Acknowledgments	vii
Glossary of Abbreviations	xi
Introduction	xiii
1 Mortality and the Evolution of Society	1
2 Identification and Classification of Diseases	12
3 Measurement of Mortality	24
4 Dynamics of Population Growth	38
5 Infectious Diseases	51
6 Intestinal Infectious Diseases	66
7 Tuberculosis	81
8 Zoonotic Bacterial Diseases	97
9 Other Bacterial Diseases	107
10 Diseases due to Viruses and Chlamydias	121
11 Viral Diseases Accompanied by Exanthem	132
12 Arthropod-borne Viral Diseases	149
13 Miscellaneous Diseases due to Viruses and Chlamydias	156
14 Rickettsioses	160
15 Malaria	165
16 Other Arthropod-borne Diseases	179
17 Syphilis and Other Venereal Diseases	186
18 Other Spirochetal Diseases and the Mycoses	191
19 Helminthiases	193
20 Neoplastic Diseases	203

21	Endocrine Diseases	223
22	Food, Malnutrition, Avitaminoses, and Famine	227
23	Diseases of the Blood and Blood-forming Organs	244
24	Disorders and Diseases of the Nervous System	247
25	Cardiovascular Diseases	252
26	Respiratory Diseases	266
27	Digestive Diseases	272
28	Genitourinary Diseases	278
29	Pregnancy, Childbirth, and the Puerperium	280
30	Diseases of the Skin and Supporting Tissue	291
31	Congenital Anomalies and Human Genetics	293
32	Perinatal and Infant Mortality	299
33	War	314
34	Injury and Poisoning	341
35	Child and Early Adult Mortality	354
36	Mortality by Age and Sex: The Adult Ages	363
37	The British Isles	374
38	Continental Europe	388
39	Norden	396
40	Asia	410
41	Oceania	414
42	America: Beginnings and Development	425
43	Latin America	436
44	Africa	442
45	The Role of Therapy in the Decline of Mortality	453
46	Hygiene and Ecology	477
47	Subpopulations and Classes	486
48	Changes in Mortality by Disease	497
	Epilogue	503
	Bibliography	505
	Indices	593
