Foreword: John A. Spittell .....	xv
Preface .....	xvii
Acknowledgement .....	xix

## **Part I Anatomy, Etiology, Signs, and Symptoms of Peripheral Vascular Disease**

<b>1</b> Anatomy, Physiology, and Response to Vascular Injury .....	1
<i>Anthony C. DeFranco, Hongbao Ma, SriCharan C. Kantipudi, and George S. Abela</i>	
<b>2</b> Atherosclerotic Vascular Disease as a Systemic Process .....	23
<i>George S. Abela, Alok Maheshwari, and SriCharan C. Kantipudi</i>	
<b>3</b> Peripheral Vascular Assessment: History Taking and Physical Examination of the Arterial and Venous Systems .....	37
<i>Gary J. Arnold</i>	
<b>4</b> Intermittent Claudication .....	53
<i>Raghu R. Middle and Stanley G. Rockson</i>	

## **Part II Risk Factors for Peripheral Vascular Disease**

<b>5</b> Peripheral Arterial Disease in Patients with Diabetes .....	62
<i>Peter Sheehan</i>	
<b>6</b> Insulin Resistance and the Metabolic Syndrome .....	76
<i>Charles A. Reasner, II</i>	
<b>7</b> Uncommon Types of Occlusive Arterial Disease .....	93
<i>Peter C. Spittell</i>	
<b>8</b> Hypertension: Evaluation, Therapy, and Review of Landmark Trials .....	105
<i>Mohanram Narayanan, Ralph E. Watson, and Donald J. DiPette</i>	
<b>9</b> Obesity: An Epidemic .....	123
<i>Ved V. Gossain</i>	
<b>10</b> Peripheral Neuropathy: Cardiovascular Implications .....	139
<i>Martin J. Stevens</i>	
<b>11</b> Erectile Dysfunction as an Indicator of Vascular Disease .....	155
<i>Dana A. Ohl and Susanne A. Quallich</i>	

### Part III Medical Treatment of Peripheral Vascular Disease

- 12** The Management of Hyperlipidemia and Exercise Therapy in the Treatment of Peripheral Arterial Disease ..... 168  
*James J. Maciejko*
- 13** Peripheral Arterial Disease: Risk Factor Identification and Modification ..... 190  
*Douglas S. Jacoby and Emile R. Mohler, III*
- 14** Anticoagulant and Antiplatelet Therapy in Peripheral Vascular Disease ..... 200  
*James J. Ferguson, III*

### Part IV Diagnosis and Intervention in Peripheral Vascular Disease

- 15** Noninvasive Diagnosis of Peripheral Vascular Disease ..... 215  
*Keith A. Mauney*
- 16** Optimal Endovascular Therapy for Lower Extremity Revascularization ..... 230  
*Christopher J. White*
- 17** Imaging of Peripheral Arterial Disease ..... 237  
*George Gordon Hartnell and Julia Gates*
- 18** Physiology of Renal Artery Disease ..... 256  
*Michael G. Dickinson, Cheryl L. Laffer, and Fernando Eljovich*
- 19** Renal Artery Stenosis: Diagnosis and Management ..... 270  
*Michael G. Dickinson, Uma Krishnan, Greg Houlihan, and Craig M. Walker*
- 20** Atherosclerotic Subclavian Artery Disease and Revascularization ..... 283  
*Andrew C. Eisenhauer and James A. Shaw*
- 21** Cerebral Vascular Disease ..... 295  
*Patricia A. Gum, Alex Abou-Chebl, and Jay S. Yadav*
- 22** Intracranial Interventions ..... 305  
*Thomas C. Piemonte, Timothy Alikakos, and Ayman Iskander*
- 23** Iliofemoral Disease ..... 314  
*James D. Joye and Mehran Moussavian*
- 24** Transradial Approach for Catheterization: Technique and Limitations by Unusual Anatomy ..... 327  
*Gérald R. Barbeau*
- 25** Complications of Interventional Treatment of Peripheral Vascular Disease ..... 336  
*James D. Joye and Mahmoud Eslami-Farsani*
- 26** Renal Injury Following Contrast Agents ..... 346  
*Peter A. McCullough*

### Part V Surgical Treatment in Peripheral Vascular Disease

- 27** Pre- and Postoperative Management of Cardiovascular Diseases and Risks in Patients with Peripheral Vascular Disease ..... 353  
*Debabrata Mukherjee and Kim A. Eagle*
- 28** Surgery for Peripheral Vascular Disease ..... 365  
*Glenn M. LaMuraglia and Giuseppe R. Nigri*

<b>29</b>	Stent Grafts for Abdominal Aortic Aneurysm .....	374
	<i>Zvonimir Krajcer</i>	
<b>30</b>	Surgical Treatment in Peripheral Vascular Disease and Foot Care Management .....	386
	<i>Zeeshan S. Husain, Charles G. Kissel, and Michael S. Schey</i>	
<b>Part VI Systemic Manifestations of Peripheral Vascular Disease</b>		
<b>31</b>	Vascular Concepts in Wound Healing .....	403
	<i>William J. Ennis and Patricio Meneses</i>	
<b>32</b>	Management of Patients with Lower Extremity Ulcers .....	415
	<i>Catherine R. Ratliff</i>	
<b>Part VII Novel Developments in the Treatment of Peripheral Vascular Disease</b>		
<b>33</b>	Excimer Laser Revascularization for Peripheral Arterial Disease: Technology, Interventional Techniques, and Clinical Outcomes .....	426
	<i>John R. Laird</i>	
<b>34</b>	Stent Selection for Iliac and Superficial Femoral Artery Interventions .....	433
	<i>Elie Hage-Korban and Malcolm T. Foster, III</i>	
<b>Part VIII Training Cardiovascular Fellows, Medicine Residents, and Housestaff</b>		
<b>35</b>	Technical Requirements for Cardiovascular Training in Peripheral Vascular Disease ..	442
	<i>Elie Hage-Korban, Joel M. Cohn, and George S. Abela</i>	
<b>36</b>	Training and Credentialing for Interventional Therapy for Peripheral Vascular Disease	448
	<i>Christopher J. White</i>	
<b>Part IX Venous Disease</b>		
<b>37</b>	Deep Vein Thrombosis: Risks and Management .....	452
	<i>Alok Maheshwari, Avanti Mehrotra, Richard Henry, George S. Abela, and Alejandro R. Prieto</i>	
<b>38</b>	Pulmonary Embolism: Diagnosis and Treatment .....	461
	<i>Alejandro R. Prieto and John Penner</i>	
<b>39</b>	Recognizing, Understanding, and Treating Chronic Venous Insufficiency .....	471
	<i>Patricia Thorpe</i>	
<b>40</b>	Pulmonary Arterial Hypertension .....	482
	<i>Vallerie V. McLaughlin</i>	
<b>Part X Impact of Peripheral Vascular Disease</b>		
<b>41</b>	The Economic Impact of Peripheral Vascular Disease .....	492
	<i>Terry L. Woodward</i>	
<b>42</b>	Billing and Coding for Peripheral Vascular Disease .....	497
	<i>Mary A. Metler, Linda K. East, Terence Whiteman, and Patricia M. Dear</i>	
<b>Appendix</b>	Nutrition and Exercise Guidelines .....	503
	<i>Mary Noel</i>	
Index .....		515
