

# Process Modelling

Preface .....	V
<i>B. Scholz-Reiter, A. Nethe, H.-D. Stahlmann</i>	

## Part 1 Common Approaches

Survey of a General Theory of Process Modelling .....	2
<i>A. Nethe, H.-D. Stahlmann</i>	
Automatic Model Generation in Process Modelling.....	17
<i>J.-A. Müller</i>	
The Modelling Process and Petri Nets: Reasoning on Different Approaches .....	37
<i>N. Mazzocca, S. Russo, V. Vittorini</i>	
High-Level Modelling of Development Processes .....	57
<i>A. Schleicher</i>	
Aspects and Potentiality of Unconventional Modelling of Processes in Sporting Events.....	74
<i>Jürgen Perl</i>	
Studying of the Influence of Phytoviruses on Plants' Organism in Conditions of Ecological Instability and its Estimation by Mathematical Modelling in CEIS System .....	86
<i>Y. V. Zagorodni, V. V. Voytenko, A. L. Boyko</i>	

## Part 2 Business Processes Modelling

Guidelines of Modelling (GoM) for Business Process Simulation.....	100
<i>C. v. Uthmann, J. Becker</i>	

Modelling and Evaluation of Processes Based on Enterprise Goals.....	117
<i>F. Weichhardt</i>	
Performance Measurement Based Process Modelling.....	132
<i>C. Aichele</i>	
Transparency and Flexibility: Towards an Adaptable Environment for Cooperative Modelling.....	141
<i>D. Bastian, B. Scholz-Reiter</i>	
Transformation of Static Process Models into Dynamic Simulations: Issues and Considerations.....	161
<i>G. M. Giaglis</i>	
Process Modelling during the Determining of Offers for Castings .....	177
<i>S. Kröttsch, I. Hofmann, G. Paul, E. Ambos</i>	
Potential of Business Process Modelling with Regard to Available Workflow Management Systems.....	189
<i>R. Endl, M. Meyer</i>	
Flexible Process Management .....	204
<i>M. Ort, U. Pape</i>	
Benchmark-based Dynamic Process Management with an Example of a Decentralised Organised Service Industry.....	216
<i>D. Specht, J. Heina, R. Kirchhof</i>	
Computer Integrated Redesign and Visualisation of Business Processes.....	233
<i>J. Gausemeier, O. v. Bohuszewicz, A. Lewandowski, A. Siebe, M. Soetebeer</i>	

### **Part 3 Logistics Processes**

Componentware for Supporting Transport Logistics.....	256
<i>J. Rieckmann</i>	
Modelling of Track Bound Line Operation in Public Transport Systems .....	276
<i>K. F. Zastrow</i>	

Model Based Approaches for Closed-Loop Quality Control in Injection Moulding .....	421
<i>J. Wortberg, M. Al-Haj Mustafa</i>	
Pharmaceutical Process Modelling .....	438
<i>S.A MacGregor, L.B. Newnes, J.N. Staniforth, R.C.L. Lamming, M.J. Tobyn, L. Ming, G.R. Kay, M.D. Horrill, D.W. Hajee</i>	
<b>Part 6 Modelling and Simulation of Water Systems</b>	
Modelling and Simulation of Ground Water Processes .....	446
<i>P.-W. Gräber</i>	
Modelling Approaches for Water Flow and Solute Transport through a Porous Medium .....	457
<i>W. Loiskandl</i>	
Space-Time-Modelling of Ascending Salty Sewage Water in the Werra-Potash District .....	471
<i>R. Rödel</i>	
Mass- and Energy Migration in Low Pervious Material .....	480
<i>W. Arnold, M. Nishigaki</i>	
Modelling Philosophy in the Structural Analysis of Dams .....	497
<i>D. Kisliakov</i>	
Time Series Analysis of Water Quality Data .....	509
<i>A. Gnauck</i>	
In Situ Determination of Unsaturated Hydraulic Conductivity of Subsurface Soil in the Vadose Zone by the Technique of Modified Pressure Infiltrometer .....	526
<i>A. M. Jafar, Y. Takeshita, I. Kohno</i>	
Rule-based Spatial Query and Production as Part of the WHPA Simulation .....	545
<i>S. Pühl, P.-W. Gräber</i>	

## Part 4 Engineering Processes

The Application of the Hamiltonian Formalism by Means of Tensor Calculus to an Electrical Circuit .....	292
<i>U. Diemar</i>	
Determination of the Magnetic Stray Field with an Equivalent Source Model.....	305
<i>E. Nolle</i>	
The Development of a Process Model in the Energy Supply System.....	313
<i>J. Nagel</i>	
Different Techniques of the Modelling of Hydrodynamic Couplings .....	329
<i>P. Jaschke, H. Waller</i>	

## Part 5 Production Processes

Simulation-based Production Control for Complex Industrial Processes by the Use of a Multilevel Concept .....	350
<i>M. Thiel, J. Beyer, R. Schulz, P. Gmilkowsky</i>	
Process Prototyping of Manufacturing Processes .....	360
<i>B. Lenz, G. Reinhart, F. Rick, H.-J. Trossin</i>	
Advanced Software Improves Decision Quality in Rolling Mill Technology .....	370
<i>H. Müller, T. Peuker, G. Wozny</i>	
Process Optimisation in the Packaging Industry of the Energy Industry: Optimisation of Weight Limits .....	383
<i>J. Biedermann, L. Cromme, S. Würll</i>	
Process Model for the Abrasion Mechanism during Micro Abrasive Blasting (MAB) of Brittle Materials.....	407
<i>M. Bothen, L. Kiesewetter</i>
