

Preface vii

1. Overview of Viruses and Virus Infection

Introduction	1
Classification of Viruses	5
An Overview of the Replication Cycle of Viruses	8
Effects of Virus Infection on the Host Cell	27
Epidemiology: The Spread of Viruses from Person to Person	29
Further Reading	30

2. The Structure of Viruses

Introduction	33
Helical Symmetry	33
Icosahedral Symmetry	34
Nonenveloped Viruses with More Complicated Structural Features	43
Enveloped Viruses	43
Assembly of Virions	52
Stability of Virions	55
Further Reading	56

3. Plus-Strand RNA and Double-Strand RNA Viruses

Introduction	57
Family Picornaviridae	58
Family Caliciviridae	71
Family Astroviridae	74
Family Togaviridae	76
Family Flaviviridae	85
Family Coronaviridae	100
Family Arteriviridae	103

Contents

The Plus-Strand RNA Viruses of Plants	104
Origin and Evolution of Plus-Strand RNA Viruses	105
Viruses That Contain Double-Stranded RNA: Family Reoviridae	108
Further Reading	122

4. Minus-Strand RNA Viruses

Introduction	123
Overview of the Minus-Strand RNA Viruses	123
Family Rhabdoviridae	126
Family Paramyxoviridae	132
Family Filoviridae	144
Family Bornaviridae	146
Family Orthomyxoviridae	147
Family Bunyaviridae	156
Family Arenaviridae	162
Evolution of Minus-Strand RNA Viruses	168
Further Reading	168

5. Viruses Whose Life Cycle Uses Reverse Transcriptase

Introduction	171
Family Retroviridae	172
Family Hepadnaviridae	210
Further Reading	218

6. DNA-Containing Viruses

Introduction	221
Family Poxviridae	223
Family Herpesviridae	234
Family Adenoviridae	252
Family Polyomaviridae	259

Family Papillomaviridae	265
Family Parvoviridae	270
TT Virus: A Newly Described Human Virus	276
Further Reading	276

7. Subviral Agents

Introduction	279
Defective Interfering Viruses	279
Satellites and Satellite Viruses	283
Viroids and Virusoids	284
Hepatitis δ	284
Prions and Prion Diseases	291
Further Reading	302

8. Host Defenses against Viral Infection and Viral Counterdefenses

Introduction	303
Adaptive Immune System	303

Innate Immune System	323
Viral Counterdefenses	334
Interactions of Viruses with Their Hosts	345
Further Reading	346

9. Gene Therapy

Introduction	347
Virus Vector Systems	347
Use of Viruses as Expression Vectors	357
Further Reading	365

Appendix A

References for Figures	367
------------------------	-----

Appendix B

References for Tables	373
-----------------------	-----

Index	375
