

TABLE OF CONTENTS

| | |
|---|----|
| 1. INTRODUCTION | 1 |
| 2. THE GAME-THEORETIC MODEL AND EQUILIBRIUM SETS | 7 |
| 2.1 The Game Model..... | 7 |
| 2.2 Pure Strategy Equilibria..... | 9 |
| 2.3 One-Step and Iterative Elimination of Weakly Dominated Strategies | 16 |
| 3. EXPERIMENTAL DESIGN AND ORGANISATION OF THE EXPERIMENT .. | 25 |
| 4. EXPERIMENTAL RESULTS | 31 |
| 4.1 General Results..... | 31 |
| 4.1.1 Offer and Acceptance Behaviour of Inexperienced Subjects - Observed Behaviour versus Equilibrium Behaviour | 31 |
| 4.1.2 Analysis of First-Level Experienced and Second-Level Experienced Subjects | 39 |
| 4.2 Behavioural Characteristics and Learning Behaviour | 45 |
| 4.2.1 Frequency of Adjustment and Variation of Settlement Offers and Acceptance Limits..... | 46 |
| 4.2.2 Prominence Level..... | 49 |
| 4.2.3 First-Round Values and Decision Heuristics | 53 |
| 4.2.4 Litigation Behaviour | 60 |
| 4.2.5 Simultaneous Adjustment of Settlement Offers | 65 |
| 4.2.6 Machiavellianism and Tendency of Adjustment..... | 67 |
| 4.2.7 Polarization of Plaintiffs' Acceptance Limits in the Second Play..... | 74 |
| 5. LEARNING THEORIES | 77 |
| 5.1 Alternative Approaches to Learning | 77 |
| 5.2 A Descriptive Theory for the Adjustment Behaviour | 81 |
| 5.3 Deviations from Direction Learning..... | 85 |
| 5.4 Learning Theory of the Polarization Effect | 89 |
| 5.5 Discriminant Analysis of the Polarization Effect | 93 |
| 5.6 Summary of Experimental Findings | 95 |

| | |
|--|------------|
| 6. MONTE-CARLO SIMULATIONS AND TESTING OF LEARNING DIRECTION THEORY AGAINST A SIMPLE ALTERNATIVE THEORY | 99 |
| 6.1 Monte-Carlo Approach to our Models of Learning Direction Theory and the Simple Alternative Theory..... | 99 |
| 6.2 Modeling of Direction Learning and the Experimental Design..... | 101 |
| 6.3 Estimation of the Adjustment Curves of Inexperienced and Experienced Subjects..... | 106 |
| 6.4 Relative Frequencies of Deviations from Direction Learning | 111 |
| 6.5 Increments of Settlement Offers and Acceptance Limits | 114 |
| 6.6 Tests for the Comparison of the Two Alternative Theories..... | 116 |
| | |
| 7. COMPARISON OF THE RESULTS OF DIRECTION LEARNING AND THE SIMPLE ALTERNATIVE THEORY | 121 |
| 7.1 Results of the First Play | 121 |
| 7.1.1 Distributions of Means | 122 |
| 7.1.2 Results of the Scoring Rule | 125 |
| 7.2 Results of the Second Play | 127 |
| 7.2.1 Distributions of Means | 128 |
| 7.2.2 Results of the Scoring Rule | 131 |
| 7.3 Results of the Third Play | 132 |
| 7.3.1 Distributions of Means | 133 |
| 7.3.2 Results of the Scoring Rule | 135 |
| 7.4 Summary of the Simulations and the Comparison of the Two Theories..... | 137 |
| | |
| 8. SUMMARY | 141 |
| | |
| APPENDIX A | 143 |
| | |
| APPENDIX B | 149 |
| | |
| APPENDIX C | 151 |
| | |
| APPENDIX D | 155 |
| | |
| REFERENCES..... | 171 |
