

TABLE OF CONTENTS

FOREWORD	3
----------------	---

CHAPTER 1 — INTRODUCTION

1.1 Background	7
1.2 Workshop Process and Approach	8
1.3 Preparation of the Guidelines Document	9
1.4 Organisation of Report	9

CHAPTER 2 — OVERVIEW OF THE METHODOLOGY

2.1 Overall Approach	11
2.2 Description of the Economic Analysis Models	11
2.3 Economic Indicators	13
2.4 Technology Formats	15
2.5 Definitions and Assumptions	15
2.6 Public Versus Private Sector Analysis	17
2.7 Financing Considerations	18
2.8 Application of the Methodology	18

CHAPTER 3 — TECHNOLOGY COST AND PERFORMANCE PARAMETERS

3.1 Introduction	21
3.2 Technology Descriptions and Formats	21
Active Solar	22
Biomass	33
Geothermal	43
Passive Solar	55
Photovoltaics	70
Small Hydro	81
Solar Thermal	90
Wind	100

CHAPTER 4 — SECTOR ECONOMIC ANALYSIS MODELS

4.1 Introduction	109
4.2 Economic Analysis Model for the Building and Industrial Sectors	109
Data Format	116

4.3	Economic Analysis Model for the Utility Sector	119
	Data Format	124
4.4	Economic Analysis Software	126

CHAPTER 5 — CASE STUDIES

5.1	Introduction	127
5.2	Active Solar/Building Sector Case Study	129
5.3	Biomass/Industrial Sector Case Study	137
5.4	Wind Technology/Utility Sector Case Study	145

CHAPTER 6 — SPECIAL TOPIC PAPERS

	International Energy Markets and the Viability of Renewable Energy Sources — M. Kraus	153
	Public Sector Perspectives on Renewable Energy Economics — T. McDaniels	158
	Factors Affecting Economic Viability — T. Tanton	163
	Technology Forecasting — R. McConnell	166

ANNEX A — Members of Organising Committee	173
--	-----

ANNEX B — Key Technology and Key Sector Experts	175
--	-----
