

CONTENTS

Chapter 1 Introduction	1
<hr/>	
The Premises of this Book	3
Human Resources Are Key	4
General Manager Involvement	6
Plain Language and Connections to General Management Concerns	7
The Basic Disciplines	7
Payback Time	9
Three Axes We Will Grind	10
The Structure of the Book	11
What this Book Lacks	12
In Review	13
Chapter 2 The Five Factors	16
<hr/>	
The External Environment: Social, Political, Legal, and Economic	17
The Workforce	18
The Organization's Culture	19
The Organization's Strategy	20
The Technology of Production and Organization of Work	22
Physical Layout, and Worker Privacy and Proximity	23
Required Skills	23
Monitoring Employee Input	23
Task Ambiguity and Creativity	25
Patterns of Worker Interdependence and Cooperation	25
The Distribution of the Outcomes: Stars, Guardians, and Foot-Soldiers	26
Applying the Five Factors: the Case of IBM	29
One Size Does Not Fit All	33
Three Caveats About the "Five Factors"	34
In Review	35
Chapter 3 Consistent HR Practices: The Whole Can Be More than the Sum of the Parts	38
<hr/>	
Why Is Consistency of HR Practices Desirable?	39
Measuring Consistency	41
The Organizational Menagerie	43

Consistency and Inconsistency: Two Illustrative Cases	44
Hewlett-Packard: A Model of Consistency	44
The Portman Hotel: An Example of Inconsistency	46
The Span of Consistency	49
Creating Distinctions	51
An Illustration: Information Services at United Parcel Service	54
Temporal Consistency and Organizational Inertia	55
An Illustration: Change at the Lincoln Electric Company	56
Inconsistent Consistencies	57
Summary and Road Map	58
In Review	58

Chapter 4 Employment and Economics

62

The Basic Framework	64
Achieving Efficient Employment Relations	68
Balance of Power and Reputation	69
Simple Hierarchy	69
Other Forms of Governance	72
Choosing Among the Forms of Governance	73
Qualifications and Amendments	75
Inefficient Expectations	75
Changing HR Practices: Inertia and Expectations Traps	76
Short-Run Temptations and Voluntary Restraints	78
Reputation and the Problem of Free-Riding	78
Knowing What to Expect: Consistency Once Again	79
Determining the Terms of Trade	80
When Is Market Discipline Strong?	81
Long-Term Employment Relationships	83
Direct Benefits of Long-Term Employment	83
Costs of Long-Term Employment	84
Strengthening the Employer's (and Employee's) Bargaining Position	85
Actions that Lengthen Employment Duration	85
Sun Hydraulics: Trust and Love	86
Takeaways	88
Beyond Economics	90
In Review	91

Chapter 5 Employment as a Social Relation

95

Anchoring and Expectations	96
The Psychology of Attribution and Motivation	97
Commitment	97
Intrinsic Versus Extrinsic Motivation	98
How Prevalent Is Intrinsic Motivation?	101
The Value of Intrinsic Motivation	102
Summary	102

Social Comparison	102
Categorization Processes In Organizations	104
In-Group Biases	104
Divide and Conquer	106
Distributive and Procedural Justice	106
Distributive Justice	107
Procedural Justice	108
Reciprocity and Gift Exchange	109
Status (In)Consistency	110
Legitimacy and Organizational Inertia	111
Summary and Prospectus	112
In Review	113

Chapter 6 Voice: Unions and Other Forms of Employee Representation

118

Employee Voice as a Matter of Law	120
Why Should You Care About Unions?	122
What Is the Impact of Worker Representation?	125
Problems In Empirical Design	125
Averages Are Only Averages	126
What Do Unions Do?	127
The Two Faces of Unions	129
Why Unions May Enhance Efficiency: Transaction Cost Rationales	130
Collective Action, Collective Punishment, and Free-Riding	131
Interpreting Management Actions: The Routinization of Dispute Resolution	132
Voice and Responsibility: Balanced Bilateral Relationships	134
Giving Protection Against Big-Stakes (Single) Actions by Management	136
Why Unions May Enhance Efficiency: Psychological and Social Rationales	138
Voice Without Authority	139
Further Remarks on Unions	139
Unionization in the U.S. Versus Europe: The Legacy of Gompers	140
Industrial versus Craft Unions in the United States	141
The Bottom Line for Management	143
Should Management Welcome Unionization?	143
Kiss 'em, Kill 'em, Or Co-Exist? What if You Have a Union?	
Nonunion Worker Representation?	145
What Next?	146
In Review	147

Chapter 7 Employment, Society, and the Law

153

The Normative Bases for Intervention	156
Paternalism and Bounded Rationality	156
Externalities	157
Redressing Power Imbalances and Redistributing Wealth	158

Promoting Efficiency	159
Protecting Inalienable Rights of the Individual	160
Positive Reasons Why Society Intervenes	160
Tying One's Own Hands	161
Tying Everyone Else's Hands, as Well as Yours	161
Some Lessons for the General Manager	162
In Review	164

Chapter 8 Internal Labor Markets **167**

Forces Leading to the Emergence of Internal Labor Markets	169
Firm-Specific Skills and Knowledge	169
Building Employee Loyalty: The Psychology of Escalating Commitment	171
Incentives	171
Screening	172
Staffing Economies	173
Cohort Effects	173
Critiques of ILMs	174
Critiquing the Critique	175
The Diffusion of ILMs	175
Effects and Implications of Internal Labor Markets	177
The Downside of ILMs	178
ILMs and the Five Factors	183
Technology	183
Environment	183
Strategy	184
Culture	184
Workforce	184
In Review	185

Chapter 9 High-Commitment HRM **189**

Goals and Means	189
The Means of High-Commitment HRM	190
High-Commitment HRM Versus ILMs	191
Connecting the Goals and the Means of High-Commitment HRM	191
Three Flavors of High-Commitment HRM	195
Total Quality Management	195
Open-Book Management	198
The Traditional Top-Tier Japanese Organizations: High-Commitment ILMs	199
One Size Does Not Fit All: Is High-Commitment HRM for You?	201
Maintaining High-Commitment HRM: The Five Factors	201
Achieving High-Commitment HRM	203
The Bottom Line	205
Moving On	205
In Review	206

Chapter 10 Performance Evaluation 210

The Diverse Functions of Performance Evaluation	211
Characteristics of Different Performance Evaluation Systems	214
Four Constituencies of the Evaluation System	215
The Employee Being Evaluated	216
Those Performing the Evaluation	217
The Interests of Management and of Outside Constituencies	218
Performance Evaluation Systems and the Five Factors	218
Strategy	219
Technology and Work Organization	219
Culture	222
Workforce	223
External Environment	224
Striking Balance in Performance Evaluation Systems: Some Key Issues and Tactics	225
Comparative Performance Evaluation	225
Coarse Summary Measures: Blurring Distinctions in the Middle	231
Objective versus Subjective Measures	232
Evaluation by Committee and by Multiple Sources	233
Should Individuals Be Evaluated at All? Should Summary Evaluations Be Included?	235
Incentives? Legal Requirements?	237
Summary	238
In Review	239

Chapter 11 Pay for Performance 243

The Economic Theory of Incentives	245
The Basic Model of Agency Theory	247
Variation #1: Screening and Sorting	250
Variation #2: Rewarding the Type and Quality of Effort	251
Variation #3: Benchmarking and Tournaments	253
Variations #4 through #6: Multiperiod Effects	254
Variation #7: Group Incentive Schemes	255
Noneconomic Caveats	256
Bonuses or Raises?	258
Group Incentive Schemes	261
The Free-Rider Problem and Its Resolution	262
Group Size	263
Group Composition	264
The Division of Rewards within the Group	266
Legitimacy	266
Rewarding Individuals versus Teams	267
The Case Against Pay for Performance	268
Misalignment of Incentives	268

Controlling the Risk Loaded onto Employees	270
Problems with Legitimacy	270
Inflexibility	270
Why It Worked at Safelite: The Five Factors and Piece-Rate Pay	271
Technology	272
Strategy	274
Workforce	274
Culture	274
Environment	275
Pay for Performance?	275
In Review	277

Chapter 12 Compensation Systems: Forms, Bases, and Distribution of Rewards **284**

The Basis for Pay: Tasks, Status, Skills, Seniority	284
Hay Points and Job Evaluation	284
Status within the Organization	287
Seniority	288
Pay for Skill, Knowledge, and Credentials	290
Salaries or Wages?	291
Ranges and Levels	292
Dispersion, Compression, and Information	293
The Form of Compensation (Including Benefits)	297
The Prevalence of Benefits and Perquisites	298
Why Don't Smaller Firms Provide as Many Benefits?	300
Economies in Firm-Procured Benefits and Perks	301
Impacts on Productivity (Through Employee Motivation, in Particular)	302
Other Rationales for Benefits	304
Cafeteria Benefits	305
Compensation—The Bottom Line	306
In Review	307

Chapter 13 Job Design **313**

The Level and Breadth of Job Content	316
Over-Time Variability in Task Assignment and Extent of Rotations	318
The Mix of Tasks	320
Mixing Stars and Guardians	322
Team (versus Individual) Job Designs	323
Autonomy	326
Job Design and the External Environment	327
Symbols and Job Design: Job Titles and Other Atmospherics	328
Job Design or Career Design?	330
Wrap-Up	332
In Review	333

Chapter 14 Staffing and Recruitment **338**

What Sort of Workforce Does the Firm Want?	339
Diversity	339
Encouraging the Right Applicants	340
Applicant Self-Selection through Reputation or Job Characteristics	341
Co-Worker Referrals	342
Personnel Search Organizations	343
Selecting Among the Applicants	343
Probationary Periods	343
Credentials	345
Market Signaling and Screening	347
Job Interviews	351
Direct Testing and Evaluation	352
Statistical Discrimination	353
Validating Staffing and Recruitment Methods and Other Legal Concerns	357
Some Additional Process Considerations	361
What Next?	363
In Review	363

Chapter 15 Training **369**

Why Do Firms Train Workers?	372
The Gross Benefits from Training	373
Factors that Affect Tenure	373
The Worker's Preexisting Skills	374
Complements to Other Skills	374
Eliciting Consummate Performance through Commitment and Gift Exchange	375
Screening through Training	376
Spillovers, Direct and Indirect	377
Sending Signals to Others	378
Reinforcing Culture	378
The Ability to Appropriate the Returns to Training	380
Firm-Specific and General-Purpose Human Capital	380
Giving Skills that Can't Be Used in a Reasonable Alternative Location	382
Hidden Skills and the "Lemons" Problem	382
Inertia, Especially Loyalty	383
Will the Firm Necessarily Underwrite Firm-Specific Training?	384
Implicit Collusion to Minimize Raiding	385
The Costs of Training	386
On-the-Job Training and Apprenticeships	386
Prestige Apprenticeships and Training Institutes	387
Enlisting Public Support	389
Making and Evaluating Training Decisions	390
Designing Training Programs	393

Lessons for the British Chemical Firm	394
Takeaways	396
In Review	397

Chapter 16 Promotion and Career Concerns **404**

Serving Too Many Masters?	406
Unhappy Consequences of the Promotion Pyramid	407
Promotion as an Incentive Device	407
Promotion as a Tournament	408
Dealing with the Losers	410
Up or Out?	410
Demographics	412
Career Concerns	413
Promotion Purely for the Sake of Promotion	414
Why Is Rank Tied to Compensation, Status, and Other Rewards?	414
Is There a Solution?	416
What Next?	417
In Review	417

Chapter 17 Downsizing **421**

Why Do Firms Downsize?	422
The Effects of Downsizing	424
Effects on the Firm's Bottom Line	424
Employee Morale and Attitudes	426
Downsizing in Work Environments that Emphasize Creativity	426
Who Leaves: Downsizing and Workforce Quality	427
Downsizing and Society	428
The Moral from the Data	428
Must You Downsize?	430
How to Downsize if You Must: Process Considerations	432
Massacre or Drip-Drip-Drip?	435
Across the Board or Targeted Layoffs?	435
Layoffs, Seniority, and Age	436
Documenting and Rationalizing Layoff Decisions	438
Dealing with the Community	439
Conclusion and Coming Attractions	440
In Review	441

Chapter 18 Outsourcing **446**

The Rise of Outsourcing and Contingent Labor: More Data	448
The Bottom Line	449
Transactional Considerations	450

Social Considerations	452
Administrative Considerations	457
Outsourcing to Avoid Legal Liabilities	458
Two Mixed Cases	460
The Case of Information Technology	462
Outsourcing and Downsizing	464
Summary and Coming Attractions	465
In Review	466

Chapter 19 HRM in Emerging Companies 471

A Source of Data on HRM in New Enterprises: The Stanford Project on Emerging Companies	473
Founders' Blueprints for HRM	474
Three Dimensions	474
Organizational Models in Young Technology Companies	475
The Founder's Choice of Model	480
Alignment of HR Models with the Founder's Intended Business Strategy	480
Other Interactions with Strategy	483
Changes in the HR Blueprint: Interviews with CEOs	484
Inertia and Punctuated Equilibrium	484
What Changed? The Rise of Bureaucracy	485
Some Shifts that Didn't Take Place	487
The Impact of the CEO	488
Other Factors that Increase the Likelihood of Changing the HR Blueprint	489
Consequences of Founders' HR Blueprints	489
Staffing the HR Function and Formalizing Employment Relations	490
Specific HR Practices	491
Uniformity of Treatment	492
Managerial Intensity	493
Change, Turnover, and Organizational Upheaval	494
Conclusion and (the Final) Coming Attraction	495
In Review	497

Chapter 20 Organizing HR 503

What Are the HR Tasks to Be Done?	506
Formulation of HR Strategy and General Policies	506
Implementation of Strategy and Policies	507
Record Keeping, Compliance, and Personnel Service Delivery	507
Diagnosis: The "Lowest Common Denominator" Syndrome	507
A Possible Cure, Part I: Delegating the Mundane	509
Our Cure, Part II: Top and Line Management versus "Serious" HR Professionals	510
Roles for HR Specialists	511

Staffing, Training, and Career Paths for the HR Function	516
Corporate versus Unit and Subunit HR	518
A Five-Factor Analysis: Companywide versus Unit-Specific HR in Global Corporations	520
AES, Redux	524
Four Process Issues	525
Measuring HR Effectiveness	525
Setting the Right Tone	528
Avoiding Dependence on Specialists	529
Experimenting with HR Administration	530
In Review (but not in Conclusion)	531
Concluding Remarks	532

Appendix A Transaction Cost Economics **537**

Basic Ideas	537
An Example of Design and Manufacture	538
Asset Specificity and the Push Towards Unified Governance	541
Between Unified Governance and Classical Transactions: Relational Contracting	542
Three Pure Forms of Relational Contracting	543
Employment Relations and Transaction Cost Economics	546

Appendix B Reciprocity and Reputation in Repeated Interactions **548**

Theory	548
Background: Games and Nash Equilibria	548
The Prisoners' Dilemma	550
Cooperation that Ensues from Repetition and Reciprocity	551
The Folk Theorem of Game Theory	554
Models of Reputation	555
Noise	557
Applications	559
Hierarchical Governance	559
Balanced-Bilateral Governance	560
Trilateral Governance	560
Mandatory Due Process Protections	561
Voluntary Due Process Protections	562
The Limitations of Game Theory	563

Appendix C Agency Theory **566**

A Simple Version	569
Summing Up	571
Beyond Effort Aversion, a Single Period, and One Signal of Effort	574

Appendix D Adverse Selection and Market Signaling **577**

The Problem of Lemons	577
Market Signals	580
Out-of-Equilibrium Signals and the Problem of Inference	582
Inefficiency	584
Pooling	584
Screening	585

Index **587**

List of Tables, Figures, and Exhibits

Table 1-1	Relative compensation of top executives across functional areas: Large U. S. and Japanese companies.	3
Table 6-1	Unionization rates in the OECD.	122
Table 6-2	Trade union density for selected countries in the 1990s.	124
Table 12-1	Percentage of full-time workers receiving various employee benefits in the United States, 1994-5.	298
Table 12-2	Benefits costs in the United States: March, 1998.	299
Table 15-1	Training in automobile plants worldwide.	372
Table 19-1	Five pure-type employment models in emerging technology companies, based on three dimensions.	476
Figure 2-1	Ranges of outcomes for different types of jobs.	27
Figure 2-2	Distributions of outcomes for different types of jobs.	28
Figure 14-1	Two densities of "acceptance of authority."	355
Figure 14-2	Two densities of "performance on the job."	356
Figure 18-1	When and how to outsource activities: A diagnostic.	461
Figure B-1	An example of a two-player game.	549
Figure B-2	The prisoners' dilemma.	550
Figure B-3	The trust-abuse game.	555
Figure D-1	The supply of cars.	578
Figure D-2	Naive demand and equilibrium.	579
Figure D-3	Sophisticated demand and equilibrium.	579
Exhibit 7-1	Main HR topics covered by state and/or federal laws and regulations.	154
Exhibit 11-1	A glossary of compensation-related terms (with commentary).	246
