<i>Preface</i> . . . . .	v
<b>1. Introduction</b> . . . . .	1
<b>2. Quantifying the relation of defence expenditure to employment</b> , by J. P. Dunne	11
I. Introduction . . . . .	11
II. The studies reviewed . . . . .	14
III. Comparison of methods and results . . . . .	21
Appendix . . . . .	26
<b>3. Defence employment and the local labour market of Greater London</b> , by Sue Willett . . . . .	27
I. Introduction . . . . .	27
II. The London labour market for manufacturing and defence employment	27
III. The demand for defence employment . . . . .	32
IV. Defence dependency in Greater London . . . . .	35
V. Case studies . . . . .	38
1. GEC Hirst Laboratories . . . . .	39
2. Dowty Controls Division . . . . .	39
3. Royal Ordnance plc . . . . .	42
Waltham Abbey . . . . .	42
Enfield Royal Small Arms Factory . . . . .	43
4. British Aerospace, Kingston . . . . .	44
5. Plessey Military Communications, Ilford . . . . .	47
VI. Conclusions . . . . .	49
<b>4. The regional and occupational dependence on defence contracting in the Greater Munich Area</b> , by Burkhardt J. Huck . . . . .	51
I. The defence economy and defence industry in the Federal Republic of Germany . . . . .	51
II. Dependence of the Munich area on the arms industry . . . . .	55
III. Case studies . . . . .	61
1. MBB Messerschmitt-Bölkow-Blohm, Ottobrunn . . . . .	61
2. Siemens . . . . .	63
3. Krauss-Maffei . . . . .	64
4. IABG – Industrieanlagen-Betriebsgesellschaft, Ottobrunn . . . . .	66
IV. The employment structure in the four companies compared to the employment structure in the Munich area as a whole . . . . .	66

V.	Problems and perspectives of defence industrial conversion in the Greater Munich area . . . . .	67
5.	<b><i>Regional and occupational dependence on defence contracting in the Rome area,</i></b> by Fabrizio Battistelli . . . . .	71
I.	Degree of dependence on defence contracting: The defence industry in the Rome area . . . . .	71
	1. The defence industry in Italy . . . . .	71
	2. General features of defence industry enterprises in the Rome area . . . . .	75
	3. Notes on the methodology of the 1987 survey of the Roman defence industry . . . . .	81
II.	Analysis of employment characteristics in the five selected defence industry companies . . . . .	82
	1. Type and quality of information obtained . . . . .	82
	2. Presentation of the evidence . . . . .	83
III.	Employment structure in the Rome area compared with the employment structure in the five selected companies . . . . .	89
	1. Structure of employment in the Rome area . . . . .	89
	2. Comparison of the employment structure in the Rome area and in the five selected defence industry companies . . . . .	91
IV.	Enterprise reactions to defence procurements cuts . . . . .	93
	Appendix. List of persons interviewed . . . . .	98
6.	<b><i>Defence manufacturing employment in Michigan: Possible effects of cuts in procurement,</i></b> by Christopher A. Gohrband and Jeanne P. Gordus . . . . .	99
I.	Introduction . . . . .	99
II.	Rationale for a study of employment impact of defence production in Michigan . . . . .	102
III.	The goals and objectives of the study . . . . .	102
IV.	Description of the data . . . . .	103
V.	Michigan defence manufacturing employment . . . . .	106
VI.	Occupations in Michigan's defence manufacturing industries . . . . .	107
VII.	Benefits available to displaced workers in defence manufacturing . . . . .	110
VIII.	Benefits for the displaced . . . . .	110
	Appendix. Products of Michigan defence contractors by location, with contract payments and estimated jobs supported in order of the highest number of jobs supported to the lowest, 1985 . . . . .	116
7.	<b><i>The INF Treaty and the United States experience: The industrial, economic and employment impact,</i></b> by Gregory Bischak and Michael Oden . . . . .	123
I.	Introduction . . . . .	123
II.	The INF Treaty's implementation requirements and time frame . . . . .	124
III.	The impact of the INF treaty on military purchases from private contractors . . . . .	126
IV.	Economic impact of the INF Treaty's implementation on United States prime contractors for GLCM and Pershing II missiles . . . . .	130
	1. Ground-launched Cruise missile contractors . . . . .	130
	2. LCM nuclear warhead production contracts . . . . .	133
	3. Pershing II missile contractors . . . . .	135

V.	The regional economic impact of the INF Treaty . . . . .	137
1.	Regional economic impact of changes in the GLCM programme . . . . .	138
2.	Methodology . . . . .	138
3.	Output and employment effects of GLCM contract reductions and pass-throughs . . . . .	140
4.	Economic impact of Pershing II O & M and modification contract losses . . . . .	142
5.	Economic impact of the termination of W-84 nuclear warhead production . . . . .	144
6.	Occupational impact of INF contract reductions . . . . .	147
7.	Impact of outlays for portal monitoring and Treaty verification . . . . .	151
VI.	The INF Treaty, disarmament and the prospects for conversion . . . . .	152
8.	<b><i>The Soviet defence industry and conversion: The regional dimension,</i></b> by Julian Cooper . . . . .	157
I.	Introduction . . . . .	157
II.	Conversion and the INF Treaty . . . . .	157
III.	Conversion and central planning . . . . .	158
IV.	The Soviet defence industry . . . . .	161
V.	The regional distribution of defence industry employment . . . . .	163
VI.	The regions, labour and the engineering industry . . . . .	171
VII.	The civilian role of the defence industry . . . . .	172
VIII.	Conversion and Soviet economic policy . . . . .	176
9.	<b><i>Conversion from military to civilian production: The Votkinsk plant,</i></b> by G. K. Khromov . . . . .	179
10.	<b><i>Employment implications of defence cutbacks in China,</i></b> by C.Z. Lin . . . . .	189
I.	The context of defence cutbacks in China . . . . .	189
II.	The scope and scale of defence cutbacks . . . . .	191
III.	Demobilisation and force reduction . . . . .	193
IV.	The reorientation of defence-related industries . . . . .	198
11.	<b><i>Employment impact of industrial conversion: A comparative analysis,</i></b> by Liba Paukert and Peter Richards . . . . .	205
I.	Defence expenditure and defence-related employment: The extent of the conversion problem . . . . .	206
II.	Defence production and experience of defence cuts at the regional and local level . . . . .	214
III.	Reactions and attitudes of the main decision-makers to defence conversion problems . . . . .	221
1.	Trade unions . . . . .	221
2.	Enterprise managers . . . . .	223
3.	Government policies concerning defence cuts and conversion . . . . .	224
IV.	Conclusions . . . . .	227
