

CONTENTS

Preface	vii
Contributors	xiii
Part I. Epidemiology/IgE	
1 Molecular Mechanisms of Isotype Switching to IgE	3
<i>Donata Vercelli</i>	
2 Cytokines and IgE Regulation	13
<i>Juha Punnonen and Jan E. deVries</i>	
3 Environmental Allergens	41
<i>Thomas A. E. Platts-Mills, Judith A. Woodfolk, and Lisa M. Wheatley</i>	
4 Ontogeny of Allergy	61
<i>Bengt Björkstén</i>	
Part II. Inflammation: Cellular Aspects	
5 The Role of the Bone Marrow in Allergic Disease	85
<i>Mark D. Inman, Roma Sehmi, Paul M. O'Byrne, and Judah A. Denburg</i>	
6 The Role of Mast Cells in Inflammation and Homeostasis	103
<i>Angus J. MacDonald, Fiona L. Wills, Tong-Jun Lin, and A. Dean Befus</i>	
7 Human Langerhans Cells	127
<i>Thomas Bieber</i>	
8 Eosinophils	139
<i>Redwan Moqbel and Paige Lacy</i>	
9 Role of Basophils in Allergic Reactions	167
<i>Peter Valent</i>	
10 Neurogenic Inflammation in Allergic Disease	175
<i>Peter J. Barnes</i>	
11 Inflammation: <i>Th1/Th2 Cells</i>	195
<i>Sergio Romagnani</i>	
12 T-Cells in the Pathogenesis of Asthma and Allergic Diseases	211
<i>Marc Humbert and Stephen R. Durham</i>	
13 Role of CD8 ⁺ T-Cells in the Regulation of Immunoglobulin E ..	229
<i>Paul A. MacAry and David M. Kemeny</i>	
14 Airway Wall Structure	243
<i>Peter K. Jeffery, Mariusz J. Gizycki, and Andrew V. Rogers</i>	

15	Epithelium	281
	<i>Mary H. Perdue and Derek M. McKay</i>	
Part III. Inflammation: Molecular Aspects		
16	Proinflammatory Cytokines in Allergic Disease	307
	<i>Daniel L. Hamilos</i>	
17	Hemopoietic Cytokines: <i>Function, Receptors, and Signal Transduction</i>	331
	<i>Hirokazu Kurata and Ken-ichi Arai</i>	
18	Adhesion Receptors in Allergic Disease	351
	<i>Andrew J. Wardlaw</i>	
19	Cell/Cytokine Interactions	373
	<i>David H. Broide</i>	
20	Signaling in Mast Cells	385
	<i>Anthony P. Sampson and Martin K. Church</i>	
21	Signaling in Human Basophils	395
	<i>Donald MacGlashan, Jr.</i>	
22	Eosinophil Signal Transduction	415
	<i>Hirohita Kita</i>	
Part IV. Pathogenesis		
23	Pathogenesis of Allergic Rhinitis	445
	<i>Niels Mygind and Ronald Dahl</i>	
24	Pathogenic Mechanisms of Urticaria	459
	<i>Allen P. Kaplan</i>	
25	Atopic Eczema	481
	<i>Johannes Ring, Ulf Darsow, and Dietrich Abeck</i>	
26	Pathogenesis of Asthma	493
	<i>Paul M. O'Byrne</i>	
27	Pathogenesis of Allergic Conjunctivitis	509
	<i>Sergio Bonini and Stefano Bonini</i>	
Part V. Therapeutics		
28	Glucocorticoids (Corticosteroids)	523
	<i>Christopher J. Corrigan</i>	
29	Beta-Agonists	541
	<i>Harold S. Nelson</i>	

30	Sodium Cromoglycate and Nedocromil Sodium	559
	<i>Alan M. Edwards, Alexis E. Harper, D. Ken Rainey, and Alan A. Norris</i>	
31	Airway Remodeling and Repair	567
	<i>Peter M. Hockey, Ratko Djukanović, William R. Roche, and Stephen T. Holgate</i>	
	Index	581
