

TABLE OF CONTENTS

Acknowledgement		vii
List of Authors		viii
List of Other Participants		x
Preface	R.W. Corell	xiii
Part 1: Introduction		
NATO: The Special Programme on the Science of Global Environmental Change	A. Wiin-Nielsen	1
Purpose and Goals of the Workshop	J.A. Eddy	5
Part 2: Opening Addresses		
Global Change in the 1990's: Imperatives for Action	T.F. Malone	7
International Activity Related to Global Environmental Change	L.V. da Cunha	17
Part 3: Global Environmental Change: The State of the Science		
The Climate System and Hydrological Cycle	M. Beran	57
Research Priorities for the Human Dimensions of Global Environmental Change	R.A. Berk	83
Ecosystems and Global Environmental Change	O.T. Solbrig	97
Biogeochemical Processes and Dynamics	G.I. Pearman	109
Observed Climate Variations and Change: A Study of the Data	A. Wiin-Nielsen	121

Part 4: Modeling and Data Needs

Earth System and Astronomical Climate Modeling	A. Berger Th. Fichefet H. Gallée C. Tricot J.P. van Ypersele	137
Planning for the EOS Data and Information System (EOSDIS)	J. Dozier H.K. Ramapriyan	155

Part 5: Scientific Goals of International Research Programmes

The IGBP - A Research Challenge for the Next Decades	T. Rosswall	181
World Climate Research Programme	G. McBean	189
The World Ocean Circulation Experiment	D.L.T. Anderson	199
TOGA: Objectives, Status and Plans	J.M. Hall	215
GEWEX: The Global Energy and Water Cycle Experiment	J-C. Andre	225
The International Global Atmospheric Chemistry Project (IGAC)	P.J. Crutzen	233
The Joint Global Ocean Flux Study: Goals and Objectives	M.J.R. Fasham K. Denman P.G. Brewer	245
Past Global Changes (PAGES) Project	J.A. Eddy	257
