THE POST-POLIO SYNDROME: ADVANCES IN THE PATHOGENESIS AND TREATMENT^a

Editors and Conference Organizers

MARINOS C. DALAKAS, HARRY BARTFELD, AND LEONARD T. KURLAND

CONTENTS

Opening Remarks: On Post-Polio Syndrome and In Honor of Dr. Albert B. Sabin. <i>By</i> MARINOS C. DALAKAS	xi
Opening Remarks. <i>By</i> HARRY BARTFELD	xv
Opening Remarks. <i>By</i> LEONARD T. KURLAND	xvi
Part I. Historical Perspectives on Acute Poliomyelitis and the Post-Polio Syndrome	
Clinical Observations on Acute Poliomyelitis. <i>By</i> DONALD W. MULDER . .	1
Post-Polio Syndrome 12 Years Later. How It All Started. <i>By</i> M. C. DALAKAS	11
Part II. Pathogenesis of Acute Poliomyelitis	
The Human Poliovirus Receptor. Receptor-Virus Interaction and Parameters of Disease Specificity. <i>By</i> M. GROMEIER, H.-H. LU, G. BERNHARDT, J. J. HARBER, J. A. BIBB, and E. WIMMER	19
Role of Poliovirus Receptors in the Spread of the Infection. <i>By</i> MARION S. FREISTADT, DAVID A. STOLTZ, and KAREN E. EBERLE . .	37
Expression of Poliovirus Receptor in Human Spinal Cord and Muscle. <i>By</i> MARTA E. LEON-MONZON, ISABEL ILLA, and MARINOS C. DALAKAS	48
Role of the Muscle in Acute Poliomyelitis Infection. <i>By</i> ISABEL ILLA, MARTA LEON-MONZON, M. AGBOATWALLA, A. DURE-SAMIN, and MARINOS C. DALAKAS	58

^a This volume contains papers presented at a conference entitled *The Post-Polio Syndrome: Advances in the Pathogenesis and Treatment*, which was sponsored by the New York Academy of Sciences and held in Bethesda, Maryland on April 27–30, 1994.

Part III. Clinical Aspects of the Post-Polio Syndrome

The Post-Polio Syndrome As an Evolved Clinical Entity. Definition and Clinical Description. <i>By</i> MARINOS C. DALAKAS	68
Prospective Cohort Study of Polio Survivors in Olmsted County, Minnesota. <i>By</i> ANTHONY J. WINDEBANK, WILLIAM J. LITCHY, and JASPER R. DAUBE	81
Progression of Oral-Motor and Swallowing Symptoms in the Post-Polio Syndrome. <i>By</i> BARBARA C. SONIES and MARINOS C. DALAKAS	87
Management of Post-Polio Respiratory Sequelae. <i>By</i> JOHN R. BACH	96
Neuropsychology of Post-Polio Syndrome. <i>By</i> JORDAN GRAFMAN, KIM CLARK, DAVID RICHARDSON, STEVE DINSMORE, DANIEL STEIN, and MARINOS C. DALAKAS	103

Part IV. Electrophysiology

Electrophysiology of Acute Polio Revisited. Utilizing Newer EMG Techniques in Vaccine-Associated Disease. <i>By</i> DAVID WIECHERS . . .	111
Electrophysiologic Changes in Neuromuscular Function Over Five Years in Polio Survivors. <i>By</i> JASPER R. DAUBE, ANTHONY J. WINDEBANK, and WILLIAM J. LITCHY.	120
Function and Ultrastructure of the Neuromuscular Junction in Post-Polio Syndrome. <i>By</i> RICARDO A. MASELLI, ROBERT WOLLMANN, and RAYMOND ROOS	129
Correlation of Electrophysiology with Pathology, Pathogenesis, and Anticholinesterase Therapy in Post-Polio Syndrome. <i>By</i> NEIL R. CASHMAN AND DARIA A. TROJAN	138
Post-Polio Muscular Atrophy. An Electrophysiological Study of Motor Unit Architecture. <i>By</i> DALE J. LANGE	151
Rat Model of the Reinnervated Motor Unit. Relevance to the Post-Polio Syndrome. <i>By</i> BRUCE R. PACHTER and ARTHUR EBERSTEIN	158

Part V. Pathogenesis: Pathology

Pathogenetic Mechanisms of Post-Polio Syndrome: Morphological, Electrophysiological, Virological, and Immunological Correlations. <i>By</i> MARINOS C. DALAKAS	167
Post-Polio Syndrome Spinal Cord Pathology. Case Report with Immunopathology. <i>By</i> DOUGLAS C. MILLER	186
Cellular Localization of Poliovirus RNA in the Spinal Cord during Acute Paralytic Poliomyelitis. <i>By</i> S. H. ISAACSON, K. SIVAKUMAR, D. M. ASHER, K. L. POMEROY, M. RAMOS-ALVAREZ, C. J. GIBBS, JR., D. C. GAJDUSEK, and M. C. DALAKAS	194

Part VI. Pathogenesis: Virology

- Antibody Titer to the Poliovirus in Blood and Cerebrospinal Fluid of Patients with Post-Polio Syndrome. *By* BURK JUBELT, EDGAR F. SALAZAR-GRUESO, RAYMOND P. ROOS, and NEIL R. CASHMAN 201
- Detection of Poliovirus Antibodies and Poliovirus Genome in Patients with the Post-Polio Syndrome. *By* MARTA E. LEON-MONZON and MARINOS C. DALAKAS 208
- Evidence for Persistent Enterovirus Infection of the Central Nervous System in Patients with Previous Paralytic Poliomyelitis. *By* P. MUIR, F. NICHOLSON, M. K. SHARIEF, E. J. THOMPSON, N. J. CAIRNS, P. LANTOS, G. T. SPENCER, H. J. KAMINSKI, and J. E. BANATVALA 219
- Search for Poliovirus in Specimens from Patients with the Post-Polio Syndrome. *By* I. LEPARC, H. KOPECKA, F. FUCHS, I. JANATOVA, M. AYMARD, and J. JULIEN 233
- Relevance of the Post-Polio Syndrome to Other Motor Neuron Diseases: Relevance to Viral (Enteroviral) Infections. *By* HARRY BARTFELD, HYMAN DONNENFELD, and RICHARD KASCSAK 237

Part VII. Pathogenesis: Other Factors

- Amyotrophic Lateral Sclerosis and Polio: Is There an Association? *By* HITOSHI OKUMURA, LEONARD T. KURLAND, and STEPHEN C. WARING 245
- Pathophysiology of a Central Cause of Post-Polio Fatigue. *By* RICHARD L. BRUNO, ROBERT SAPOLSKY, JERALD R. ZIMMERMAN, and NANCY M. FRICK 257
- Studies of Growth Hormone/Insulin-like Growth Factor-I in Polio Survivors. *By* KAUP R. SHETTY, UMA P. RAO, KRISHAN L. GUPTA, and DANIEL RUDMAN 276

Part VIII. Drug Trials

- Anticholinesterases in Post-Poliomyelitis Syndrome. *By* DARIA A. TROJAN and NEIL R. CASHMAN 285
- A Double-Blind, Placebo-Controlled Trial of Amantadine for the Treatment of Fatigue in Patients with the Post-Polio Syndrome. *By* DANIEL P. STEIN, JAMES M. DAMBROSIA, and MARINOS C. DALAKAS 296
- A Double-Blind, Placebo-Controlled Trial of High-Dose Prednisone for the Treatment of Post-Poliomyelitis Syndrome. *By* STEVEN DINSMORE, JAMES DAMBROSIA, and MARINOS C. DALAKAS 303
- How To Design a Therapeutic Study in Patients with the Post-Polio Syndrome. Methodological Concerns and Status of Present Therapies. *By* MARINOS C. DALAKAS 314

Part IX. Exercise and Rehabilitation

- The Role of Exercise in the Patient with Post-Polio Syndrome.
By JAMES C. AGRE 321
- Motoneuron and Muscle Fiber Properties of Remaining Motor Units in Weak Tibialis Anterior Muscles in Prior Polio. By J. BORG, K. BORG, L. EDSTRÖM, L. GRIMBY, J. HENRIKSSON, L. LARSSON, and A. TOLLBÄCK 335
- National Rehabilitation Hospital Limb Classification for Exercise, Research, and Clinical Trials in Post-Polio Patients. By LAURO S. HALSTEAD, ANNE CARRINGTON GAWNE, and BAO T. PHAM. 343
- Managing the Late Effects of Polio from a Life-Course Perspective. By FREDERICK M. MAYNARD 354

Part X. Summary and Overview

- Pathogenesis of Poliovirus Infections. By RICHARD T. JOHNSON 361
- Concluding Remarks and Future Strategies. By MARINOS C. DALAKAS, HARRY BARTFELD, and LEONARD T. KURLAND. 366

Poster Papers

- Persistent Poliovirus Infection: Development of New Models with Cell Lines. By V. CALVEZ, I. PELLETIER, N. GUEDO, S. BORZAKIAN, T. COUDERC, B. BLONDEL, and F. COLBERE-GARAPIN 370
- Antiganglioside Antibodies in Patients with Acute Polio and Post-Polio Syndrome. By ISABEL ILLA, MARTA LEON-MONZON, MUBINA AGBOATWALLA, AMJAD ILYAS, NORMAN LATOV, and MARINOS C. DALAKAS. 374
- Post-Polio Syndrome in Twins and Their Siblings. Evidence That Post-Polio Syndrome Can Develop in Patients with Nonparalytic Polio. By LINDA NEE, JAMES DAMBROSIA, ELAINE BERN, ROSWELL ELDRIDGE, and MARINOS C. DALAKAS 378
- Immunohistochemical Study on Synaptophysin in the Spinal Cord of Chronic Anterior Poliomyelitis. By AKITO IKEMOTO and ASAO HIRANO 381
- Electrodiagnostic Findings in 108 Consecutive Patients Referred to a Post-Polio Clinic. The Value of Routine Electrodiagnostic Studies. By ANNE C. GAWNE, BAO T. PHAM, and LAURO S. HALSTEAD 383
- Effect of Human Growth Hormone on Muscle Function in Post-Polio Syndrome. By K. R. SHETTY, K. L. GUPTA, J. C. AGRE, I. W. RUDMAN, and D. RUDMAN 386
- Pathological Analysis of Spinal Cords from Survivors of Poliomyelitis. By HENRY J. KAMINSKI, NANCY TRESSER, ROBERT E. HOGAN, and ERIC MARTIN 390

Reinnervation in Clinically Unaffected Muscles of Patients with Prior Paralytic Poliomyelitis. Correlation between Macroelectromyography and Histology. <i>By</i> CARLOS A. LUCIANO, KUMARASWAMY SIVAKUMAR, SIDNEY A. SPECTOR, and MARINOS C. DALAKAS	394
Study of Fatigue in Muscles of Patients with Post-Polio Syndrome by <i>in Vivo</i> [³¹ P]Magnetic Resonance Spectroscopy. A Metabolic Cause for Fatigue. <i>By</i> KUMARASWAMY SIVAKUMAR, TERESA SINNWELL, EMEL YILDIZ, ALAN McLAUGHLIN, and MARINOS C. DALAKAS	397
Effect of Strength Training in Patients with Post-Polio Syndrome. A Preliminary Report. <i>By</i> SIDNEY A. SPECTOR, PATRICIA L. GORDON, EMEL YILDIZ, KUMARASWAMY SIVAKUMAR, BEN F. HURLEY, and MARINOS C. DALAKAS	402
Dysphagia in Individuals with No History of Bulbar Polio. <i>By</i> MARK DOWHANIUK and CATHERINE T. SCHENTAG	405
Strength, Voluntary Drive, and Endurance during Isometric Contractions in Prior Polio Subjects. <i>By</i> S. C. GANDEVIA, G. M. ALLEN, I. R. NEERING, J. MIDDLETON, and R. JONES	408
Index of Contributors	411
