	<i>Index</i>	258

# FIGURES

2.1 Pareto's drawing of Buridan's ass	29
4.1 Selecting the choice set	77
4.2 Local efficiency gains	77
4.3 Local utility gains	78
4.4 Local efficiency and utility gains	79
4.5 Local efficiency gains with no utility gains	80
4.6 Local utility gains with no efficiency gains	80
4.7 Local efficiency gains and utility losses	81
4.8 Local utility gains and efficiency losses	81
8.1 Time of starting and stopping work, 1750 and 1800	146
8.2 Changes in the odds ratio: Monday and weekdays	147
8.3 Changes in the odds ratio: old holy days	148
8.4 Real wages in London, 1749–1805	154
8.5 Time allocation in the Becker model	163
9.1 Rarefaction processes in the firm–consumer relationships	181
9.2 Types of rarefaction processes	187
10.1 Time paths of consumption stocks $s_j$ , $j = 1, 2, 3$	207
10.2 Estimated invariant distribution, consumption stock of good 1	208
12.1 Arrow	239

## TABLES

8.1 Changes in labour input, 1750–1800	149
8.2 Incidence of paid work, 1749–1803	155
8.3 Price of clothing, selected benchmark years 1750–1800	161
8.4 Incidence of paid work, 1749–1803	165
