Foreword	v
1 Introduction	1
2 Data	3
3 Methodology	4
Models of Determinants of Health Status	5
Use of Regression Residuals	6
4 Results	7
Regression Results for the Effects of Income and Education on Health Outcomes	7
Country Performance Trends across Time	10
Regional Performance Trends across Time	10
Comparing Residuals from Different Models	12
Country Performance Level Relative to the Other Countries and Economies	14
Health Improvement: Relative Contribution of Income, Education, and Technical Progress	17
5 Conclusions	20
Endnotes	21
References	22
Supplementary Tables	23
Annex A. East Asia and the Pacific: Regional and Country-Specific Indicators of Performance on Health	77
Annex B. Europe and Central Asia: Regional and Country-Specific Indicators of Performance on Health	115
Annex C. Latin American and the Caribbean: Regional and Country-Specific Indicators of Performance on Health	137
Annex D. Middle East and North Africa: Regional and Country-Specific Indicators of Performance on Health	203
Annex E. South Asia: Regional and Country-Specific Indicators of Performance on Health	239
Annex F. Sub-Saharan Africa: Regional and Country-Specific Indicators of Performance on Health	255

Figures

1	Income and Under-Five Mortality (q5), 1960 and 1980	1
2	Performance on Under-Five Mortality Rate over Time	13
3	Performance Diamonds for Selected Countries, 1990	14

Text Tables

1	Education, Income, and Time as Determinants of Health Outcomes	8
2	Effects of an Additional Year of Education or an Additional \$1,000 of Income on Health Outcomes	9
3	Regional Variation in Performance, Relative to Income and Education, 1960–90	11
4	Income and Time as Determinants of Health Outcomes	15
5	Correlation of Performance Measures between Models Estimated With and Without Education	16
6	Regional Variation in Performance, Relative to Income, 1960–90	16
7.	Income, Education, and Time as Determinants of Health Outcomes: Decomposition Analysis	18
8.	Accounting for Progress in Health, 1960–90: Regional Variation in the Relative Contributions of Technical Progress and Changes in Income and Education Levels	18

Supplementary Tables

I.	List of Countries or Economies in Each Region	24
II.	Comparison of Regression Coefficients Using Different Income Measures	26
III.	Means and Standard Deviations of Variables Used, Overall and by Region	28
IV.	Country-Specific Performance Relative to Income and Education, 1960–90	
IV.1	Under-Five Mortality Rate	31
IV.2	Female Adult Mortality Rate	33
IV.3	Male Adult Mortality Rate	35
IV.4	Total Fertility Rate	37
IV.5	Female Life Expectancy	39
IV.6	Male Life Expectancy	41
V.	Country-Specific Performance Relative to Income, 1960–90	
V.1	Under-Five Mortality Rate	43
V.2	Female Adult Mortality Rate	45
V.3	Male Adult Mortality Rate	48
V.4	Total Fertility Rate	51
V.5	Female Life Expectancy	54
V.6	Male Life Expectancy	57
VI.	Country Rankings on Selected Health Indicators, Controlling for Income and Education	60
VII.	Country Rankings on Selected Health Indicators, Controlling for Income Only	62
VIII.	Accounting for Progress, 1960–90: Country Variation in the Relative Contributions of Technical Progress and Changes in Income and Education Levels	
VIII.1	Under-Five Mortality Rate	65
VIII.2	Female Adult Mortality Rate	66
VIII.3	Male Adult Mortality Rate	68
VIII.4	Total Fertility Rate	70
VIII.5	Female Life Expectancy	72
VIII.6	Male Life Expectancy	74
