

▼ section I

The Epidemiologic Approach to Disease and Intervention 1

chapter 1
Introduction 3

chapter 2
The Dynamics of Disease Transmission 15

chapter 3
Measuring the Occurrence of Disease:
I. Morbidity 32

chapter 4
Measuring the Occurrence of Disease:
II. Mortality 48

chapter 5
Assessing the Validity and Reliability of
Diagnostic and Screening Tests 71

chapter 6
The Natural History of Disease: Ways of
Expressing Prognosis 95

chapter 7
Assessing the Efficacy of Preventive
and Therapeutic Measures:
Randomized Trials 115

chapter 8
Randomized Trials: Some Further Issues 130

▼ section II

Using Epidemiology to Identify the Cause of Disease 147

chapter 9
Cohort Studies 149

chapter 10
Case-Control and Cross-Sectional Studies 159

chapter 11
Estimating Risk: Is There an
Association? 177
