## **PART I DEVELOPMENTAL FOUNDATIONS**

|  |           |
|--|-----------|
| <b>1. A DEVELOPMENTAL APPROACH TO TRAUMA .....</b>         | <b>3</b>  |
| Core features of trauma 5                                  |           |
| Trauma, psychopathology, and development 8                 |           |
| Relatively impersonal trauma 11                            |           |
| Interpersonal trauma 13                                    |           |
| Educating clients about trauma 17                          |           |
| <b>2. TRAUMA IN ATTACHMENT RELATIONSHIPS .....</b>         | <b>20</b> |
| Attachment trauma in childhood 22                          |           |
| Attachment trauma in adulthood 33                          |           |
| Attachment trauma and psychopathology 38                   |           |
| Educating clients about attachment trauma 41               |           |
| <b>3. ATTACHMENT, RELATIONSHIPS, AND REENACTMENT .....</b> | <b>44</b> |
| Attachment and physiological regulation 45                 |           |
| Attachment patterns in infancy and childhood 46            |           |
| Mental representation and internal working models 53       |           |

Developmental continuity and discontinuity in attachment 55  
Attachment patterns in adulthood 56  
Reenactment 61  
Educating clients about attachment and reenactment 73

**4. THE TRAUMATIZED SELF ..... 78**  
The traumatized 'I' 79  
The traumatized 'Me' 90  
Educating clients about the traumatized self 95

**PART II TRAUMA-RELATED DISORDERS**

**5. PTSD AND TRAUMATIC MEMORIES ..... 103**  
PTSD 103  
Traumatic memories 115  
Repressed memories? 123  
Factors that impair personal event memories of trauma 127  
A spectrum of accuracy in personal event memories of trauma 132  
Educating clients about traumatic memories 136

**6. TRAUMA AS CHRONIC PHYSICAL ILLNESS ..... 139**  
PTSD as a chronic physical illness 140  
Trauma and ill health 154  
Educating clients about chronic physical illness 158

**7. DISSOCIATIVE DETACHMENT AND  
COMPARTMENTALIZATION ..... 161**  
The traumatic basis of dissociation 162  
PTSD and dissociation 167  
Evolutionary origins of dissociative states 169  
Genetic and neurobiological contributions to dissociation 175  
Dissociative detachment 177  
Dissociative compartmentalization 183  
Dissociative Identity Disorder (DID) 188  
Dissociation, PTSD, and psychosis 196  
Educating clients about dissociative states 199

**8. SUBSTANCE ABUSE, EATING DISORDERS,  
AND SELF-HARM ..... 204**  
Substance abuse 205  
Eating disorders 211  
Deliberate self-harm 216  
Educating clients about interpersonal effects and vicious circles 228

|  |            |
|--|------------|
| <b>9. POST-TRAUMATIC DEPRESSION</b> .....                  | <b>234</b> |
| Depression and PTSD  | 236        |
| Trauma, stress, and depression                             | 240        |
| Depression as interpersonal imbalance                      | 247        |
| Trauma and bipolar disorder                                | 251        |
| Educating clients about the catch-22s of depression        | 252        |
| <b>10. POST-TRAUMATIC PERSONALITY DISORDERS</b> .....      | <b>261</b> |
| Personality disorder or complex PTSD?                      | 264        |
| Trauma and personality disorder                            | 265        |
| Dissociation and personality disorder                      | 268        |
| Insecure attachment and personality disorder               | 270        |
| Trauma in the etiology of BPD                              | 271        |
| The problem of masochism                                   | 277        |
| Alienation   | 283        |
| Educating clients about personality disorders              | 284        |
| <br><b>PART III TREATMENT AND LONG-TERM MANAGEMENT</b>     |            |
| <b>11. CONTAINING TRAUMA</b> .....                         | <b>291</b> |
| Containment  | 292        |
| Structuring treatment                                      | 294        |
| The hazards of seeking social support                      | 298        |
| Secure attachment in psychotherapy                         | 304        |
| Principles of self-regulation                              | 312        |
| Educating clients about self-regulation strategies         | 317        |
| <b>12. NARRATING TRAUMA</b> .....                          | <b>324</b> |
| Avoidance revisited  | 325        |
| Beyond catharsis   | 327        |
| Transformation   | 329        |
| Selected techniques  | 331        |
| Some horse races   | 337        |
| Some complications   | 339        |
| Narrating trauma   | 341        |
| Educating clients about narrating trauma                   | 344        |
| <b>13. PSYCHOEDUCATIONAL APPROACHES</b> .....              | <b>347</b> |
| Client education in trauma treatment                       | 348        |
| A clinic-wide psychoeducational program for adults         | 351        |
| Educating adolescents— <i>AnnMarie Glodich</i>             | 359        |
| Educating partners and family members— <i>Kay A. Kelly</i> | 366        |
| Reflection   | 372        |

|                                     |            |
|-------------------------------------|------------|
| <b>14. THERAPISTS AT RISK</b> ..... | <b>373</b> |
| Childhood adversity                 | 373        |
| Current stress                      | 375        |
| Impact of secondary stress          | 376        |
| Prevention and intervention         | 379        |
| References .....                    | 383        |
| Index .....                         | 453        |

## TABLES AND FIGURES

|             |   |     |
|-------------|---|-----|
| Table 9.1   | The catch 22s of depression                             | 253 |
| Figure 1.1  | Stress pile-up, unbearable states, and vicious circles  | 18  |
| Figure 3.1  | Attachment styles and relationship dimensions           | 73  |
| Figure 3.2  | Relationship roles and reenactments                     | 75  |
| Figure 5.1  | Stress pile-up and course of illness                    | 107 |
| Figure 5.2  | Vicious circles in sleep disturbance                    | 112 |
| Figure 8.1  | Interpersonal side effects of self-destructive behavior | 229 |
| Figure 11.1 | Containment in trauma treatment                         | 293 |
| Figure 12.1 | Transforming traumatic memories                         | 331 |
| Figure 13.1 | Sensitization as a '90/10 response'                     | 369 |
