Acknowledgments	xxx
Companion to Organizations: An Introduction	1
<i>Joel A. C. Baum and Tim J. Rowley</i>	
Part I: Intraorganizational Level	35
1 Intraorganizational Institutions	37
<i>Kimberly D. Elsbach</i>	
2 Intraorganizational Networks	58
<i>Holly Raider and David J. Krackhardt</i>	
3 Intraorganizational Ecology	75
<i>D. Charles Galunic and John R. Weeks</i>	
4 Intraorganizational Evolution	98
<i>Massimo Warglien</i>	
5 Intraorganizational Cognition and Interpretation	119
<i>C. Marlene Fiol</i>	
6 Intraorganizational Power and Dependence	138
<i>Daniel J. Brass</i>	

vi CONTENTS

7	Intraorganizational Technology <i>Melissa A. Schilling</i>	158
8	Intraorganizational Learning <i>Linda Argote and Ron Ophir</i>	181
9	Intraorganizational Complexity and Computation <i>Kathleen M. Carley</i>	208
10	Intraorganizational Economics <i>Edward J. Zajac and James D. Westphal</i>	233
Part II: Organizational Level		257
11	Organizational Institutions <i>Donald A. Palmer and Nicole Woolsey Biggart</i>	259
12	Organizational Networks <i>Ranjay Gulati, Dania A. Daldin, and Lihua Wang</i>	281
13	Organizational Ecology <i>Joel A. C. Baum and Terry L. Amburgey</i>	304
14	Organizational Evolution <i>Terry L. Amburgey and Jitendra V. Singh</i>	327
15	Organizational Cognition and Interpretation <i>Theresa K. Lant</i>	344
16	Organizational Power and Dependence <i>William Ocasio</i>	363
17	Organizational Technology <i>Michael L. Tushman and Wendy Smith</i>	386
18	Organizational Learning <i>Martin Schulz</i>	415
19	Organizational Complexity and Computation <i>Kathleen M. Eisenhardt and Mahesh M. Bhatia</i>	442
20	Organizational Economics <i>Brian S. Silverman</i>	467
Part III: Interorganizational Level		495
21	Interorganizational Institutions <i>David Strang and Wesley D. Sine</i>	497
22	Interorganizational Networks <i>Wayne E. Baker and Robert R. Faulkner</i>	520

23	Interorganizational Ecology <i>Hayagreeva Rao</i>	541
24	Interorganizational Evolution <i>Henrich R. Greve</i>	557
25	Interorganizational Cognition and Interpretation <i>Joseph F. Porac, Marc J. Ventresca, and Yuri Mishina</i>	579
26	Interorganizational Power and Dependence <i>Mark S. Mizruchi and Mina Yoo</i>	599
27	Interorganizational Technology <i>Toby E. Stuart</i>	621
28	Interorganizational Learning <i>Paul Ingram</i>	642
29	Interorganizational Complexity and Computation <i>Olav Sorenson</i>	664
30	Interorganizational Economics <i>Arjen Van Witteloostuijn</i>	686
	Part IV: Organizational Epistemology and Research Methods	713
31	Updating Organizational Epistemology <i>Jane Azevedo</i>	715
32	Contemporary Debates in Organizational Epistemology <i>Mihnea C. Moldoveanu and Joel A. C. Baum</i>	733
33	Model-Centered Organization Science Epistemology <i>Bill McKelvey</i>	752
34	Survey Research Methods <i>David Knoke, Peter V. Marsden and Arne L. Kalleberg</i>	781
35	Archival Research Methods <i>Marc J. Ventresca and John W. Mohr</i>	805
36	Simulation Research Methods <i>Kevin Dooley</i>	829
37	Grounded Theory Research Methods <i>Deborah Dougherty</i>	849
38	Field Research Methods <i>Andrew H. Van de Ven and Marshall Scott Poole</i>	867
	Appendix: Glossary of Epistemology Terms <i>Bill McKelvey</i>	889
	Index	899

Figures

0.1	Mapping contemporary perspectives on organizations: Rational, natural and open systems	11
0.2	Mapping contemporary perspectives on organizations: Overlapping fish-scales	22
0.3	Mapping contemporary perspectives on organizations: An evolutionary meta-framework	25
5.1	Possible relationships between symbolic and connectionist architectures	126
12.1	Example of an egocentric network	290
17.1	Technology cycles over time	389
17.2	Innovation streams	393
17.3	Ambidextrous organizations: Exploitation and exploration within business units	397
18.1	Four possible disconnects in the learning cycle	417
22.1	The ION box	522
25.1	The enactment of industry belief systems	585
29.1	2-dimensional cellular automata	669
29.2	Landscape without interdependence ($N = 3, K = 0$)	671
29.3	Landscape with maximal interdependence ($N = 3, K = 2$)	671
30.1	IO's model of market performance	688
30.2	The IO-OS cross-fertilization circle	698
30.3	Sales-motivated behavior	700
30.4	Information-defective investment	701
30.5	Status-driven rivalry	702
32.1	Epistemological misattribution in the "paradigm wars": Summary	735
33.1	Conceptions of the axiom-theory-model-phenomena relationship	764
33.2	Guttman scale	770
35.1	Articles employing archival methods published in the <i>Administrative Science Quarterly</i> , 1970-98	809
36.1	Cellular automata example	839
38.1	Process theories of organizational development and change	871
38.2	Barley's parallel, synchronic, and diachronic research design	876

Tables

0.1	Key topics and themes across perspectives and levels of organization	27
1.1	Selected research on intraorganizational institutions	39
2.1	Selected studies of intraorganizational networks	60
2.2	Framework of intraorganizational network studies	62
3.1	Summary of the seminal works in intraorganizational ecology	77
4.1	Synopsis of selected empirical studies on intraorganizational evolution	109
5.1	Exemplar intraorganizational cognition and interpretation collections	122
5.2	Exemplar intraorganizational cognition and interpretation studies	123
6.1	Selected research on intraorganizational power and dependence	142
7.1	Selected studies in intraorganizational technology	159
8.1	Key empirical studies on intraorganizational learning	184
9.1	Summary of intraorganizational complexity and computation studies	210
9.2	A meta-network approach to organizational representation	225
10.1	Research on intraorganizational economics	236
11.1	Selected research on organizational institutions	261
12.1	Selected studies of organizational networks	283
13.1	Selected studies in organizational ecology	306
13.2	Elaborations of the density dependence model	314
14.1	Summary of organizational evolution studies	330
15.1	Key empirical studies: Information processing perspective	348
15.2	Key empirical studies: Enactment perspective	353
16.1	Selected research on organizational power and dependence	365
17.1	Technology cycles and dominant designs	390
17.2	Innovation types and innovation streams	394
17.3	Ambidextrous organizations	398
17.4	Senior teams	403
18.1	Selected organizational learning studies	419
19.1	Selected empirical studies illustrating loose coupling and NK phenomena	446
19.2	Selected empirical studies illustrating the edge of chaos	449

19.3	Selected empirical studies illustrating simple schemata, complex behavior	452
19.4	Selected empirical studies illustrating emergence of complex adaptive systems	454
19.5	Selected empirical studies illustrating recombination and evolution	457
20.1	Transaction cost economics: Representative empirical studies	471
20.2	Resource-based view: Representative empirical studies	477
21.1	Selected research on interorganizational institutions and institutional change	500
22.1	Key studies of interorganizational networks	524
23.1	Select studies in interorganizational ecology	546
24.1	Summary of key interorganizational evolution studies	567
25.1	Summary of key interorganizational cognition and interpretation studies and findings	581
26.1	Summary of key interorganizational power and dependence studies	612
27.1	Summary of selected interorganizational technology studies	623
28.1	Selected interorganizational learning studies	644
29.1	Selected interorganizational complexity and computational studies	666
30.1	Eight illustrative IO studies	691
30.2	Three examples of humanized IO's theory	706
33.1	Suggested tenets for a Campbellian Realist organization science	757
33.2	Model substructures defined	767
34.1	Examples of organizational surveys	784
34.2	Implementation guide for organizational surveys	786
34.3	Private-sector employment by organization size, 1994	788
35.1	Major analytic distinctions and the three modes of archival analysis	814
35.2	Research goals, data sources, and methods for archival research on organizations	819
36.1	Characteristics of three different simulation approaches	834
36.2	Issues and challenges in organizational simulation	842
37.1	Principles that guide grounded theory-based research	851
38.1	Key steps, decisions, and suggestions for process research in field studies	870
38.2	Evolution of innovation concepts during MIRP	880
