

TABLE OF CONTENTS

	Page
Acknowledgments.....	viii
Preface	ix
PART I THE PROBLEM	
1 Familiar Passages	3
The Industrial Viewpoint	4
The Practitioner Viewpoint.....	6
The Example.....	7
2 Recognizing The Problem	9
The Example (<i>Continued</i>)	9
Territories, Maps, and Bridges.....	11
PART II THE APPROACH	
3 Just-In-Time Philosophy and Strategy	15
Plan, Plan, Then Re-Plan	16
Identify Risks Early	18
Develop In Parallel	19
4 More on Software Risk Management and Just-In-Time	21
Risk Management Perspectives	21
Strategic Risk Management	21
Operational Risk Management.....	25
5 Elements of Software Risk	29
Technical Risk.....	30
Cost Risk	31
Schedule Risk	32
Risk Management Activities	33
Risk Identification.....	33
Risk Strategy and Planning	35

	Risk Assessment	36
	Risk Mitigation/Avoidance	37
	Risk Reporting	39
	Risk Prediction	40
6	Software Risk Factors	43
	Organization	44
	Estimation	46
	Monitoring	46
	Development Methodology	47
	Tools	47
	Risk Culture	48
	Usability	48
	Correctness	48
	Reliability	49
	Personnel	49
7	Software Risk Metrics	51
	Organization	52
	Estimation	54
	Monitoring	56
	Development Methodology	59
	Tools	60
	Risk Culture	63
	Usability	66
	Correctness	68
	Reliability	70
	Personnel	73
8	Just-In-Time Method by Development Phase	77
	Pre-Requirements and QFD	78
	Requirements: Written and Executable	84
	Design: Wide Then Deep	92
	Code: Start Early!	97
	Test: Accepting In Steps	103
	Delivery and Maintenance: Old Code Never Dies	109

PART III THE APPLICATION

9	Applying Just-In-Time.....	121
	Making Choices.....	121
	The Model's Design.....	122
	The Model's Equations.....	125
	A SERIM Example.....	128
	Interpreting SERIM's Results.....	128
	Using SERIM for Predicting Risks.....	130
	JIT Software: The Whole Picture.....	131
10	Just-In-Time Examples.....	133
	PC Software Project.....	133
	Embedded Software Application Project.....	134
	QFD Application.....	134
	PERT Application.....	138
	SERIM Application.....	141
	Interpreting the Results: PC Project.....	141
	Interpreting the Results: Embedded Project.....	144
	Interpreting the Results: Both Projects.....	145
	SERIM Predictive Capabilities for the Projects.....	146
	Executable Requirements.....	147
	Design Strategies.....	148
	Coding.....	151
	Testing and Delivery.....	153
	Dreaming About Maintenance.....	158
	Closing Thoughts.....	161
	Glossary.....	163
	References.....	165
	Index.....	169
	About the Author.....	171
