Preface	ix
Acknowledgements	xi
Course Team	xiii
<b>Part I: The Scope of Human–Computer Interaction</b>	<b>1</b>
1. An Historical and Intellectual Perspective R. M. Baecker and W. A. S. Buxton	3
2. Human Factors and Usability B. Shackel	27
3. Four Different Perspectives on Human–Computer Interaction John Kammersgaard	42
<b>Part II: Interaction Tasks, Devices and Communication Styles</b>	<b>65</b>
4. The Human Factors of Computer Graphics Interaction Techniques James D. Foley, Victor L. Wallace and Peggy Chan	67
5. There’s More to Interaction than Meets the Eye: Some Issues in Manual Input William Buxton	122
<b>Part III: Psychological Aspects</b>	<b>139</b>
6. Relations Between Cognitive Psychology and Computer System Design Thomas K. Landauer	141
7. A Review of Human Factors Guidelines and Techniques for the Design of Graphical Human–Computer Interfaces M. C. Maguire	161
8. Learning to Use Word Processors: Problems and Prospects Robert L. Mack, Clayton H. Lewis and John M. Carroll	185
9. The Role of a Mental Model in Learning to Operate a Device David E. Kieras and Susan Bovair	205

10.	Information Flow in a User Interface: The Effect of Experience and Context on the Recall of MacWrite Screens J. Terry Mayes, Stephen W. Draper, Alison M. McGregor and Keith Oatley	222
<b>Part IV: Design</b>		235
11.	Designing the Star User Interface David Canfield Smith, Charles Irby, Ralph Kimball, Bill Verplank and Eric Harslem	237
12.	The 1984 Olympic Message System: A Test of Behavioural Principles of System Design John D. Gould, Stephen J. Boies, Stephen Levy, John T. Richards and Jim Schoonard	260
13.	Employing Usability Engineering in the Development of Office Products D. A. Tyldesley	284
14.	A Quantitative Model of the Learning and Performance of Text-Editing Knowledge Peter G. Polson and David E. Kieras	296
15.	On Mental Models and the User Interface Michael J. Tauber	308
<b>Part V: Evaluation</b>		325
16.	The Keystroke-Level Model for User Performance Time with Interactive Systems Stuart K. Card, Thomas P. Moran and Allen Newell	327
17.	Designing and Interpreting Psychological Experiments Colin Robson	357
18.	Human Factors Testing in the Design of Xerox's 8010 'Star' Office Workstation William L. Bewley, Teresa L. Roberts, David Schroit and William L. Verplank	368
<b>Part VI: Tools for Design</b>		383
19.	The Role of Prototypes in the User Software Engineering (USE) Methodology Anthony I. Wasserman and David T. Shewmake	385

20.	A Context for User Interface Management Dan R. Olsen Jr, William Buxton, Roger Ehrich, David J. Kasik, James R. Rhyne and John Sibert	402
21.	Theory and Practice in User Interface Management Systems Alistair Kilgour	421
	<b>Index</b>	429
