Preface	vii
I Introduction and Summary: Issues in Adjustment and Growth	I
Methodology	1
Summary of Findings	2
Crisis, Adjustment, and Growth	2
How Can Adjustment Policies Foster Growth?	2
The Response of Investment and Saving	3
Structural Reforms and Labor Markets	3
Key Lessons for the Design of IMF-Supported Programs	4
II Overview of Adjustment	5
Long-Term Trends in Growth and Investment	7
Initial Conditions	12
The Response of Growth to Adjustment	15
Responses in the Short Term	15
Responses in the Medium Term	17
III Cross-Country Evidence on Factors Influencing Growth	22
Correlations Between Growth and Policy-Related Variables	22
Evidence on Shifts in Growth Across Adjustment Periods	23
IV Role of Macroeconomic Policies	26
Costs of Delayed Adjustment	26
Abrupt Reduction in Real Domestic Absorption	26
Second-Best Crisis Measures	28
Uncertainty and the Effectiveness of Policies	28
Less Time for Resource-Switching Policies to Take Hold	31
Sustainability and Consistency of Policies	32
Sustainability of Fiscal Policies	32
Consistency of Macroeconomic Policies	33
V Private Investment	38
Factors Affecting the Lagged Response of Private Investment	38
Determinants of Investment and the Role of Public Policies	39
How Can Policies Accelerate the Response of Private Investment?	44

VI	Saving	45
	Evidence of the Links Between Policies and Saving	45
	Evidence for Individual Countries	47
VII	Role of External Financing	49
VIII	Structural Reforms	55
	Reforms and Productivity	55
	Trade Reforms	59
	How Closely Were Best Practices Followed?	59
	Supply Responses	59
	Financial Sector Reforms	63
	How Closely Were Best Practices Followed?	65
IX	Role of Labor Markets	67
	Structure of Labor Markets	67
	The Impact of Adjustment Policies on Real Wages and Relative Prices	67
	The Impact of Adjustment Policies on Employment and Unemployment	70
X	Conclusions and Lessons for Program Design	73
Appendices		
I	Lessons from Earlier Studies	79
II	Results from Cross-Country Growth Regressions	86
III	Medium-Term Fiscal Sustainability and Its Consistency with Low Inflation	94
IV	Econometric Evidence on the Determinants of Private Investment	97
V	Trade and Financial Sector Reform and Labor Market Characteristics	100
References		107
Boxes		
	1. An Overview of Adjustment in the Eight Countries	6
	2. Investment: Program Targets and Outcomes	39
	3. What Does the Literature Say About Lags in Investment?	40
	4. Saving: Program Targets and Outcomes	47
	5. How Could Structural Reforms Have Been More Growth Enhancing?	56
	6. Ghana: Constraints to a Stronger Supply Response	63
	7. Lessons from the East Asian "Miracle"	80
	8. Principal Studies Referred to in Appendix I	81
Tables		
Section		
II	1. Adjustment Periods in the Eight Countries	8
	2. Factors Influencing Growth, 1970–93	11
	3. Economic Structure in 1980	13

	4. Initial Macroeconomic Imbalances and Structural Distortions	13
	5. Response of Private Investment During Adjustment Periods	17
IV	6. Changes in Domestic Absorption and Output Gaps During Particular Contractionary Episodes	27
	7. Key Macroeconomic Indicators and Summary of Exchange Rate Policy	36
V	8. Selected Factors Influencing Private Investment	41
	9. Summary of Main Factors Explaining Major Episodes of Private Investment Performance	42
VII	10. Periods of Sharpest Swings in Net External Financing	52
VIII	11. Severity of Structural Distortions in the 1970s	57
	12. Indicators of Trade Reform	60
	13. Key Characteristics of Trade Reforms and Export Response	62
	14. Indicators of Financial Sector Reforms	64

Appendix

II	15. Correlation Between Growth and Economic Policies, 1970–92	87
	16. Determinants of Per Capita Income Growth, 1960–92	89
	17. Estimates of Per Capita Growth Differentials After Controlling for Long-Run Determinants of Growth and Some Policy Factors	91
IV	18. Summary of Investment Equations	98
V	19. Main Elements of Trade Reforms	101
	20. Main Elements of Financial Sector Reforms	102
	21. Labor Market Characteristics	104

Charts Section

II	1. IMF Arrangements in the Eight Countries	8
	2. Real Per Capita GDP Growth, 1970–94	9
	3. Real Per Capita GDP Growth and Investment Ratios	10
	4. GDP Growth, Investment, and National Saving, 1970–93	12
	5. Indicators of Domestic and External Economic Performance During Preadjustment Period and During 1990–93	14
	6. Size of External Shocks	16
	7. Share of Private and Public Investment in GDP	18
	8. Structural Reforms and Trends in Total Factor Productivity	20
III	9. Estimated Per Capita Growth Differentials	24
IV	10. Fiscal Indicators	29
	11. Nominal and Real Effective Exchange Rates and Inflation in Various Indexation Regimes	30
	12. Changes in Domestic Absorption, Exports, and Imports During Periods of Demand Contraction	31
	13. Difference Between Actual and “Sustainable” Fiscal Primary Balances	32
	14. Real Interest Rates	34
	15. Stock of Private Sector Credit	35
VI	16. National Saving Rates	46
VII	17. Selected Developing Countries: Comparison of Changes in Investment and Net External Financing	50
	18. Total Net External Financing	51

VIII	20. Export Market Shares and Real Effective Exchange Rates	58

IX	21. Wages, Productivity, and Unit Labor Costs	69
	22. Employment, Unemployment, and Output	71
Appendix		
III	23. Actual and Sustainable Primary Fiscal Balances	95
Box		
2	Change in Investment Rates: Program Targets and Outcomes	39
4	Saving: Targets and Outcomes	47

The following symbols have been used throughout this paper:

- ... to indicate that data are not available;
- to indicate that the figure is zero or less than half the final digit shown, or that the item does not exist;
- between years or months (e.g., 1991–92 or January–June) to indicate the years or months covered, including the beginning and ending years or months;
- / between years (e.g., 1991/92) to indicate a crop or fiscal (financial) year.

“Billion” means a thousand million.

Minor discrepancies between constituent figures and totals are due to rounding.

The term “country,” as used in this paper, does not in all cases refer to a territorial entity that is a state as understood by international law and practice; the term also covers some territorial entities that are not states, but for which statistical data are maintained and provided internationally on a separate and independent basis.
