. Tatsiopoulos, N. A. Panayiotou, S. T. Ponis</i>	
Ensuring innovation competence in companies in emerging markets through the introduction of new quality methods .....	505
<i>M. Thie, L. Grotrian-Pahl, G. Dias da Cunha, J. L. Duarte Ribeiro, K. Narashiman</i>	
Evaluation of three methods for supply chain modelling .....	514
<i>J.H. Trienekens, H.H. Hvolby</i>	
Eliminating hurdles to trust in electronic commerce .....	522
<i>R.J. van den Berg, J.M. van Lieshout</i>	
Experimental comparison of control architectures.....	530
<i>J.M. van de Mortel-Fronczak, J.P.M. Schmitz, J.E. Rooda</i>	
Servitization in the automotive sector: creating value and competitive advantage through service after sales.....	538
<i>S. Verstrepen, D. Deschoolmeester, R. van den Berg</i>	
Management of distributed capacities in variable production networks..	546
<i>H.-P. Wiendahl, S. Lutz, K. Helms</i>	

An object-oriented assembly modeling approach .....	556
<i>Y. Yue, O. Salomons, H.J.J. Kals, F.J.A.M. van Houten</i>	
A simulation based approach for analysing benefits of workflow system integration in customer order processing .....	565
<i>G. Zülch, O. Strate</i>	
Index of contributors .....	573
Keyword index .....	579
