Introduction *Peter Curwen*

The neo-classical world	2
The neo-classical 1930s	3
The Keynesian revolution	4
Neo-classicism in decline	6
Efficiency versus equity	7
Employment, trade and inflation	9
The brief reign of monetarism	12
The Thatcher years	13
The political context	15

1 The Macroeconomy *Bob Sedgwick*

Introduction <i>Peter Curwen</i>	19
The national accounts	22
National income and output, 1977–88	31
Investment	35
Personal income, consumption and saving <i>Peter Curwen</i>	41
Economic performance	47
Inflation	52
Supply-side economics <i>Peter Curwen</i>	61
Appendix 1.1 Say's Law, the Laffer Curve and the Gutman Effect	64
Appendix 1.2 Supply-Side Measures	65

2 The Financial System

Peter Curwen

Financial intermediation	69
Classifying financial intermediaries	71

The Bank of England	72
The banking sector	74
Non-bank financial intermediaries	83
Money markets	88
Capital markets	93
'Big Bang' and its aftermath	95
Investor protection	97
Financial intermediation in the future	98
Conclusion	102

3 Spending, Taxing and Borrowing *Peter Curwen*

Introduction	103
Public expenditure	104
The overall tax burden	112
Fiscal drag	114
The tax system	114
The EC and tax harmonisation	123
The Budget	125
The public sector borrowing requirement and public sector debt repayment	127

4 External Transactions *Peter Curwen*

Introduction	131
The system of balance of payments accounts	132
The structure of the accounts	134
The accounts in retrospect	138
Competitiveness	145
Area composition of UK visible trade	147
Commodity composition of UK visible trade	149
Exchange rates	151
Exchange rate issues	161
Is there a balance of payments crisis?	163

The international monetary system	164
The international debt crisis	168

5 External Relations *Peter Curwen*

Introduction	172
The single European market	172
The European monetary system (EMS)	175
Protectionism	181
Reciprocity	184
General Agreement on Tariffs and Trade (GATT)	185
UK/EC budgetary relationships	187
Agriculture	188
Recent EC Budget negotiations	194
Costs and benefits of agricultural reform	195

6 The Labour Market

Brian McCormick

Introduction	199
Trade unions	200
The legal framework	202
Education and training	207
Employment	212
Unemployment	217
Causes of unemployment	225
The reduction of unemployment	227
Issues in pay determination	229
Conclusion	234

7 Welfare: Inequality and Poverty *Paul Marshall*

Inequality and income distribution	236
The concentration of wealth	246
Poverty and income maintenance	251
The response from the system	256

8 Industry and Policy

Keith Hartley and Nick Hooper

Introduction: the policy issues	266
Theory and industrial policy	268
The economics of regulation and regulatory policy	277
Competition policy	279
Ownership	287
Subsidy policy	292
Public purchasing	298
Conclusion	305

9 Macroeconomic policy

David Gowland and Stephen James

Introduction	306
Macroeconomic policy	307
A framework of analysis	310
Methods of monetary control	313
The 1950s and 1960s: the age of demand management	315
The 1970s	318
The 1980s: the Thatcher years	322
The policy in action	326
The decline of Keynesianism	332
Friedman's critique	334
New Classical and radical critiques	336
Financial policy in the ascendant	338
The desirability of intermediate targets	340
Direct controls on credit	343
Are Budget surpluses beneficial?	344
Index	347

List of Figures

1.1	A schematic representation of the UK economy	20
1.2	Capacity utilisation	32
1.3	Total business investment	37
1.4	Companies' net rate of return on capital	40
1.5	Personal income, 1977-89	42
1.6	Share of consumers' expenditure, 1988	43
1.7	Total domestic saving as % of GDP at factor cost	47
1.8	Real GDP, 1981-87	49
1.9	Annual contribution of stockbuilding to GDP growth	50
1.10	Average growth for six-year periods, 1949-54 to 1983-88	51
1.11	The Retail Prices Index	54
1.12	Consumer price indices, selected countries, 1975-88	57
2.1	Retail banks, balance sheet	77
2.2	Building societies, assets and liabilities	85
3.1	General government expenditure and planning total in real terms, 1963-64 to 1990-91	106
3.2	General government expenditure as % of GDP, 1890-1986	109
3.3	Public expenditure by function	110
3.4	The tax burden	112
3.5	Tax revenues as % of GDP, selected OECD countries, 1986	113
3.6	Sources of revenue, 1989-90	126
3.7	PSBR as % of GDP	129
4.1	UK balance of payments accounts, 1983-88	135
4.2	Measures of UK trade competitiveness	146
4.3	Visible trade balance	152
4.4	'Old' sterling ERI, 1972-88	157

4.5	International reserves, % change on previous year	168
5.1	National subsidies as % of domestic income	174
5.2	EMS exchange rate constraints	177
5.3	Producer subsidy equivalents, 1979–81 and 1984–86	196
5.4a	Price adjustment gap: cereals	197
5.4b	Price adjustment gap: sugar	197
6.1	Employment and training measures, numbers of people supported	211
6.2	Civilian labour force of working age and population of working age by sex, Great Britain	213
6.3	Workforce and workforce in employment, UK	217
6.4	UK unemployment flows, April 1988–April 1989	220
6.5	Unemployment by age, duration and sex, April 1987 and April 1989	221
6.6	International comparisons of unemployment	222
6.7	Regional unemployment rates	224
6.8	Annual rate of change of weekly earnings of all workers	226
7.1	Hypothetical Lorenz curves and the measurement of inequality	239
7.2	Measuring the Gini coefficient from the Lorenz curve	240
7.3	Dispersion of gross weekly earnings, 1977–87	243
7.4	Lorenz curves as calculated by Morris and Preston (1986)	246
7.5	Distribution of wealth, UK, 1976–88	248
7.6	Composition of net wealth of personal sector, UK, 1971–87	249
8.1	Mergers, scale economies and competition	271

8.2	Linkages in the political market: the example of smoking	276
8.3	Classifying privatisation	289
8.4	The economics of collaboration	299
9.1	Relationships among monetary aggregates and their components	311
9.2	Bank base rates, 1977-89	328

9.3	Aggregate demand, aggregate supply and inflation	335
9.4	Aggregate demand, aggregate supply and Phillips Curves	336
9.5	Alternative approaches to credit control	343

List of Tables

1.1	National product and GDP, 1988	24-25
1.2	GDP at constant factor cost	27
1.3	UK GDP by industry 1988	28
1.4	GDP, growth of output by sector, 1980-88	29
1.5	UK real domestic product by category of expenditure, 1977-89	30
1.6	Investment (GDFCF) by type of asset and by sector as a % of GDP, 1977-88	34
1.7	Investment by type of asset as a % of GDFCF	38
1.8	Personal income, expenditure and saving	44
1.9	Real GDP growth	49
1.10	Output per person employed	52
1.11	Assorted price indices	55
1.12	Contributions to output prices in manufacturing from changes in cost components	60
1.13	Estimated contributions to the growth in output prices	60
2.1	Financial intermediaries	72
2.2	UK monetary sector, deposit liabilities at 30 Sep 1988	75
2.3	Building society statistics	84
2.4	Unit trusts, 1984-88	87
3.1	Public expenditure totals	105
3.2	General government expenditure, excluding privatisation proceeds, as a % of GDP: plans and out-turns	108
