

TABLE OF CONTENTS

INTRODUCTION	1
ONE: THE BASIC PREMISES	7
1. Man-in-Society vs. Man-in-Nature	7
2. Empirical Demonstration	9
3. The Unity of Science	11
TWO: SOCIAL SCIENCE AND NATURAL SCIENCE	15
1. Society and the Organism.....	15
2. Ideas and Things.....	20
THREE: UTILITY AND VALIDITY	25
1. Utility	25
2. Validity.....	28
FOUR: SOCIAL BEHAVIOR AND SCIENCE ...	35
1. Society and Nature	35
2. The Social Construction of Reality	37
FIVE: THE WORLD OF EVERYDAY LIFE	41
1. Science and Everyday Life	41
2. Self-Evident Validity in Everyday Life	42
3. Social Knowledge in Everyday Life	47
4. Substance and Practicality.....	50
5. Scientific and Everyday Thinking.....	52
SIX: LANGUAGE AND SOCIAL SCIENCE	55
1. Words and Substance.....	55
2. New Knowledge	62
SEVEN: OBJECTIVITY AND COMPARISON..	65
1. Objectivity	65
2. Comparison.....	69

EIGHT: SOCIAL SCIENCE EVIDENCE.....	73
1. The Functions of Evidence.....	73
2. Evidence and Self-Evidence.....	75
3. Evidence Production	80
NINE: MECHANICAL EXTENSION AND SOCIAL SCIENCE	83
1. Mechanical Extension in Natural Science	83
2. Mechanical Extension in Social Science	84
3. Socialization and Naturalization	87
4. Seeing and Interpreting	90
TEN: DATA, NUMBERS, AND STATISTICS ...	93
1. Data.....	93
2. Numbers	95
3. Statistics.....	98
ELEVEN: THE ELEMENTS AND THE WHOLE.....	101
1. Sampling.....	101
2. Specialization	105
3. Science and Behavior	108
TWELVE: THE SCIENCE OF JOHN Q. PUBLIC	111
1. Survey and Science.....	111
2. The Perfect Sample.....	116
THIRTEEN: CONCERNING SOCIAL THEORY	119
1. Natural Theory and Social Theory	119
2. The Making of Social Theory	122
3. The Functions of Social Theory	124
4. Three-Dimensional Explanation and Prediction.....	126
FOURTEEN: TOWARD A THREE-DIMENSIONAL SOCIAL SCIENCE.....	131
1. The Three Dimensions of Social Science	131

2. The "Height," "Width," and "Depth" of Society	133
3. From Scientific Accuracy to Social Relevance	135
NOTES	137
THEMATIC INDEX	151
SUBJECT INDEX	159
