Government controls on and support for tourism	60
Tourism legislation	65
International regulation	69
<i>3. Trends and Developments</i>	73
Sociology of tourism	73
Fragmentation in the tourism industry	82
Seasonality	86
Trends in international tourism	93
Ecology management	99
International environmental regulation and control	104
Environmental auditing	113
Science and technology	120
Information technology and computer reservation systems	126
Role of research in tourism	131
Tourism and the media	135
Education and training	140
Career opportunities	145

Part II Tourism Management

<i>1. Strategic and Operational Management</i>	153
--	-----

Contents

Decision design for tourism chief executive officers	153
Strategy planning and management	159
Systems approach	170
Tourism information systems	178
Strategic alliances	183
Human resource management	188
Managing labor flexibility — hotel and catering	191
Production/operations management	196
Applications of information technology — hospitality	202
Productivity measurement — hotels	207
2. <i>Financial Management</i>	214
Financial planning and control	214
Financial analysis	220
Management by exception	225
Capital budgeting	229
Priority base budgeting	234
Cash management	238
Development and investment policy in tourism	242
Profile of investment incentives	246
Foreign exchange management	253
3. <i>Quality management</i>	258
Total quality management	258
Quality assessment of tourism developments	266
Quality management — hotels	274
Quality of service and tourist satisfaction	279
Quality of service and customer care	285
Part III Tourism Marketing	
1. <i>Consumer Behavior, Marketing Research, and Segmentation</i>	293
Consumer behavior	293
Marketing research	300
Market segmentation	305
Demographic segmentation	311
Psychographic segmentation	316
Targeting markets	321
Positioning strategies	332
2. <i>Managing the Marketing Mix</i>	337

Overall tourism product	337
Product lifecycle	341
Branding	346
New product development	350
Pricing	354
Tariff management — hotels	359
Promotional mix	362
Promotional strategies	371
Promotion budget allocation for national tourist offices using an expert system	377
Direct marketing	382
Public relations	389
Multination promotion	395
Tour operators	399
Franchising	404

Marketing management	408
Marketing plan	413
Marketing opportunity analysis	417
Marketing feasibility study	424
Technological change and competitive marketing strategies	430
Marketing strategies — hospitality	434
Market penetration	442
Marketing budgeting — hotels	446
Marketing audit	453
European destination marketing	460
Marketing in small island states	467
Part IV Analytical Methods Applied to Tourism	
1. <i>Economics and Forecasting</i>	475

Economic impact	475
Input-output analysis	480
Receipts/expenditures balance analysis	485
Economic impact models	488
Economic models	497
Cost-benefit analysis	504
Measuring and managing the demand for public resources	510
Econometric demand forecasting	516
Demand elasticities	521
Univariate time series demand forecasting	520
Delphi forecasting	535
Assessing forecasting performance	540
2. <i>Computer Modeling and Statistics</i>	544
Modeling site location decisions	544
Analytic hierarchy process	550
Expert systems	554
Statistical measurement	559
Multivariate data analysis	564
3. <i>Information Systems and Techniques</i>	570
Geographical information systems and tourism planning	570
Meta-analysis	575
Content analysis	580
<i>Appendix: Computer software</i>	585
<i>Index of contributors</i>	587
<i>Index</i>	589
