Opening Remarks xxi

Donald J. Ecobichon, Ph.D.

Part I 1

1. The Chemical Characterization of Environmental Tobacco Smoke 3

Delbert J. Eatough, Ph.D. with Lee D. Hansen, Ph.D. and Edwin A. Lewis, Ph.D.

2. Panel Discussion on Chemical Characterization 41

Part II 51

3. Assessing Exposures to Environmental Tobacco Smoke 53

Howard D. Goodfellow, Ph.D., with S. Eyre, M.H.Sc., and J.A.S. Wyatt, P. Eng.

4. Biological Markers in Assessing Exposure to Environmental Tobacco Smoke 69

Mark J. Reasor, Ph.D.

5. Panel Discussion on Exposure and Dose 79

Part III 97

6. Environmental Tobacco Smoke and Cancer: The Epidemiologic Evidence 99

Maxwell W. Layard, Ph.D.

7. Panel Discussion on Lung and Other Cancers 117

Part IV 137

**8. Environmental Tobacco Smoke and Cardiovascular Disease:
A Critique of the Epidemiological Literature and
Recommendations for Future Research 139**

Lawrence M. Wexler, Ph.D.

9. Panel Discussion on Cardiovascular Disease 153

Part V 167

**10. Effects of ETS Exposure on Pulmonary Function and
Respiratory Health in Adults 169**

Philip Witorsch, M.D.

11. Panel Discussion on Adult Respiratory Health 187

**12. Parental Smoking and Respiratory Health and Pulmonary
Function in Children: A Review of the Literature 205**

Raphael J. Witorsch, Ph.D.

13. Panel Discussion on Child Respiratory Health 227

Part VI 239

**14. An Assessment of Potential Effects of Environmental
Tobacco Smoke on Prenatal Development and
Reproductive Capacity 241**

Ronald D. Hood, Ph.D.

15. Panel Discussion on Reproductive Effects 271

Part VII 291

**16. Risk Assessments Relating to Environmental
Tobacco Smoke 293**

Alan J. Gross, Ph.D.

17. Panel Discussion on Risk Assessment 303

Part VIII 331

**18. Indoor Pollution: Sources, Effects and
Mitigation Strategies 333**

Gray Robertson

19. Panel Discussion on Indoor Air Quality 357

Summary and Concluding Remarks 367

Joseph M. Wu, Ph.D.
