Abstract	4
Fear and Anger Specificity in Somatovisceral Responses	5
1.1. Empirical Status of Somatovisceral Fear and Anger Specificity	6
1.2. Models of Emotion Specificity	10
1.3. Overview of the Present Study	11
2. Method	11
2.1 Participants	11
2.2. Experimental Design	12
2.3 Setting and Apparatus	12
2.4. Procedure	13
2.5. Variables	17
2.6. Data Analysis	21
3. Results	23
3.1. Context specificity	23
3.2. Emotion specificity of emotion self-report	24
3.3 Emotion specificity of physiological variables	28
4. Discussion	41
4.1. Do Contexts Have Diverging Somatovisceral Profiles?	41
4.2. Do Emotions Have Specific Somatovisceral Profiles, if Context Effects Are Controlled For?	41
4.3. Are Somatovisceral Responses during Emotions merely Intensity Variations of a Unitary Activation Process?	47
4.4. The Functional Meaning of Fear and Anger Signatures	48
5. References	49
