

TABLE OF CONTENTS

SUMMARY	11
<i>Chapter one.</i> INTRODUCTION	15
1.1 Why performance indicators?	15
1.2 The pressure to “perform”	17
1.3 The context of regulatory change	17
1.4 The context of technological change	21
1.5 Structure of the report	21
<i>Chapter two.</i> METHODOLOGIES FOR INTERNATIONAL TARIFF COMPARISONS	23
2.1 Introduction	23
2.2 Definitional and methodological issues	25
2.3 Building a better basket: A review of the literature	29
2.3.1 Rate comparisons, call pairs or baskets?	29
2.3.2 Basket composition: Review of previous research	30
2.3.3 Alternative user baskets	32
2.4 Basket composition: Proposals for a harmonised methodology	34
2.5 Basket weightings	39
2.6 International units of comparison	40
2.7 Non-tariff issues	41
<i>Chapter three.</i> TOWARDS A HARMONISED TARIFF COMPARISON METHODOLOGY	43
3.1 Introduction	43
3.2 Guiding principles for a tariff comparison methodology	43
3.3 Comparisons of national telephone charges	44
3.3.1 Implementing the methodology	44
3.3.2 A basket for national calls	49
3.4 Methodological tests	54
3.4.1 Test of assumptions	54
3.4.2 Comparison with other methodologies	57
3.5 Comparison of international call charges	59
3.6 Comparison of mobile service charges	60
3.6.1 Methodology for mobile service comparisons	60
3.6.2 Mobile tariff comparison model	62
3.6.3 Mobile tariff basket	62

3.7	Comparison of leased line charges	65
3.7.1	Leased line services	65
3.7.2	Methodology for leased line comparisons	65
3.7.3	Analysis of leased line charges	66
3.7.4	Break-even points for leased lines	71
3.8	Comparison of packet-switched data communications charges	71
3.8.1	Data communications technology	71
3.8.2	Packet switching tariffing	74
3.8.3	A basket of packet-switching charges	74
3.8.4	Analysis of packet-switched data communications basket	75
3.9	A composite business user basket	76

Chapter four. TARIFF STRUCTURES AND TRENDS OVER TIME 81

4.1	Introduction	81
4.2	Telecommunications pricing strategies	81
4.2.1	Tariff principles	81
4.2.2	Tariff structure indicators	83
4.2.3	Rate restructuring in selected OECD countries	88
4.3	Tariff trends in selected OECD countries	90
4.3.1	Fixed charges	91
4.3.2	National call charges	92
4.3.3	International call charges	93
4.3.4	Leased circuit charges	94
4.3.5	Tariff baskets	95
4.4	Tariff trends and economic performance	96
4.4.1	Telecommunications price series	97
4.4.2	Purchasing Power Parities	101
4.4.3	Price capping: The UK experience	103

Chapter five. QUALITY OF SERVICE INDICATORS 105

5.1	Introduction	105
5.2	The theory of Quality of Service	106
5.3	Quality of Service reporting in OECD Member countries	109
5.3.1	United States	109
5.3.2	Japan	112
5.3.3	Canada	113
5.3.4	Australia	113
5.3.5	New Zealand	114
5.3.6	Belgium	115
5.3.7	Denmark	115
5.3.8	Finland	115
5.3.9	France	116
5.3.10	Germany	118
5.3.11	Greece	118
5.3.12	Ireland	118
5.3.13	Italy	119
5.3.14	The Netherlands	120
5.3.15	Norway	120
5.3.16	Portugal	120
5.3.17	Spain	121
5.3.18	Sweden	121
5.3.19	Switzerland	123
5.3.20	United Kingdom	123

5.4.	Quality of service reporting by indicator	124
5.4.1	Waiting time for connection	125
5.4.2	Switching technology	127
5.4.3	Public payphones	128
5.4.4	Call failure rates	129
5.4.5	Fault reporting and clearance	131
5.4.6	Response times	132
5.4.7	Other quality measures	133
5.5	Recommendations for Quality of Service Indicators	133
5.5.1	Waiting time for connection/Delivery precision	135
5.5.2	Effective payphone density	136
5.5.3	Call failure rates	136
5.5.4	Fault reports	136
5.5.5	Fault clearance	136
5.5.6	Response times for operator services	137
5.5.7	Non-published service quality indicators	137

Chapter six. EFFICIENCY, PRODUCTIVITY AND OTHER MEASURES OF PTO PERFORMANCE 139

6.1	Introduction	139
6.2	Measures of size and growth	139
6.2.1	Network size	139
6.2.2	Penetration rates	143
6.2.3	Telecommunications revenues	143
6.2.4	Telephone traffic	144
6.3	Public Telecommunications Operator cost structures	146
6.3.1	Turnover, profitability, tax and indebtedness	146
6.3.2	Cost structures for the US Bell system	147
6.3.3	Revenue base of the Luxembourg PTT	149
6.4	Investment	150
6.4.1	Capital investment	150
6.4.2	Research and development	153
6.5	Measures of efficiency and productivity	154
6.5.1	Network utilisation	154
6.5.2	Labour productivity	155
6.5.3	Other measures of productivity	156

Chapter seven. CONCLUSIONS 159

7.1	The use and abuse of performance statistics	159
7.2	A choice of indicators	160
7.2.1	Telephone charges	160
7.2.2	Other subscriber charges	161
7.2.3	Tariff structure indicators	162
7.2.4	Quality of service indicators	163
7.2.5	Other indicators of productivity and efficiency	164
7.3	Research hypotheses for performance disparities	166
7.3.1	Level of development	167
7.3.2	Economies of scale	167
7.3.3	Density of population	168
7.3.4	Level of investment	168
7.3.5	Index of liberalisation	168
7.3.6	Level of penetration	168
7.4	Directions for future research	169

7.5	Guidelines for the application of performance indicators	170
-----	--	-----

Appendices

1	Glossary of acronyms and abbreviations	173
2	Worked example of business user spreadsheet	176
3	Exchange rates and purchasing power parities	177

BIBLIOGRAPHY	179
-------------------------------	------------

LIST OF FIGURES

A.	Guiding principles for international telephone tariff comparison methodologies	12
B.	OECD recommendations for quality of service indicators for Public Telecommunications Operators	13
1.1	Public Telecommunications Operators: The pressure to “perform”	16
1.2	The accelerating pace of telecommunications reform: OECD Member countries, 1984-1991	18
1.3	Selected indicators of telecommunications liberalisation	20
2.1	Telephone revenue as a percentage of total PTO revenue, 1978 and 1987, OECD Member countries	24
2.2	Structure of telephone tariffs in OECD Member countries	26
2.3	Income from the telephone service, percentage distribution, OECD Member countries, 1986	28
2.4	Telecommunications taxes in OECD Member countries, 1990	29
2.5	Summary of tariff basket composition	31
2.6	Meter units in terms of value and call duration for OECD Member countries, 1990	36
2.7	Charge zones by distance, OECD Member countries, 1990	37
2.8	Average long distance call charges by time of day, OECD Member countries, 1988	38
3.1	The OECD methodology for calculating the business telephone basket	45
3.2	Fixed charges basket, business and residential subscribers, November 1989	46
3.3	Composition of tariff baskets in terms of fixed charges and usage charges	47
3.4	Composition of national tariff basket calls by distance for different user groups and country sizes	47
3.5	Percentage distribution of calls by time of day/week	48
3.6	Duration of national calls by distance and time of day/week	48
3.7	Basket of national telephone usage charges, business and residential subscribers, November 1989	50
3.8	OECD basket of national telephone charges, business and residential subscribers, November 1989	51
3.9a	OECD basket of business telephone charges and US\$ exchange rates and PPPs, November 1989	52
3.9b	OECD basket of residential telephone charges, in US\$ exchange rates and PPPs, November 1989	53
3.10a	Outcome of tariff comparison model under alternative assumptions	55
3.10b	Outcome of tariff comparison model under alternative assumptions	56
3.11	Ranking of selected OECD countries under alternative telephone tariff comparison methodologies	58
3.12	Formulae used in calculating basket of international calls	59
3.13	International telephone charge basket in indices, business and residential subscribers, November 1989	60

3.14	OECD basket of international telephone charges, ranked by country, November 1989	61
3.15	OECD basket of mobile communications charges, November 1989	63
3.16	OECD basket of mobile telephone charges, ranked by country, November 1989	64
3.17	OECD basket of 9.6 kbit/s, 64 kbit/s, and 1.5/2.0 Mbit/s leased circuit charges, selected OECD countries, November 1989	67
3.18a	Basket of charges for 9.6 kbit/s leased lines	68
3.18b	Basket of charges for 64 kbit/s leased lines	69
3.18c	Basket of charges for 1.5/2.0 Mbit/s leased lines	70
3.19	Break-even points for 9.6 kbit/s leased lines against PSTN circuits, by distance, in minutes, November 1989	72
3.20	OECD basket of packet-switched data communications charges, November 1989	76
3.21	OECD basket of packet-switched data communications charges, ranked by country, November 1989	77
3.22	Composite basket of business telecommunications service charges, ranked by country, November 1989	78
4.1	Fixed charges as a percentage of the residential tariff basket, November 1989	84
4.2	Local call charges as a percentage of long distance charges, November 1989	85
4.3a	Volume of national calls (in minutes), 1988	86
4.3b	Volume of international calls (in minutes), 1988	86
4.3c	International calls as a percentage of total calls, 1988	86
4.4	The relative cost of national and international call baskets, November 1989	87
4.5	The relative cost of mobilephone and PSTN national call baskets, November 1989	87
4.6	Percentage change in fixed charges, 1980-1987	91
4.7	Percentage change in national call charges, 1980-1987	92
4.8	Percentage change in international call charges, 1980-1987	93
4.9	Percentage change in leased circuit rental charges, voiceband (1980-87) and wideband (1983-87)	94
4.10	Changes in composition of residential tariff basket, selected OECD countries, 1979 and 1988	95
4.11	Charges in composition of business tariff basket, selected OECD countries, 1979 and 1988	96
4.12	Japanese price trends, 1978-1988	98
4.13	Annual change, US consumer price index and telephone price index, 1945-1986	99
4.14	Price trends for US telephone services, 1977-1986	100
4.15	Purchasing power parities for communications prices, selected OECD countries, 1980 and 1985	102
5.1a	Price demand curve under neo-classical economics	108
5.1b	Price demand curve under conditions of price and quality competition	108
5.2	Quality of service indicators, US Bell Operating Companies, 1988	110
5.3	Quality of service in the US BOCs, June 1985 - January 1988	111
5.4	Quality of service indicators: Telecom Australia, 1987-89	114
5.5	Network quality index by region, France 1987	117
5.6	Quality of service statistics, Greece, 1984/5 and 1987	118
5.7	Quality of service statistics, Ireland, 1983-1989	119
5.8	Quality of service statistics, Italy, 1985/87 and 1988	119
5.9	Quality of service statistics, Norway, 1988, 1989 and Target	121
5.10	Quality of service statistics, Spain, 1986	122
5.11	Quality of service statistics, Sweden, 1986 and targets for 1987-89	122
5.12	Quality of service statistics, British Telecom, 1987, 1989 and 1990 target	124
5.13	Waiting time for telephone installation, selected OECD member countries, 1979-1987	126
5.14	International direct dialling, and automatic exchanges, 1987	128

5.15	Public payphones in OECD countries, 1986	129
5.16	Call failure rates in selected OECD countries	130
5.17a	Fault reporting rates in selected OECD countries	131
5.17b	Fault clearance rates in selected OECD countries	132
5.18	Current status of quality of service reporting, OECD countries, 1989	134
6.1	Installed base of telephone main lines, growth and penetration rate, OECD countries, 1978 and 1987	140
6.2	Installed base of telephone main lines, OECD countries, 1978 and 1987	141
6.3	Penetration rate of telephone main lines, selected OECD countries, 1974-1987	142
6.4	Telecommunications revenues 1987, growth, 1978-87, and as percentage of GDP	144
6.5	Top twenty Public Telecommunications Operators by traffic volume, 1986	145
6.6	PTO turnover, indebtedness, taxation and profitability, 1987	147
6.7a	Cost structure analysis of the US Bell system, 1987, assets liabilities and income	148
6.7b	Cost structure analysis of the US Bell system, 1987, revenues and expenditure	148
6.8	Telecommunications income analysis for the Luxembourg PTT, 1987	149
6.9	Telecommunications capital investment, OECD member countries, 1987	151
6.10	Telecommunications capital investment per capita OECD countries, 1987 and percentage change 1978-87	152
6.11	PTO research and development costs, selected OECD countries, 1987-89	153
6.12	Measures of network utilisation, OECD countries, 1978-87	154
6.13	Measures of PTO productivity, OECD member countries, 1978-87	155
7.1	Tariff comparison indicators	161
7.2	Tariff structure indicators	163
7.3	Quality of service indicators	164
7.4	Indicators of productivity and efficiency	165
