

Contents

Acknowledgments, xi
Preface, xiii

PART I: THE WORLD UNLEASHED

Chapter 1

First Observations 1
Learners Are Not Prepared, 3. The Learning Organization, 4.
Methods for Learning Support, 8. References, 15.

Chapter 2

A Drive-Through System 17
The Lunchtime Burger Break, 17. The Increasing Value of
Change, 21. References, 25.

Chapter 3

Turning and Churning: Organizational Change 26
Introduction, 26. An Organizational Change Continuum, 27.
Nuclear Organizational Systems, 27. Open Organizational
Systems, 32. Virtual Organizational Systems, 36. Change in
Action, 41. The Reputation of Organizational Change, 43.
Predictability, Consistency, and Reliability, 43. The Snake in
the Garden, 45. Maintaining the Garden, 46. Introducing the
Snake, 47. Snake Charmers, 48. References, 52.

PART II: COMPLEXITY AND CHAOS

Chapter 4

Classical Chaos 54

What Is Chaos? 56. The Mythology of Chaos, 56.
Classical Chaos and Cosmology, 58. Classical Chaos and
Early Science, 62. Classical Chaos and the Collective
Unconscious, 66. Classical Chaos and Organizational
Systems, 73. References, 74.

Chapter 5

Technical Chaos 76

Introduction, 76. Significant Influences on NDS, 80.
Influences from Physics, 80. Influence of Mathematics, 83.
Influence from a Community of Learning, 85. Influences
from Biology, 86. Definitions, 86. Nonlinear Dynamical
Systems, 87. Chaos Theory, 88. Other Characteristics of
Chaos, 94. Phase Space, 95. Bifurcation, 96. Attractors, 99.
Fractals, 103. Complex Adaptive Systems, 105. Juxtaposition
of Classical and Technical Chaos, 111. References, 113.

Chapter 6

Extended Applications 115

Introduction, 115. Social Sciences, 116. Psychology, 123.
References, 129.

Chapter 7

Nonlinear Dynamical Organizational Systems 131

Introduction, 131. Organizational Chaos, 131. Networks and
Creativity, 134. Leadership and Human Behavior, 136.
Management, 141. Self-organization in Systems, 143.
A Loop Toward Reality, 146. References, 150.

PART III: OPEN LEARNING AND LEARNING SUPPORT

Chapter 8

The Shift to a Wider Perspective 152

Introduction, 152. Behavioral Theories of Learning, 153.
Cognitive Theories of Learning, 154. Humanistic Theories of Learning, 162. Social Learning Theory, 165. Socialization of the Learning Process, 168. Cooperative Learning, 169. Problem-based Learning, 169. Team Learning, 170. Organizational Learning, 170. Action Science, 171. Lifelong Learning, 172. Mastery Learning, 173. Synergy, 174. References, 176.

Chapter 9

To Performance Support from Teaching 178

Introduction, 178. The Urge to Consult, 178. ISD and Other Design-Development-Delivery Models, 182. New Media, Modes, Places for Learning, 185. The Value of Incidental Learning, 187. Measurement of Learning—Current Practice, 188. The Management of Learning, 189. Corporate Universities, 190. The CLO, 191. Monitoring Human Performance, 193. References, 196.

PART IV: NOVUS ORDO SECLORUM

Chapter 10

A New Order 197

Introduction, 197. (Re) Evolution at XMIT Corp, 198. A Complex Adaptive System, 200. The Edge of Chaos, 205. Darkness Visible, 209. The Light of Learning, 209. Technological Triumvirate, 209. Self-organization, 210. Learning and Chaotic Behavior, 211. References, 213.

Chapter 11

The Learner Learning in Chaos 215

Introduction, 215. A Natural Part of the System Order, 216.
How to Learn As a Complex Adaptive System, 218.
How to Learn As a Chaotic System, 221. References, 224.

Chapter 12

Chaotic Learning Support 225

Introduction, 225. Complementary Learning Systems, 227.
New Learning Theories Needed, 228. Toward a Chaotic
Learning Theory, 234. The Design of Chaotic Learning
Support, 237. Establishing the Basis for Intervention, 237.
The Problem with Gaps, 237. Recognizing Needs in Chaotic
Systems, 240. Developing Chaotic Interventions, 241.
Design of Complex Adaptive Performance Support
Systems, 241. Design of Chaotic Performance Support
Systems, 249. References, 261.

Chapter 13

Directions in Measurement 263

Introduction, 263. Where Measures Fall Short, 264.
A Control Chart to Control Behavior, 265. Balanced
Scorecard, 268. The Metrics of Learning, 269. Metrics in
Nonlinear Dynamical Systems, 274. Getting the Whole
Picture, 274. Nonlinear Mathematics and Learning, 276.
References, 283.

Chapter 14

Chaotic Performance 284

A Free System, 284. Securing the New Order, 287.
Conclusion, 290.

Index 293
