

# CONTENTS

|   |             |
|---|-------------|
| <b>Preface</b>  | <b>xiii</b> |
| <b>1 R&amp;D Organizations and Research Categories</b>  | <b>1</b>    |
| 1.1 How Information Can Be Used, 2                      |             |
| 1.2 A Perspective on R&D Management, 3                  |             |
| X 1.3 What Is Research and Development, 6               |             |
| 1.4 Research Categories, 7                              |             |
| 1.5 What to Research, 10                                |             |
| 1.6 Emphasis on Basic versus Applied Research, 16       |             |
| 1.7 What Is Unique about Managing R&D Organizations, 17 |             |
| 1.8 Summary, 19   |             |
| 1.9 Questions for Class Discussion, 19                  |             |
| 1.10 Further Readings, 19                               |             |
| <b>2 Elements Needed for an R&amp;D Organization</b>    | <b>21</b>   |
| 2.1 People, 21  |             |
| 2.2 Specialization, 22                                  |             |
| 2.3 Staffing, 23  |             |
| X 2.4 Ideas, 25   |             |
| Y 2.5 Communication Networks, 29                        |             |
| V 2.6 The Innovation Process, 32                        |             |

- 2.7 Funds, 32
- 2.8 A Culture for R&D Organizations, 34
- 2.9 Not-Invented-Here Syndrome, 35
- 2.10 Fit of Person and Job, 37
- 2.11 Creative Tensions: Managing Antithesis and Ambiguity, 38
- 2.12 Summary, 42
- 2.13 Questions for Class Discussion, 43
- 2.14 Further Readings, 43

### **3 Creating a Productive and Effective R&D Organization 44**

- 3.1 Organization Effectiveness, 45
- 3.2 Who Are the Inventors and Innovators, 48
- 3.3 Odd Characteristics of Inventors and Innovators, 50
- 3.4 Researcher's Relationship with Management and Peers, 52
- 3.5 Formation of Teams, 53
- 3.6 Generating New Ideas, 55
- 3.7 Emphases on Aspects of Organizational Culture, 58
- 3.8 Ethos of a Scientific Community, 59
- 3.9 Summary, 61
- 3.10 Questions for Class Discussion, 62
- 3.11 Further Readings, 62

### **4 Job Design and Organizational Effectiveness 63**

- 4.1 Job Attributes, 64
- 4.2 Physical Location and Communication, 65
- 4.3 Career Paths, 67
- 4.4 Dual and Triple Hierarchies, 70
- 4.5 Centralization and Decentralization, 72
- 4.6 Keeping the Researcher at the Innovation Stage, 72
- 4.7 Job Design and Conflict, 75
- 4.8 Summary, 78
- 4.9 Questions for Class Discussion, 78
- 4.10 Further Readings, 78

### **5 Influencing People 79**

- 5.1 Attitude, Attitude Change, 80
- 5.2 Findings from Attitude Research, 81
- 5.3 Behavioral Science Division Case, 83
- 5.4 Case Analysis, 85

- 5.5 Communication Alternatives and Outcomes, 86
- 5.6 Summary, 93
- 5.7 Questions for Class Discussion, 93
- 5.8 Further Readings, 93

## X 6 Motivation in R&D Organizations 94

- 6.1 A Model of Human Behavior, 95
- 6.2 Changing the Reward System to Support Technical Careers, 102
- 6.3 Structuring the Organization for Optimal Communication, 103
- 6.4 Types of Rewards, 104
- 6.5 Reward System Discussion, 107
- 6.6 Sense of Control and Community, 109
- 6.7 A Federal R&D Laboratory Case, 111
- 6.8 Questions for Class Discussion, 112
- 6.9 Further Readings, 112

## 7 Leadership in R&D Organizations 113

- 7.1 Introduction, 114
- 7.2 Identifying Your Leadership Style, 115
- 7.3 Theories of Leadership and Leadership Styles: No Leader Can Afford to Ignore Either, 123
- 7.4 Leadership in R&D Organizations, 126
- 7.5 R&D Leadership: A Process of Mutual Influence, 128
- 7.6 A Leadership Style Case, 130
- 7.7 Leadership in a Creative Research Environment, 131
- 7.8 Summary, 133
- 7.9 Questions for Class Discussion, 134
- 7.10 Further Readings, 134

## X 8 Managing Conflict in R&D Organizations 135

- 8.1 Conflict within Individuals, 135
- 8.2 Conflict between Individuals, 140
- 8.3 Conflict between Groups, 141
- 8.4 Intercultural Conflict, 148
- 8.5 Personal Styles of Conflict Resolution, 150
- 8.6 Unique Issues of Conflict in R&D Organizations, 152
- 8.7 Ethics, 154
- 8.8 Summary, 154
- 8.9 Questions for Class Discussion, 155
- 8.10 Further Readings, 155

- 9 Performance Appraisal—Employee Contribution—in R&D Organizations 156**
- 9.1 Some Negative Connotations of Performance Appraisal, 156
  - 9.2 Difficulties with Employee Appraisal, 158
  - 9.3 Performance Appraisal and the Management System, 160
  - 9.4 Performance Appraisal and Organizational Stages, 161
  - 9.5 Performance Appraisal and Organizational Productivity, 161
  - 9.6 Goals of Engineers versus Scientists, 162
  - 9.7 Performance Appraisal and Monetary Rewards, 164
  - 9.8 Performance Appraisal in Practice, 165
  - 9.9 A University Department Case, 166
  - 9.10 Implementation Strategy with Emphasis on Employee Contribution, 167
  - 9.11 Summary, 174
  - 9.12 Questions for Class Discussion, 174
  - 9.13 Further Readings, 175
  - 9.14 Appendix: Argonne National Laboratory Performance Review Information, 176
- 10 Technology Transfer 185**
- 10.1 Technology Transfer Hypotheses, 185
  - 10.2 Stages of Technology Transfer, 186
  - 10.3 Approaches and Factors Affecting Technology Transfer, 187
  - 10.4 Role of the User, 189
  - 10.5 Characteristics of Innovation, 190
  - 10.6 Role of Market and People, 191
  - 10.7 Boundary Spanning, 192
  - 10.8 Organizational Issues in Technology Transfer, 193
  - 10.9 The Agricultural Extension Model, 194
  - 10.10 NASA Technology Transfer Activities, 195
  - 10.11 IBM Case Studies, 196
  - 10.12 Technology Transfer Strategy, 198
  - 10.13 Summary, 203
  - 10.14 Questions for Class Discussion, 204
  - 10.15 Further Readings, 204
- 11 Organizational Change in R&D Settings 206**
- 11.1 Why Organizational Change?, 207
  - 11.2 Steps in Organizational Change, 207

|                      |  |            |
|----------------------|--|------------|
| 11.3                 | Problems and Action Steps, 208                     |            |
| 11.4                 | Individual Change, 209                             |            |
| 11.5                 | Group Change: Team Building, 212                   |            |
| 11.6                 | Organizational Change, 215                         |            |
| 11.7                 | Evaluating Organizational Change, 216              |            |
| 11.8                 | Summary, 218                                       |            |
| 11.9                 | Questions for Class Discussion, 218                |            |
| 11.10                | Further Reading, 219                               |            |
| <b>Appendix</b>      | <b>Research, Development, and Science Policy</b>   | <b>220</b> |
| A.1                  | Relationship between Science and Technology, 221   |            |
| A.2                  | Basic Research—Who Needs It?, 222                  |            |
| A.3                  | University–Industry Linkage, 226                   |            |
| A.4                  | Technical Innovation and Economic Development, 229 |            |
| A.5                  | Analysis of Investment in Basic Research, 231      |            |
| A.6                  | R&D Expenditure, 232                               |            |
| A.7                  | R&D Productivity, 240                              |            |
| A.8                  | Some European Perspectives on Innovation, 244      |            |
| A.9                  | R&D Expenditures and Science Policy, 247           |            |
| A.10                 | Summary, 250                                       |            |
| <b>References</b>    |  | <b>254</b> |
