Excerpts from the Preface to the Fourth Edition .....	xix
Preface .....	xxi

## **Part One Cellular Neurochemistry and Neural Membranes**

1. Neurocellular Anatomy .....	3
<i>Cedric S. Raine</i>	
2. Cell Membrane Structures and Functions .....	31
<i>R. Wayne Albers</i>	
3. Lipids .....	47
<i>Bernard W. Agranoff, Joyce A. Benjamins and Amiya K. Hajra</i>	
4. Myelin Formation, Structure and Biochemistry .....	69
<i>Pierre Morell and Richard H. Quarles</i>	
5. Membrane Transport .....	95
<i>R. Wayne Albers and George J. Siegel</i>	
6. Electrical Excitability and Ion Channels .....	119
<i>Bertil Hille and William A. Catterall</i>	
7. Cell Adhesion Molecules .....	139
<i>David R. Colman and Marie T. Filbin</i>	
8. Cytoskeleton of Neurons and Glia .....	155
<i>Laura L. Kirkpatrick and Scott T. Brady</i>	
9. Intracellular Trafficking .....	175
<i>Thomas C. Südhof</i>	

## **Part Two Intercellular Signaling**

10. Synaptic Transmission and Cellular Signaling: An Overview .....	191
<i>Ronald W. Holz and Stephen K. Fisher</i>	
11. Acetylcholine .....	213
<i>Palmer Taylor and Joan Heller Brown</i>	
12. Catecholamines .....	243
<i>Michael J. Kuhar, Pastor R. Couceyro and Philip D. Lambert</i>	
13. Serotonin .....	263
<i>Alan Frazer and Julie G. Hensler</i>	
14. Histamine .....	293
<i>Lindsay B. Hough</i>	

15. Glutamate and Aspartate ..... 315  
*Raymond Dingledine and Chris J. McBain*
16. GABA and Glycine ..... 335  
*Richard W. Olsen and Timothy M. DeLorey*
17. Purinergic Systems ..... 347  
*Joel M. Linden*
18. Peptides ..... 363  
*Richard E. Mains and Betty A. Eipper*
19. Growth Factors ..... 383  
*Gary E. Landreth*

### Part Three Intracellular Signaling

20. G Proteins ..... 401  
*Eric J. Nestler and Ronald S. Duman*
21. Phosphoinositides ..... 415  
*Stephen K. Fisher and Bernard W. Agranoff*
22. Cyclic Nucleotides ..... 433  
*Ronald S. Duman and Eric J. Nestler*
23. Calcium ..... 453  
*James W. Putney, Jr.*
24. Serine and Threonine Phosphorylation ..... 471  
*Eric J. Nestler and Paul Greengard*
25. Tyrosine Phosphorylation ..... 497  
*Lit-fui Lau and Richard L. Huganir*
26. Transcription Factors in the Central Nervous System ..... 523  
*James Eberwine*

### Part Four Growth, Development and Differentiation

27. Development ..... 537  
*Jean de Vellis and Ellen Carpenter*
28. Axonal Transport ..... 565  
*David L. Stenoien and Scott T. Brady*
29. Axon Sprouting and Regeneration ..... 589  
*Carl W. Cotman*
30. Biochemistry of Aging ..... 613  
*Caleb E. Finch and George S. Roth*

### Part Five Metabolism

31. Circulation and Energy Metabolism of the Brain ..... 637  
*Donald D. Clarke and Louis Sokoloff*
32. Blood-Brain-Cerebrospinal Fluid Barriers ..... 671  
*John Laterra, Richard F. Keep, A. Lorris Betz and Gary W. Goldstein*

33.	Nutrition and Brain Function .....	691
	<i>Gary E. Gibson and John P. Blass</i>	
34.	Hypoxic-Ischemic Brain Injury and Oxidative Stress .....	711
	<i>Laura L. Dugan and Dennis W. Choi</i>	
35.	Eicosanoids, Platelet-Activating Factor and Inflammation .....	731
	<i>Nicolas G. Bazan</i>	
36.	Neuropathy .....	743
	<i>David E. Pleasure</i>	
37.	Epileptic Seizures and Epilepsy .....	755
	<i>Brian Meldrum and Astrid Chapman</i>	
38.	Metabolic Encephalopathies .....	769
	<i>Roger F. Butterworth</i>	
39.	Diseases Involving Myelin .....	783
	<i>Richard H. Quarles, Pierre Morell and Henry F. McFarland</i>	

### **Part Six     Inherited and Neurodegenerative Diseases**

40.	Genetics of Inherited Diseases .....	805
	<i>Kunihiko Suzuki</i>	
41.	Lysosomal and Peroxisomal Diseases .....	821
	<i>Kunihiko Suzuki and Marie T. Vanier</i>	
42.	Diseases of Carbohydrate, Fatty Acid and Mitochondrial Metabolism .....	841
	<i>Salvatore diMauro and Darryl C. De Vivo</i>	
43.	Disorders of Muscle Excitability .....	865
	<i>Robert L. Barchi</i>	
44.	Diseases of Amino Acid Metabolism .....	887
	<i>Marc Yudkoff</i>	
45.	Neurotransmitters and Disorders of the Basal Ganglia .....	917
	<i>J. Sian, Moussa B. H. Youdim, P. Riederer and M. Gerlach</i>	
46.	Biochemistry of Alzheimer's and Prion Diseases .....	949
	<i>Dennis J. Selkoe and Peter J. Lansbury, Jr.</i>	

### **Part Seven     Neural Processing and Behavior**

47.	Molecular Biology of Vision .....	971
	<i>Hitoshi Shichi</i>	
48.	Molecular Biology of Olfaction and Taste .....	985
	<i>Stuart J. Firestein, Robert F. Margolskee and Sue Kinnamon</i>	
49.	Endocrine Effects on the Brain and Their Relationship to Behavior .....	1007
	<i>Bruce S. McEwen</i>	
50.	Learning and Memory .....	1027
	<i>Bernard W. Agranoff, Carl W. Cotman and Michael D. Uhler</i>	
51.	Neurochemistry of Schizophrenia .....	1053
	<i>Herbert Y. Meltzer and Ariel Y. Deutch</i>	

52. Biochemical Hypotheses of Mood and Anxiety Disorders .....	1073
<i>Jack D. Barchas and Margaret Altemus</i>	
53. Neurochemical Bases of Drug Abuse .....	1095
<i>George R. Uhl</i>	
54. Positron Emission Tomography .....	1109
<i>Kirk A. Frey</i>	
Glossary of Abbreviated Terms .....	1133
Subject Index .....	1141

### Boxes

Box 3-1: Glycosylphosphatidylinositol-Anchored Proteins .....	64
<i>Bernard W. Agranoff</i>	
Box 17-1: Inherited Diseases of Purine Metabolism .....	352
<i>George J. Siegel</i>	
Box 21-1: 3-Phosphoinositides .....	420
<i>Stephen K. Fisher and Bernard W. Agranoff</i>	
Box 21-2: Phosphoinositides and Cell Regulation .....	424
<i>Stephen K. Fisher and Bernard W. Agranoff</i>	
Box 23-1: Voltage-Gated Calcium Ion Channels .....	460
<i>Torben R. Neelands and Robert L. Macdonald</i>	
Box 45-1: Linkage of Copper and Iron Metabolism in Basal Ganglia Disorders .....	942
<i>George J. Siegel</i>	
Box 47-1: Mechanosensory Transduction: Hair Cells .....	983
<i>Peter Gillespie</i>	
Box 50-1: The Biochemical Bases of Oscillatory Phenomena and .....	1051
Their Possible Functions in Brain Plasticity	
<i>R. Wayne Albers</i>	
Box 53-1: A Molecular Mechanism for Addiction: cAMP Systems .....	1104
<i>Eric J. Nestler</i>
