Preface

1 THE PARADIGM OF GERMAN INDUSTRIALISATION: SOME RECENT ISSUES AND DEBATES IN THE MODERN HISTORIOGRAPHY OF GERMAN INDUSTRIAL DEVELOPMENT ... 1
Robert Lee

2 FOREIGN COMPETITION AND TECHNOLOGICAL CHANGE: BRITISH EXPORTS AND THE MODERNISATION OF THE GERMAN IRON INDUSTRY FROM THE 1820s TO THE 1860s ... 47
Rainer Fremdling

3 TARIFFS AND MARKET STRUCTURE: THE GERMAN ZOLLVEREIN AS A MODEL FOR ECONOMIC INTEGRATION ... 77
R.H. Dumke

4 BANKING AND ECONOMIC GROWTH: BANKS AND INDUSTRY IN GERMANY IN THE NINETEENTH-CENTURY AND THEIR CHANGING RELATIONSHIP DURING INDUSTRIALISATION ... 116
Wilfried Feldenkirchen

5 CYCLICAL TRENDS AND THE MARKET RESPONSE: LONG SWINGS IN URBAN DEVELOPMENT IN GERMANY, 1850-1914 ... 148
Richard Tilly

6 SECTORAL PERFORMANCE AND ECONOMIC DEVELOPMENT: THE BACKWARD LINKAGES OF THE GERMAN PIG-IRON INDUSTRY, 1871-1913, AS A FACTOR IN MACRO-ECONOMIC GROWTH ... 185
Jochen Krengel
7 NEW INDUSTRIES and THE ROLE OF THE STATE: THE DEVELOPMENT OF ELECTRICAL POWER IN SOUTH GERMANY FROM C.1880 TO THE 1920s. Hermann Schaefer

9 GERMANY AND THE INTERNATIONAL ECONOMY: THE ROLE OF THE GERMAN INFLATION IN OVERCOMING THE 1920/1 UNITED STATES AND WORLD DEPRESSION. Carl L. Holtfrerich

10 OCCUPATION POLICY AND POST-WAR RECONSTRUCTION: BRITISH MANPOWER POLICY IN THE RUHR COAL-MINES, 1945-1947, AND WEST GERMAN ECONOMIC RECOVERY. Mark Roseman

Tables

2.1 Ratio of British bar-iron exports (including rails) to pig-iron exports, 1821-1870 ............... 61
2.2 Iron production in Prussia, 1836-1865, in 1000 metric tons and per cent (produced from charcoal and mineral fuel) ........................................... 62
2.3 Railway-derived demand for iron (in pig-iron equivalents) in Germany, 1840-1859 .................. 63
2.4 National suppliers of the stock of rails on Prussian Railways, 1843-1863 (in per cent) ........... 63
2.5 Belgian pig-iron exports to Germany, 1841-1856, (in tons and per cent) ............................. 64
2.A1 British pig-iron exports to major countries, 1821-1870, in per cent and metric tons .................. 67
2.A2 British bar-iron exports to major countries, 1821-1870, in per cent and metric tons .................. 68
2.A3 British exports of railway iron to Germany, Holland, France and the USA, 1856-1870, in per cent and metric tons ......................................................... 69
2.A4 British pig-iron and bar-iron exports to different countries, 1821-1835, annual averages in per cent . 70
2.A5 British pig-iron exports to different countries, 1836-1870, annual averages in per cent ............. 72
2.A6 British bar-iron exports (until 1855 including rails) to different countries, 1836-1870, annual averages in per cent ......................................................... 74
2.A7 British exports of railway iron to different countries, 1856-1870, annual averages in
3.1 Investment, output and employment in German cotton mills, 1830-1842

3.2 Costs of tariff collection in German customs areas

3.3 The Structure of Central Government revenues in several Zollverein member states, 1820-1850 (per cent of total net revenues)

4.1 Average annual growth rates of balance sheet totals of enterprises in selected industrial sectors (in per cent), 1879-1913

4.2 Representation of the 'Big Banks' on the supervisory boards of German joint-stock companies, by sector (chairmen/vice-chairmen)

4.3 Share of bank balances in current assets, 1894/95-1913/14, in per cent

5.1 Annual average rates of growth of population in Prussian cities with 20,000 or more inhabitants, 1819-1910

5.2 Population growth and natural increase in Prussian cities, 1865-1905, (per 1000 inhabitants per year)

5.3 Zero-order correlations, housing stock and selected variables (rates of growth), Hamburg, 1874-1913

5.4 Indicators linking German urban growth and emigration, 1819-1910, (annual average rates of change in per cent)

6.1 The absolute and relative contributions of the German pig-iron industry to net national product and total employment, 1871-73,1908-11

6.2 The demand of the pig-iron industry as a share of the output of selected industrial sectors, 1871-73,1908-11

6.3 Total employment in selected industrial sectors and in the German economy (in 1,000), 1871-73, 1908-11

6.4 Induced employment (in 1,000) created by the demand of the pig-iron industry, 1871-73,1908-11

6.5 The direct and indirect contributions of the pig-iron industry to employment, in absolute terms (in 1,000), and as a proportion of total employment, 1871-73,1908-11

6.6 Induced employment generated by the pig-iron industry rearranged in absolute terms (in 1,000), and in relation to total sectoral employment, 1871-73,1908-11

6.7 Total value added in selected industrial branches and net national product in million Marks and in
6.8 Induced value added generated by the pig-iron industry in mining and transportation, in million Marks and in constant 1913 prices, 1871-73, 1908-11 .............................. 198

6.9 The direct and indirect contributions of the pig-iron industry to net national product, in absolute terms, in million Marks and in constant 1913 prices, and in per cent, 1871-73, 1908-11 .. 199

8.1 I.G. sales, the proportional share of products, 1913-1943, in per cent .................. 256

8.2 The regional distribution of I.G. export sales, 1913-1941, in per cent .................. 257

8.3 The proportional composition of I.G. exports, 1913-1937, in per cent .................. 257

8.4 Companies (with capital of more than 1 million R.M.) in which I.G. was involved, 1931 .......... 258

8.5 The twelve largest German chemical companies c.1929 ................................. 261

8.6 Investment and staff in I.G., 1927-1942 ............... 262

8.7 I.G. sales during the depression (average rate of change, 1929-1933, in per cent) ........ 263

8.8 I.G. investment priorities, 1933-1944, ranked by value ................................. 264

8.9 Output of selected products from 1933 until 1943 (in tons) ............................... 264

9.1 German foreign trade (special trade calculated in 1913 unit values), in million Goldmarks 276

9.2 The share of individual commodities in total German imports in 1921 (special trade calculated in 1913 unit values), and the proportion of products of US origin ..................... 277

9.3 The share of US exports to total US production for individual commodities (c.1920-3) ... 278

9.4 German imports of individual foodstuffs and raw materials (total, and from the US) in 1,000 tons 279

9.5 US exports of goods of indigenous and foreign origin (1919-1923) in million dollars (total, to Europe, U.K. and to Germany) ................. 280

9.6 US exports of indigenous cotton in million lbs and dollars, 1919-1923 (total, to U.K. and to Germany) .. 282

9.7 US export prices of indigenous goods in dollars (monthly average), 1919-1923 ............... 284
Figures

4.1 Number of stock companies founded between 1871 and 1913 and their respective average share capital in million Marks .......................... 124

4.2 Share capital of newly-founded joint-stock companies in million Marks, 1871-1913, and issue of stocks in industry in million Marks 1883-1913 .......................... 125

4.3 Placement of securities in Germany 1883-1913 in million Marks ..................................................... 130

5.1 Index of annual urban housing investment in Germany, 1867-1913 .................................................. 151

5.2 Annual rate of growth of housing stock and urban population in Prussia, 1816-1913 .................................. 152

5.3 Annual rate of growth of stock of dwellings and population in three cities, 1815-1913 .......................... 153

5.4 Annual growth rates of dwelling stock and net migration in Berlin, 1841-1909 (3-year moving averages) .................. 154

5.5 Annual rate of growth of stock of dwellings, population and net migration, Hamburg, 1871-1913 (3-year moving averages) ........................................... 155

5.6 Annual rate of growth of stock of dwellings in Hamburg, 1867-1912 .................................................. 156

5.7 Auto correlation, annual rate of growth of stock of dwellings in Hamburg, 1867-1912 .......................... 157

5.8 Indices of housing investment, building costs and rents, Germany 1870-1913 (annual data, trend removed) .................................................. 165

8.1 I.G. Farben industriis: AG Organisation Plan (1931) ................................................................. 226
