Introduction ix

1 Accountability: the foundations of performance measurement, evaluation and reporting 1
   I General definition: accountability as shared expectations expressed in a common currency 1
   II Elaboration: definitional details and the design of an accountability framework 4
   III Criteria for the assessment of accountability frameworks 23
      Notes 27

2 Generating information to serve accountability relationships: evaluation methods and processes 29
   I Introduction 29
   II The ideal evaluation process 35
   III Problems with the ideal evaluation process 36

3 Recent research on accountability relationships and evaluation: what really goes on? 42
   I Introduction 42
   II Conclusions 58
      Notes 60

4 The use of information in the accountability relationship: further evidence of human problems in the evaluation process 62
   I Responses of funders and fundees to information about their accountability relationship 62
   II Responses to information about accountability relationships within non-profit organizations 66
      Note 74
viii Contents

5 Taking the next step: developing general standards of performance reporting for non-profit organizations 75

I Introduction 75
II Methodology 76
III Results and analysis 80
IV General standards for reporting performance information in NPOs 87
V Conclusion 93
Notes 94

6 Grappling with the dilemmas of evaluation: a review of existing evaluation tools for non-profit organizations 95

Problems with evaluation 95
Review of existing performance evaluation systems for the non-profit sector 97
Sector systems that evaluate programmes, units or functions within the organization 98
Systems that evaluate the whole organization 106
Evaluation systems that evaluate larger systems:
  jurisdictionally-based 125
Evaluation systems that evaluate larger systems:
  sector-based 128
Summary: the state of evaluation tools and systems for non-profit organizations 135
Conclusions and recommendations 139
Note 142

7 From concepts to practice: improving cost information for decision-making in non-profit organizations 143

I Introduction 143
II Attitudes to cost information in HSNPOs 143
III The usefulness of cost information in HSNPOs 145
IV Costing in the Victoria Community Centre (VCC) 147
V Conclusion 159
Notes 160

8 Case studies in performance measurement:
1 Capital Mental Health Association 161

I Introduction 161
II Purpose of the study 162
III Organizational context 162
IV Methodology 163
V Establishing programme objectives and logic models 165
VI Implementation 167
Notes 167

9 Case studies in performance measurement:
2 The Art Gallery of Greater Victoria 178

Background 178
The AGGV organizational structure 179
Research purpose 180
Research goal and objectives 181
Research approach 181
Accountability Information Framework 182
Definitions 183
Logic model and discussion 185
Discussion of model 188
Logic models in context 192
Relating models to reporting requirements 193
Notes 194

10 Making sense of multiple measures of performance: an assessment of the CCAF/FCVI approach to annual performance reporting 195

I Introduction 195
II A framework for assessment of reports based on the 12 attributes 195
III Conclusion 217
Note 218
Appendix: Non-profit organizations end of year (EOY) report for a client service programme 219

11 Performance measurement in non-profit organizations: a note on integration and focus within comprehensiveness 224

I Introduction 224
II The Balanced Scorecard 225
III The Balanced Scorecard in public commercial organizations 228
IV The Balanced Scorecard in private membership non-profit organizations 229
V The Balanced Scorecard in other non-profit organizations 231
VI An alternative Balanced Scorecard using the CCAF/FCVI attributes 240
VII Conclusion 244
Notes 245

12 The Value Sieve: accountable choices among incommensurable programmes 247
CHRISTOPHER CORBETT

I  Introduction 247
II  The problems of non-commensurability 247
III  The Value Sieve – decision-making among incommensurable actions 252

IV  Hypothetical application of the Value Sieve process 260
Technical summary 273
Conclusion 274
Notes 274

Summary and conclusions 276

Bibliography 283
Index 286

Figures

2.1 Generic measurement logic model 36
2.2 Generic level-based logic model 37
3.1 Effectiveness evaluation framework 45
4.1 Performance reporting model for evaluation 68
5.1 (a) Performance information by information user in NPOs: framework 78
(b) Performance information by information user in NPOs: initial findings 81
(c) Performance information by information user in NPOs: completing the picture 83
5.2 (a) General information standards (spending programmes) 89
(b) General information standards (fund-raising programmes) 91
6.1 Framework for classifying evaluation systems in the non-profit sector 99
7.1 VCC consolidated statement of expenses 148
7.2 The cost model 151
7.3 Classifying direct and indirect costs 152
7.4 Allocation of indirect costs 153
7.5 VCC – step down process 155
7.6 Calculation of unit cost of client services (YFC) 156
7.7 Calculation of unit cost of client services (Healthy Babies) 157
8.1 CMHA’s organizational logic model 164
8.2 (a) (i) Therapeutic Volunteer Placement Programme and (ii) Logic model 168
(b) (i) Job Search Consultant Programme and (ii) Logic model 170
(c) (i) Laurel House Programme and (ii) Logic model 172
(d) (i) Alzheimer’s Support Centre Programme and (ii) Logic model 174
List of Illustrations

(e) (i) Supported Independent Living Programme and (ii) Logic model

9.1 Organizational chart: Art Gallery of Greater Victoria 180
9.2 AGGV Accountability Information Framework: Art Gallery of Greater Victoria 183
10.1 An approach to prioritization of the CCAF/FCVI framework 205
11.1 The Balanced Scorecard (private commercial organizations) 227
11.2 The Balanced Scorecard (public commercial organizations) 230
11.3 The Balanced Scorecard (public and private non-profit organizations) 239
11.4 The CCAF/FCVI framework: a Balanced Scorecard for non-profit organizations (public and private non-profit organizations) 241
11.5 The CCAF/FCVI framework: a Balanced Scorecard for non-profit organizations: development towards a formal causal logic model. 243
12.1 Commensurability: the relationship between technical certainty and judgement required 252
12.2 Value for Money (VfM) 254
12.3 Information, judgement and uncertainty 255
12.4 Value for money ranking demonstrating optimized expected utility of a basket of programmes within the context of a specific objective function and resources available 256

Tables

12.1 Value Sieve: proposals organized by division and unique identifier 265
12.2 Value Sieve: youth proposals sorted by individual raters 268
12.3 Value Sieve: prioritization results by division by proposal 269
12.4 Value Sieve: youth division ranking 270
12.5 Value Sieve: individual division lowest priority rankings 270
12.6 Value Sieve: combined priority sort 271
12.7 Value Sieve: final ranking 273
