

Contents

1. Introduction	9
2. Short-Run Equilibrium	16
3. Long-Run Equilibrium	20
3.1. Long-Run Equilibrium	20
3.2. Process of Adjustment	25
3.3. Simulation	30
3.4. Public Consumption in Utility Function	41
4. Process of Adjustment	43
4.1. Short-Run Equilibrium	43
4.2. Medium-Run Equilibrium	48
4.3. Long-Run Equilibrium	48
4.4. Process of Adjustment	49
4.5. AD-AS Diagram	54
5. Investment Shock and Cyclical Adjustment	58
5.1. Economy Without Public Sector	58
5.1.1. Overlapping Generations Model	59
5.1.2. Multiplier-Accelerator Model	60
5.1.3. Simulation	62
5.2. Economy With Public Sector	66
5.2.1. Overlapping Generations Model	67
5.2.2. Multiplier-Accelerator Model	67
5.2.3. Simulation	69
5.3. Economy With Fiscal Policy	74
5.3.1. Overlapping Generations Model	74
5.3.2. Multiplier-Accelerator Model	75

5.3.3. Simulation	77
5.4. Alternative Paths	81
5.4.1. Stability	82
5.4.2. Damped Oscillations	82
5.4.3. Explosive Oscillations	86
6. Investment Shock, Public Interest and Cyclical Adjustment	92
6.1. Economy With Public Sector	92
6.1.1. Overlapping Generations Model	92
6.1.2. Multiplier-Accelerator Model	93
6.1.3. Simulation	96
6.2. Economy With Fiscal Policy	98
6.2.1. Overlapping Generations Model	100
6.2.2. Multiplier-Accelerator Model	100
6.2.3. Simulation	103
6.2.4. Restoring Stability	104
6.3. Stability	109
7. Extensions	117
7.1. The Concept of Full Employment	117
7.2. Investment Shock	120
7.2.1. Money Finance of Budget Deficit	120
7.2.2. Investment Subsidy	122
7.2.3. Monetary Policy	124
7.3. Monetary Shock	125
7.3.1. Process of Adjustment	126
7.3.2. Fiscal Policy	128
7.3.3. Monetary Policy	129
7.4. Growing Economy	130
7.4.1. Fiscal Policy	130
7.4.2. Optimum Fiscal Policy	137
8. Conclusion	142
9. Result	148
