

PART I An Overview

- Chapter 1** An Introduction to Information Systems 2
Chapter 2 Information Systems in Organizations 42
World Views Case: On-Line Presence Gives Mortgage Broker Global Reach 80

PART II Information Technology Concepts 83

- Chapter 3** Hardware: Input, Processing, and Output Devices 84
Chapter 4 Software: Systems and Application Software 130
Chapter 5 Organizing Data and Information 178
Chapter 6 Telecommunications and Networks 224
Chapter 7 The Internet, Intranets, and Extranets 272
World Views Case: From Railway Station to Whaleway Station 315

PART III Business Information Systems 317

- Chapter 8** Electronic Commerce 318
Chapter 9 Transaction Processing and Enterprise Resource Planning Systems 362
Chapter 10 Information and Decision Support Systems 410
Chapter 11 Specialized Business Information Systems: Artificial Intelligence, Expert Systems, Virtual Reality, and Other Specialized Systems 460
World Views Cases: A Happy Valentine's Day in Virtual China 498
Staff Rostering at the Hospital Authority of Hong Kong 500

PART IV Systems Development 503

- Chapter 12** Systems Investigation and Analysis 504
Chapter 13 Systems Design, Implementation, Maintenance, and Review 556
World Views Case: Event-driven Review of the University of Nairobi's Student Management Information System 609
Song Book Music 610

PART V Information Systems in Business and Society 613

- Chapter 14** Security, Privacy, and Ethical Issues in Information Systems and the Internet 614
Glossary 659
Subject Index 673
Name and Company Index 691

Preface v
 Brief Contents xv

PART 1 An Overview 1

1 An Introduction to Information Systems 2

Merck-Medco: A Pharmacy for the Future 3

Information Concepts 5
Data Versus Information 5
The Characteristics of Valuable Information 6
The Value of Information 8

System and Modeling Concepts 8
System Components and Concepts 9
System Performance and Standards 10
System Variables and Parameters 11
Modeling a System 11

What is an Information System? 13
Input, Processing, Output, Feedback 14
Manual and Computerized Information Systems 15
Computer-Based Information Systems 16

Business Information Systems 18
Electronic Commerce 19

Ethical and Societal Issues: DoubleClick Tempers Marketing with Customer Privacy 20
Transaction Processing Systems, Workflow Systems, and ERP 21
Management Information and Decision Support Systems 23

IS Principles in Action: Home Depot Invests Big in Information Systems 26
Special-Purpose Business Information Systems: Artificial Intelligence, Expert Systems, and Virtual Reality 26

Systems Development 28
Systems Investigation and Analysis 28
Systems Design, Implementation, and Maintenance and Review 29

Why Learn About Information Systems? 29
Computer and Information Systems Literacy 30
Information Systems in the Functional Areas of Business 30
Information Systems in Industry 31

Case 1 States Vie for #1 Technology Rating 37

Case 2 Technology in Abundance at the 2002 Winter Olympics 38

Case 3 Expert Systems Simplify Life for Automotive Manufacturers 39

2	Information Systems in Organizations 42
	Citibank: Seeking Competitive Advantage with a Major Information System Upgrade 43
	Organizations and Information Systems 44
	<i>Organizational Structure</i> 47
	<i>Organizational Culture and Change</i> 50
	<i>Reengineering</i> 51
	<i>Continuous Improvement</i> 53
	<i>Technology Diffusion, Infusion, and Acceptance</i> 54
	<i>Total Quality Management</i> 54
	<i>Outsourcing and Downsizing</i> 55
	IS Principles in Action: Ford Resorts to Downsizing and <i>In-sourcing</i> 56
	Competitive Advantage 57
	<i>Factors That Lead Firms to Seek Competitive Advantage</i> 57
	<i>Strategic Planning for Competitive Advantage</i> 58
	Performance-Based Information Systems 61
	<i>Productivity</i> 62
	<i>Return on Investment and the Value of Information Systems</i> 62
	<i>Justifying Information Systems</i> 64
	Careers in Information Systems 64
	<i>Roles, Functions, and Careers in the Information Systems Department</i> 65
	Ethical and Societal Issues: Xylo, Inc., Creates Work/Life Solutions 66
	<i>Typical IS Titles and Functions</i> 69
	<i>Other IS Careers</i> 71
	Case 1 GE Medical Systems Builds Nation's First All-Digital Hospital 76
	Case 2 Delta and Tellabs Seek Higher Return on Investment 77
	Case 3 Pressplay: Defining the Internet Music Industry 77
	Part 1 World Views Case On-Line Presence Gives Mortgage Broker Global Reach 80

PART 2 Information Technology Concepts 83

3	Hardware: Input, Processing, and Output Devices 84
	Celera Genomics: Supercomputers Are Key to Future Profitability 85
	Computer Systems: Integrating the Power of Technology 86
	<i>Hardware Components</i> 87
	<i>Hardware Components in Action</i> 88
	Processing and Memory Devices: Power, Speed, and Capacity 89
	<i>Processing Characteristics and Functions</i> 89
	<i>Memory Characteristics and Functions</i> 93
	<i>Multiprocessing</i> 96
	Secondary Storage 97
	<i>Access Methods</i> 97
	<i>Devices</i> 98
	IS Principles in Action: Las Vegas Casinos Cover Their Bets with Highly Reliable Computers 101
	Input and Output Devices: The Gateway to Computer Systems 104
	<i>Characteristics and Functionality</i> 104
	<i>Input Devices</i> 105
	<i>Output Devices</i> 109
	<i>Special-Purpose Input and Output Devices</i> 111

Computer System Types, Standards, Selecting, and Upgrading	112
<i>Computer System Types</i>	112
Ethical and Societal Issues: European Weather Forecasters Rely on Blue Storm	118
<i>Standards</i>	119
<i>Selecting and Upgrading Computer Systems</i>	119
Case 1 Australia Experiments with Electronic Voting	127
Case 2 Information Systems Support Future Soldiers	128
Case 3 Saving Data Center Space with Smaller Servers	128

4

Software: Systems and Application Software 130

Flextronics: Global Deployment of Software Improves Key Business Process	131
An Overview of Software	132
<i>Systems Software</i>	132
<i>Application Software</i>	132
<i>Supporting Individual, Group, and Organizational Goals</i>	133
Systems Software	134
<i>Operating Systems</i>	134
<i>Personal Computer Operating Systems</i>	138
<i>Workgroup Operating Systems</i>	141
<i>Enterprise Operating Systems</i>	142
<i>Consumer Appliance Operating Systems</i>	144
<i>Utility Programs</i>	145
Application Software	146
<i>Types and Functions of Application Software</i>	147
<i>Personal Application Software</i>	149
<i>Workgroup Application Software</i>	155
IS Principles in Action: Honda Uses Collaboration Software to Speed Product Development	156
<i>Enterprise Application Software</i>	157
Programming Languages	159
<i>The Evolution of Programming Languages</i>	159
<i>Object-Oriented Programming Languages</i>	161
<i>Selecting a Programming Language</i>	163
Software Issues and Trends	163
<i>Software Bugs</i>	163
<i>Open Source Software</i>	165
<i>Opensourcing</i>	165
<i>Antitrust Issues for Software</i>	165
<i>Software Licensing</i>	166
<i>Software Upgrades</i>	167
<i>Global Software Support</i>	167
Ethical and Societal Issues: Oracle Tries to Recover from Pricing Miscue	168
Case 1 Infosys Uses Offshore Outsourcing Model to Provide Contract Software	174
Case 2 Crystal Flash Opts for Application Service Provider	175
Case 3 Microsoft Takes Action to Eliminate Software Bugs	175

5	Organizing Data and Information 178
	Valio: Building Brand Loyalty with Better Decision-Making Data 179
	Data Management 180
	<i>The Hierarchy of Data 180</i>
	<i>Data Entities, Attributes, and Keys 181</i>
	<i>The Traditional Approach Versus the Database Approach 182</i>
	Data Modeling and Database Models 186
	<i>Data Modeling 186</i>
	<i>Database Models 187</i>
	Database Management Systems (DBMSs) 192
	<i>Providing a User View 193</i>
	<i>Creating and Modifying the Database 193</i>
	<i>Storing and Retrieving Data 195</i>
	<i>Manipulating Data and Generating Reports 197</i>
	<i>Database Administrator 198</i>
	<i>Popular Database Management Systems 199</i>
	<i>Selecting a Database Management System 199</i>
	Database Applications 202
	<i>Linking the Company Database to the Internet 202</i>
	<i>Data Warehouses, Data Marts, and Data Mining 203</i>
	<i>Business Intelligence 206</i>
	Ethical and Societal Issues: Database Technology Used to Improve Airport Security 208
	<i>Distributed Databases 209</i>
	<i>On-Line Analytical Processing (OLAP) 210</i>
	IS Principles in Action: Sears Competes Using Data Warehouse and OLAP Tools 212
	<i>Open Database Connectivity (ODBC) 212</i>
	<i>Object-Relational Database Management Systems 213</i>
	Case 1 VNU, International Media and Information Company 221
	Case 2 Wells Fargo Bank Uses Predictive Analysis to Improve Profits 221
	Case 3 J. Crew Turns to Data Warehousing to Increase On-line Sales 222

6	Telecommunications and Networks 224
	DHL: Implementing a Global Network 225
	An Overview of Communications Systems 226
	<i>Communications 226</i>
	<i>Telecommunications 227</i>
	<i>Networks 228</i>
	Telecommunications 229
	<i>Basic Communications Channel Characteristics 229</i>
	<i>Channel Bandwidth and Information-Carrying Capacity 229</i>
	<i>Types of Media 229</i>
	IS Principles in Action: Penske Uses Satellite Communications to Meet Customer Needs 233
	<i>Connectors 235</i>
	<i>Devices 235</i>
	<i>Carriers and Services 236</i>
	Ethical and Societal Issues: Telemarketers—Please Do Not Call! 240
	Networks and Distributed Processing 242
	<i>Basic Processing Strategies 242</i>
	<i>Network Concepts and Considerations 243</i>

<i>Network Types</i>	245
<i>Terminal-to-Host, File Server, and Client/Server Systems</i>	247
<i>Communications Software and Protocols</i>	250
<i>Bridges, Routers, Gateways, and Switches</i>	255
Telecommunications and Applications	257
<i>Linking Personal Computers to Mainframes and Networks</i>	257
<i>Voice Mail</i>	257
<i>Electronic Software and Document Distribution</i>	257
<i>Telecommuting</i>	258
<i>Videoconferencing</i>	258
<i>Electronic Data Interchange</i>	259
<i>Public Network Services</i>	260
<i>Distance Learning</i>	260
<i>Specialized Systems and Services</i>	261
Case 1 Starbucks Deploys Wireless LANs	268
Case 2 Bear, Stearns & Co. Builds Redundant Telecommunications Network	269
Case 3 Networks Support Collaborative Product Design	269

7	The Internet, Intranets, and Extranets	272
	<i>Lands' End: Attracting Customers with High-Tech Internet Services</i>	273
	Use and Functioning of the Internet	275
	<i>How the Internet Works</i>	277
	<i>Accessing the Internet</i>	278
	<i>Internet Service Providers</i>	279
	Ethical and Societal Issues: The Digital Divide	280
	Internet services	282
	<i>E-Mail and Instant Messaging</i>	282
	<i>Telnet and FTP</i>	284
	<i>Usenet and Newsgroups</i>	284
	<i>Chat Rooms</i>	286
	<i>Internet Phone and Videoconferencing Services</i>	286
	<i>Content Streaming</i>	287
	<i>Shopping on the Web</i>	287
	<i>Web Auctions</i>	288
	<i>Music, Radio, and Video on the Internet</i>	288
	<i>Office on the Web</i>	289
	<i>Internet Sites in Three Dimensions</i>	289
	<i>Free Software and Services</i>	290
	<i>Other Internet Services</i>	290
	The World Wide Web	291
	<i>Web Browsers</i>	293
	<i>Search Engines</i>	294
	<i>Java</i>	295
	<i>Push Technology</i>	297
	<i>Business Uses of the Web</i>	297
	<i>Developing Web Content</i>	298
	Intranets and Extranets	299
	IS Principles in Action: Web Services Take the Web to a New level	300
	Net Issues	302
	<i>Management Issues</i>	302
	<i>Service and Speed Issues</i>	302
	<i>Privacy, Fraud, Security, and Unauthorized Internet Sites</i>	303

Case 1	Google Uses New Approach to Web Advertising	311
Case 2	The Web in Three Dimensions	312
Case 3	Hummingbird Provides Leading Enterprise Information Portal (EIP) Solutions	313
Part 2	World Views Case From Railway Station to Whaleway Station	315

PART 3 Business Information Systems 317

8

Electronic Commerce 318

Tesco: Grocer Implements Successful E-Commerce Business Model 319

An Introduction to Electronic Commerce 320

Multistage Model for E-Commerce 321

Ethical and Societal Issues: **PayPal Service Runs into Start-Up Problems** 324

E-Commerce Challenges 325

The E-Commerce Supply Chain 326

Business to Business (B2B) 328

Business to Consumer (B2C) 328

Consumer to Consumer (C2C) 329

Global E-Commerce 329

E-Commerce Applications 330

Retail and Wholesale 330

Manufacturing 331

Marketing 333

Investment and Finance 334

Auctions 336

Technology Infrastructure 336

Hardware 337

Web Server Software 337

E-Commerce Software 339

E-Commerce Transaction Processing 340

Network and Packet Switching 340

Electronic Payment Systems 341

Secure Sockets Layer 341

Electronic Cash 342

Electronic Wallets 342

Smart, Credit, Charge, and Debit Cards 343

Threats to E-Commerce 344

E-commerce Incidents 344

Theft of Intellectual Property 344

IS Principles in Action: **Visa Implements Smart Card Technology** 345

Fraud 346

Invasion of Consumer Privacy 347

Strategies for Successful E-Commerce 349

Developing an Effective Web Presence 349

Putting Up a Web Site 350

Building Traffic to Your Web Site 351

Maintaining and Improving Your Web Site 351

Case 1 DaimlerChrysler Joins Covisint Exchange 358

Case 2 Lowe's Fights Tooth and Nail to Be No. 1 358

Case 3 Port of Seattle Turns to E-Commerce 359

9	Transaction Processing and Enterprise Resource Planning Systems 362
	Wal-Mart and Kmart: Transaction Processing Systems Distinguish Major Retailers 363
	An Overview of Transaction Processing Systems 364
	<i>Traditional Transaction Processing Methods and Objectives 365</i>
	IS Principles in Action: Financial Industry Considers Move to Trade Plus One Day (T+1) 368
	<i>Transaction Processing Activities 371</i>
	<i>Control and Management Issues 374</i>
	Traditional Transaction Processing Applications 376
	<i>Order Processing Systems 376</i>
	<i>Purchasing Systems 384</i>
	<i>Accounting Systems 388</i>
	<i>International Issues 392</i>
	Enterprise Resource Planning 395
	<i>An Overview of Enterprise Resource Planning 395</i>
	<i>Advantages and Disadvantages of ERP 396</i>
	Ethical and Societal Issues: Nike Stumbles Implementing ERP 399
	<i>Example of an ERP System 399</i>
	Case 1 MetLife Implements CRM 407
	Case 2 Verizon Restores Telecommunications Service in Wake of 9/11 Disaster 408
	Case 3 Upgrade Required for Sabre Transaction Processing Systems 408

10	Information and Decision Support Systems 410
	Shearman & Sterling: Using Information Systems to Harness the Knowledge of the Firm 411
	Decision Making and Problem Solving 412
	<i>Decision Making as a Component of Problem Solving 412</i>
	<i>Programmed Versus Nonprogrammed Decisions 413</i>
	<i>Optimization, Satisficing, and Heuristic Approaches 414</i>
	An Overview of Management Information Systems 415
	<i>Management Information Systems in Perspective 415</i>
	<i>Inputs to a Management Information System 415</i>
	<i>Outputs of a Management Information System 416</i>
	<i>Characteristics of a Management Information System 419</i>
	Ethical and Societal Issues: The Energy-Conscious MIS 420
	Functional Aspects of the MIS 421
	<i>Financial Management Information Systems 421</i>
	<i>Manufacturing Management Information Systems 424</i>
	<i>Marketing Management Information Systems 429</i>
	<i>Human Resource Management Information Systems 432</i>
	<i>Other Management Information Systems 435</i>
	An Overview of Decision Support Systems 436
	IS Principles in Action: Geographic Information System Saves Trees 437
	<i>Characteristics of a Decision Support System 438</i>
	<i>Capabilities of a Decision Support System 439</i>
	<i>A Comparison of DSS and MIS 440</i>

Components of a Decision Support System	441
<i>The Database</i>	<i>442</i>
<i>The Model Base</i>	<i>443</i>
<i>The Dialogue Manager</i>	<i>443</i>
Group Decision Support Systems	443
<i>Characteristics of a GDSS That Enhance Decision Making</i>	<i>444</i>
<i>GDSS Software</i>	<i>446</i>
<i>GDSS Alternatives</i>	<i>446</i>
Executive Support Systems	448
<i>Executive Support Systems in Perspective</i>	<i>448</i>
<i>Capabilities of Executive Support Systems</i>	<i>449</i>
Case 1 Marketing MIS Gives Entertainment UK the Upper Hand	456
Case 2 CampusShip Provides a Centralized Shipping System for Distributed Organizations	457
Case 3 Storebrand Uses Webservice to Automate Data Entry	458

11

Specialized Business Information Systems: Artificial Intelligence, Expert Systems, Virtual Reality, and Other Specialized Systems 460

Artificial Life, Inc.: Intelligent Bots: The New Citizens of Cyberspace	461
An Overview of Artificial Intelligence	462
<i>Artificial Intelligence in Perspective</i>	<i>462</i>
<i>The Nature of Intelligence</i>	<i>462</i>
<i>The Difference between Natural and Artificial Intelligence</i>	<i>464</i>
<i>The Major Branches of Artificial Intelligence</i>	<i>464</i>
Ethical and Societal Issues Cyc: The System That Is an Expert at Common Sense	466
An overview of Expert Systems	470
<i>Characteristics of an Expert System</i>	<i>470</i>
<i>Capabilities of Expert Systems</i>	<i>472</i>
<i>When to Use Expert Systems</i>	<i>473</i>
<i>Components of Expert Systems</i>	<i>473</i>
<i>Expert Systems Development</i>	<i>477</i>
<i>Applications of Expert Systems and Artificial Intelligence</i>	<i>481</i>
IS Principles in Action: Beating Wall Street with an Intelligent Supercomputer	482
<i>Integrating Expert Systems</i>	<i>484</i>
Virtual Reality	484
<i>Interface Devices</i>	<i>484</i>
<i>Forms of Virtual Reality</i>	<i>485</i>
<i>Useful Applications</i>	<i>486</i>
Other Specialized Systems	488
Case 1 PixAround.com Brings 3-D Worlds to Your Desktop	494
Case 2 Transco Uses Gensym's Expert System to Control Natural Gas Flow	495
Case 3 IBM's eLiza: Computer Systems That Care for Themselves	496
Part 3 World Views Cases A Happy Valentine's Day in Virtual China	498
Staff Rostering System at the Hospital Authority of Hong Kong	500

PART 4 Systems Development 503

12	Systems Investigation and Analysis 504
	Comcast Corporation: The Challenges of Providing Broadband Internet Access 505
	An Overview of Systems Development 506
	<i>Participants in Systems Development</i> 506
	<i>Initiating Systems Development</i> 508
	<i>Information Systems Planning and Aligning Corporate and IS Goals</i> 509
	IS Principles in Action: British Telecommunications Adopts On-Line Account Management and Billing System 511
	<i>Establishing Objectives for Systems Development</i> 513
	<i>Systems Development and E-Commerce</i> 514
	<i>Trends in Systems Development and Enterprise Resource Planning</i> 515
	Systems Development Life Cycles 516
	<i>The Traditional Systems Development Life Cycle</i> 517
	<i>Prototyping</i> 518
	<i>Rapid Application Development, Agile Development, and Joint Application Development</i> 519
	<i>The End-User Systems Development Life Cycle</i> 522
	<i>Outsourcing</i> 522
	Factors Affecting Systems Development Success 524
	<i>Degree of Change</i> 524
	Ethical and Societal Issues: Information Systems Running Amok? 525
	<i>Quality and Standards</i> 526
	<i>The Capability Maturity Model (CMM)</i> 527
	<i>Use of Project Management Tools</i> 528
	<i>Use of Computer-Aided Software Engineering (CASE) Tools</i> 530
	<i>Object-Oriented Systems Development</i> 531
	Systems Investigation 532
	<i>Initiating Systems Investigation</i> 532
	<i>Participants in Systems Investigation</i> 533
	<i>Feasibility Analysis</i> 533
	<i>Object-Oriented Systems Investigation</i> 535
	<i>The Systems Investigation Report</i> 535
	Systems Analysis 536
	<i>General Considerations</i> 536
	<i>Participants in Systems Analysis</i> 537
	<i>Data Collection</i> 537
	<i>Data Analysis</i> 539
	<i>Requirements Analysis</i> 541
	<i>Object-Oriented Systems Analysis</i> 543
	<i>The Systems Analysis Report</i> 544
	Case 1 General Motors Reduces Dealer Costs with Procurement System 552
	Case 2 Staples Provides Convenience with In-Store Kiosks 553
	Case 3 Wesco Distribution Adds Links to the Supply Chain 554

13	<p>Systems Design, Implementation, Maintenance, and Review 556</p> <p>FedEx Corp.: Simplifying International Shipping 557</p> <p>Systems Design 559</p> <p style="padding-left: 20px;"><i>Logical and Physical Design 559</i></p> <p style="padding-left: 20px;"><i>Special System Design Considerations 562</i></p> <p style="padding-left: 20px;"><i>Object-Oriented Design 564</i></p> <p style="padding-left: 20px;"><i>Emergency Alternate Procedures and Disaster Recovery 565</i></p> <p style="padding-left: 20px;"><i>Systems Controls 569</i></p> <p style="padding-left: 20px;"><i>The Importance of Vendor Support 570</i></p> <p style="padding-left: 20px;"><i>Generating Systems Design Alternatives 570</i></p> <p style="padding-left: 20px;"><i>Evaluating and Selecting a System Design 571</i></p> <p style="padding-left: 20px;"><i>Evaluation Techniques 573</i></p> <p style="padding-left: 20px;"><i>Freezing Design Specifications 575</i></p> <p style="padding-left: 20px;"><i>The Contract 576</i></p> <p style="padding-left: 20px;"><i>The Design Report 576</i></p> <p>Systems Implementation 577</p> <p style="padding-left: 20px;"><i>Acquiring Hardware from an Information Systems Vendor 577</i></p> <p style="padding-left: 20px;"><i>Acquiring Software: Make or Buy? 579</i></p> <p style="padding-left: 20px;"><i>Externally Developed Software 579</i></p> <p>Ethical and Societal Issues: Open Source vs. Proprietary Software 580</p> <p style="padding-left: 20px;"><i>In-House-Developed Software 581</i></p> <p style="padding-left: 20px;"><i>Tools and Techniques for Software Development 584</i></p> <p style="padding-left: 20px;"><i>Acquiring Database and Telecommunications Systems 587</i></p> <p style="padding-left: 20px;"><i>User Preparation 587</i></p> <p style="padding-left: 20px;"><i>IS Personnel: Hiring and Training 588</i></p> <p style="padding-left: 20px;"><i>Site Preparation 589</i></p> <p style="padding-left: 20px;"><i>Data Preparation 589</i></p> <p style="padding-left: 20px;"><i>Installation 589</i></p> <p style="padding-left: 20px;"><i>Testing 589</i></p> <p style="padding-left: 20px;"><i>Start-up 590</i></p> <p style="padding-left: 20px;"><i>User Acceptance 591</i></p> <p>Systems Maintenance 592</p> <p style="padding-left: 20px;"><i>Reasons for Maintenance 592</i></p> <p style="padding-left: 20px;"><i>Types of Maintenance 592</i></p> <p>IS Principles in Action: Supply Chain Management Software Delivers— Despite Resistance 593</p> <p style="padding-left: 20px;"><i>The Request for Maintenance Form 593</i></p> <p style="padding-left: 20px;"><i>Performing Maintenance 594</i></p> <p style="padding-left: 20px;"><i>The Financial Implications of Maintenance 594</i></p> <p style="padding-left: 20px;"><i>The Relationship Between Maintenance and Design 595</i></p> <p>Systems Review 596</p> <p style="padding-left: 20px;"><i>Types of Review Procedures 596</i></p> <p style="padding-left: 20px;"><i>Factors to Consider During Systems Review 597</i></p> <p style="padding-left: 20px;"><i>System Performance Measurement 597</i></p> <p>Case 1 Lenox Revamps Web Site for Improved Customer Satisfaction 605</p> <p>Case 2 Corning Display Technologies Sheds New Light on the Systems Development Process 606</p> <p>Case 3 State Street Corp. Speeds Financial Trading with State-of-the-Art Financial Transaction Management System 606</p> <p>Part 4 World Views Cases Event-Driven Review of the University of Nairobi's Student Management Information System 609</p> <p style="padding-left: 20px;"><i>Song Book Music 610</i></p>
