

**Scalp and hair**

- |                                                                     |    |
|---------------------------------------------------------------------|----|
| 1. Psoriasis v. seborrhoeic dermatitis (adults)                     | 2  |
| 2. Alopecia areata v. traction alopecia                             | 4  |
| 3. Alopecia areata v. scarring alopecias                            | 6  |
| 4. Alopecia areata v. tinea capitis in children                     | 8  |
| 5. Diffuse alopecia areata v. telogen effluvium                     | 10 |
| 6. Melanocytic naevus ('mole') v. organoid naevus (naevus sebaceus) | 12 |

**Oral and lips**

- |                                                       |    |
|-------------------------------------------------------|----|
| 7. Geographical tongue v. other causes of sore tongue | 14 |
| 8. Lichen planus and lichenoid plaques v. leukoplakia | 16 |
| 9. Fordyce spots v. <i>Candida</i> infection          | 18 |
| 10. Lips: Eczema v. actinic cheilitis                 | 20 |
| 11. Lips: Lip-lick v. allergic contact eczema         | 22 |
| 12. Lips: Angioedema v. contact urticaria             | 24 |

**Face and neck**

- |                                                                          |    |
|--------------------------------------------------------------------------|----|
| 13. Infantile seborrhoeic eczema v. atopic eczema                        | 26 |
| 14. Seborrhoeic eczema v. rosacea                                        | 28 |
| 15. Rosacea v. lupus erythematosus                                       | 30 |
| 16. Photosensitivity v. airborne contact dermatitis                      | 32 |
| 17. Acne v. pseudofolliculitis                                           | 34 |
| 18. Acne v. tuberous sclerosis (adenoma sebaceum)                        | 36 |
| 19. Eyelid contact dermatitis v. other eyelid eczemas                    | 38 |
| 20. Eczema v. actinic keratoses                                          | 40 |
| 21. Acute eczema v. erysipelas/cellulitis in adults                      | 42 |
| 22. Scleroderma/CREST syndrome v. hereditary haemorrhagic telangiectasia | 44 |
| 23. Nodular basal cell carcinoma v. intradermal naevus                   | 46 |
| 24. Basal cell carcinoma v. sebaceous hyperplasia                        | 48 |
| 25. Cysts v. intradermal naevi                                           | 50 |
| 26. Squamous cell carcinoma v. keratoacanthoma                           | 52 |
| 27. Actinic keratosis of ear v. chondrodermatitis nodularis              | 54 |
| 28. Flat seborrhoeic keratosis v. solar lentigo                          | 56 |

**Palms and soles**

- |                                                                     |    |
|---------------------------------------------------------------------|----|
| 29. Chronic psoriasis v. chronic dermatitis                         | 58 |
| 30. Chronic psoriasis v. diffuse palmoplantar keratoderma (tylosis) | 60 |
| 31. Chronic dermatitis v. fungal infection                          | 62 |

32. Chronic dermatitis v. juvenile plantar dermatosis	64
33. Palmoplantar pustulosis v. pompholyx eczema	66
34. Pitted keratolysis v. tinea pedis	68
35. Plantar wart (verruca) v. corn	70

### **Dorsum hands**

36. Granuloma annulare v. viral wart (hand/foot site)	72
37. Porphyria cutanea tarda v. eczema	74
38. Chronic irritant v. allergic hand eczema	76
39. Squamous cell carcinoma v. actinic keratosis	78

### **Trunk**

40. Guttate psoriasis v. viral exanthem	80
41. Plaque psoriasis v. parapsoriasis	82
42. Extensive psoriasis v. mycosis fungoides	84
43. Discoid eczema v. superficial basal cell carcinoma	86
44. Acne v. pityrosporum folliculitis	88
45. Pityriasis versicolor v. vitiligo	90
46. Lichen sclerosus et atrophicus v. morphoea	92
47. Polymorphic eruption of pregnancy v. pemphigoid gestationis	94
48. Morphoea v. fungal infection (tinea corporis)	96
49. Paget's disease v. eczema of nipples	98
50. Cholinergic urticaria v. flushing	100

### **Generalised**

51. Psoriasis v. discoid eczema (nummular dermatitis)	102
52. Drug eruption v. viral exanthem	104
53. Atopic eczema v. scabies	106
54. Dermatitis herpetiformis v. eczema	108
55. Tinea v. eczema (excluding palms and soles)	110
56. Erythema multiforme v. urticaria	112
57. Bullous pemphigoid v. eczema	114
58. Bullous pemphigoid v. pemphigus	116

### **Flexural/perineal/genital**

59. Flexural eczema v. flexural psoriasis	118
60. Psoriasis v. tinea	120
61. Nappy dermatitis v. candidosis	122
62. Genital lichen sclerosus in women v. dermatitis	124
63. Penile psoriasis v. Zoon's balanitis	126
64. Viral wart v. bowenoid papulosis	128
65. Perianal warts in child v. molluscum contagiosum	130

## **Limbs**

66. Keratosis pilaris v. atopic eczema	132
67. Psoriasis v. Bowen's disease	134
68. Asteatotic eczema (eczema craquelée) v. venous eczema	136
69. Arterial leg ulcer v. venous leg ulcer	138
70. Venous leg ulcer v. vasculitic ulceration	140
71. Bullous pemphigoid v. papular urticaria	142
72. Bullous pemphigoid v. oedema blister	144
73. Lower leg cellulitis v. other leg swelling	146
74. Raynaud's phenomenon v. acrocyanosis/ chilblains	148
75. Lichen simplex v. lichen planus of legs	150
76. Naevus v. dermatofibroma	152
77. Actinic keratosis v. porokeratosis	154
78. Bowen's disease v. other skin malignancies	156

## **Any site**

79. Malignant melanoma v. angioma/pyogenic granuloma	158
80. Malignant melanoma v. naevus	160

81. Naevus v. seborrhoeic keratosis (seborrhoeic wart, basal cell papilloma)	162
82. Epidermoid cyst v. lipoma	164
83. Multiple minute Campbell de Morgan spots v. purpura	166
84. Herpes zoster v. other acute inflammatory eruptions	168

## **Nails**

85. Chronic paronychia v. dermatophyte (tinea) infection	170
86. Traumatic toenail dystrophy v. tinea of toenails	172
87. Psoriasis v. eczema	174
88. Psoriasis v. dermatophyte (tinea) infection	176
89. Periungual wart v. other periungual nodules	178
90. Subungual melanoma v. subungual haematoma	180
