<i>Preface</i>	xi
1 Investment and Uncertainty: Introduction	1
1.1 Introductory Remarks	1
1.2 The Consequence of Uncertainty for Investment	3
1.3 Conceptualizing Uncertainty	4
1.4 Investment Equations	5
1.5 Doubts and Reservations: Hopes and Intentions	7
2 Is Investment Important?	9
2.1 Introduction	9
2.2 The Neoclassical Growth Model	10
2.3 The Contributions of Kaldor and Arrow	11
2.4 New Growth Theory	14
2.5 An Autonomous Investment Function	16
2.6 Conclusions	17
3 Capital Shortage and Trends in Investment	20
3.1 Introduction	20
3.2 Capital Shortage	20
3.3 The Capital-Output Ratio	22
3.4 Accelerated Scrapping	24
3.5 Structural Change and Uncertainty	25
3.6 Conclusions	27
Appendix 3.1: Explanations for Capital Shortage	27
Appendix 3.2: Accelerated Scrapping in UK Manufacturing	32

4	Investment under Risk	36
4.1	Introduction	36
4.2	Types of Investment Risk	36
4.3	The Role of Non-linearities in Decisions under Risk	38
4.4	Disequilibrium Models	42
4.5	Capital Input Decisions under Risk	44
4.6	Oligopoly and Pre-emption	49
4.7	Decision Making and Uncertainty	51
4.8	Conclusions	56
	Appendix 4.1: Risk Aversion in Economic Models	56
	Appendix 4.2: Investment under Risk with Inflexible <i>ex ante</i> Prices	58
	Appendix 4.3: The Effect of Irreversibility on Investment with Risk	59
5	Uncertainty: Conceptual Issues and Measurement Problems	65
5.1	Introduction	65
5.2	Keynes, Knight and Uncertainty	66
5.3	The Process of Decision	70
5.4	The Origin of Convention	71
5.5	Investment and Convention	73
5.6	Problems in the Measurement of Uncertainty	74
5.7	Dispersion as a Measure of Uncertainty	75
5.8	Uncertainty versus Deficient Foresight	78
5.9	Conclusions	79
6	Dispersion as a Measure of Uncertainty	84
6.1	Introduction	84
6.2	Differences between Economic Model Forecasts	84
6.3	Understanding Dispersion	86
6.4	A Theoretical Model of Forecast Dispersion	87
6.5	Cross-section Dispersion and Uncertainty: some Questions	89
6.6	Estimation and Results	90
6.7	Extra Explanatory Variables	99
6.8	Further Model Results	103
6.9	Overall Conclusions	103

Appendix 6.1: The Construction of the Year-Ahead Forecasts	106
Appendix 6.2: Measures of Volatility: the Construction of GVOLPC and IVOLPC	107
7 Estimating the Effect of Uncertainty:	
Aggregate Investment	112
7.1 Introduction	112
7.2 The Uncertainty Variables	113
7.3 Hypothesized Effect of Uncertainty on Investment	117
7.4 Functional Forms: Formulating an Investment Equation	118
7.5 Levels Estimation	121
7.6 Error Correction Approach	123
7.7 Conclusions	129
Appendix 7.1: Report on Preliminary Work Using the Dispersion of Forecasts as an Indicator of Uncertainty: Annual Data	129
Appendix 7.2: Variable Definitions and Data Sources for Tables 7.2 and 7.3	134
8 The Effect of Uncertainty at Industry Level	138
8.1 Introduction	138
8.2 Specification	138
8.3 The Influence of Uncertainty	139
8.4 Industry-Specific Uncertainty Measures	140
8.5 Specification	141
8.6 Results	142
8.7 Authorizations and Investment	147
8.8 Conclusions	150
Appendix 8.1: Derivation of an Accelerator Formulation in Error Correction Form from CBI Sources	151
Appendix 8.2: CBI Industrial Trends Survey Questions Used in the Text	153
9 Conclusions and Implications of the Research	155
9.1 Introduction	155
9.2 The Main Arguments Summarized	155

9.3	The Main Empirical Findings Summarized	156
9.4	General Policy Implications	157
9.5	The Importance of the Findings and Specific Implications	159
	<i>References</i>	161
	<i>Author Index</i>	173
	<i>Subject Index</i>	175
