

## TABLE OF CONTENTS

### I. BACKGROUND REPORTS\*

BACKGROUND FACTS AND FIGURES	
Myriam LINSTER .....	9
AIR POLLUTION AND NOISE FROM ROAD VEHICLES	
C.G.B. MITCHELL and A.J. HICKMAN .....	46
URBAN TRAFFIC MANAGEMENT	
David BAYLISS .....	76
TRAFFIC MANAGEMENT FOR EUROPEAN LONG-DISTANCE TRAFFIC FOCUSED ON INTERNATIONAL GOODS TRANSPORT	
Peter CERWENKA .....	95
ENVIRONMENTAL CONSIDERATIONS IN TRANSPORT INVESTMENT	
Claude LAMURE .....	108
ECONOMIC ASPECTS	
Werner ROTHENGATTER .....	147

### II. POLITICAL ISSUES

INTRODUCTORY AND ISSUES PAPER .....	178
-------------------------------------	-----

### II. CONCLUSIONS

RESOLUTION ADOPTED BY THE ECMT COUNCIL OF MINISTERS .....	194
---	-----

The views expressed in these background reports are those of the Consultants and do not necessarily represent the views of ECMT, OECD or the Member Governments.

# BACKGROUND FACTS AND FIGURES\*

Myriam Linster  
Consultant, Luxembourg

The present situation and the trends described in this document are based essentially on statistical data from OECD, and on the OECD work on Transport and the Environment.

## SUMMARY

1. THE INTERFACE BETWEEN TRANSPORT AND THE ENVIRONMENT .....	11
1.1. Structural Aspects .....	11
1.2. Environmental Impacts .....	11
2. TRANSPORT TRENDS OF ENVIRONMENTAL SIGNIFICANCE .....	13
2.1. Importance of Different Transport Modes .....	13
2.2. Transport Infrastructures .....	14
2.3. Increasing Motorisation and Mobility in Road Transport .....	18
2.4. Energy Consumption by Road Transport .....	20
2.5. Emission Control for Motor Vehicles .....	21
3. NOISE .....	21
3.1. The Effects of Noise .....	21
3.2. The Present State of the Environment with Regard to Noise .....	23
Notes .....	25
4. AIR POLLUTION .....	25
4.1. Emissions of Air Pollutants .....	25
4.2. Adverse Effects of Air Pollutants Emitted by Transport Sources .....	30
4.3. Air Quality .....	33
5. REGULATIONS AND STANDARDS IN OECD COUNTRIES .....	37
5.1. Regulations on Exhaust Emissions and Lead in Gasoline .....	37
5.2. Regulations on Noise Emissions .....	40
6. CONCLUSIONS .....	43
6.1. Overview .....	43
6.2. Some Progress .....	43
6.3. Remaining and Emerging Problems .....	45
6.4. International Aspects .....	45

## TABLES

1. Selected Environmental Effects of Principal Transport Modes .....	13
2. Freight Transport .....	15
3. Passenger Transport .....	16
4. Road Network Length, ECMT Countries, 1970-1985 .....	17

5.	Road Vehicle Stocks .....	11
6.	Road Traffic Volumes .....	11
7.	National Population Exposure to Road Transport Noise .....	2
8.	Emissions of Man-Made Air Pollutants .....	2
9.	Emissions of NO <sub>x</sub> by the Transport Sector .....	2
10.	Emissions of CO by the Transport Sector .....	2
11.	Emissions of HC by the Transport Sector .....	2
12.	Concentration of NO <sub>2</sub> .....	3
13.	Current and Projected Emission Standards for Motor Vehicles in OECD Countries .....	3
14.	EC Directive on Noise .....	4
15.	Noise Emission Standards in the United States .....	4
16.	Noise Emission Standards in Japan .....	4
17.	Noise Emission Limits for Motor Vehicles .....	4
18.	Selected Data on Transport and the Environment .....	4

## FIGURES

1.	Transport: Policies, Structure, Practices and Environmental Health .....	1
2.	Freight Traffic Trends .....	1
3.	Passenger Traffic Trends .....	1
4.	Road Traffic and Energy Consumption in OECD Europe .....	1
5.	Examples of Noise Levels .....	1
6.	Trends in Standards on Automobile Exhaust Emissions .....	1
