

C O N T E N T S

Introduction	1
PART I: PRICE STABILIZATION ON WORLD MARKETS FOR AGRICULTURAL PRODUCTS	
Chapter 1: On the Desirability of Price Stabilization	7
1.1 The Domestic Market	7
1.2 The Model	9
1.3 Welfare Effects of Price Stabilization	16
1.4 Discussion	20
Chapter 2: Non-Existence of Rational Expectations Equilibria	23
2.1 The World Market	24
2.2 Market Equilibrium	32
2.3 The Role of Price Stabilization	37
Chapter 3: Price Dynamics in a Linear World	41
3.1 A Refined Version of the Model	42
3.2 Cyclical Behavior	46
3.3 Price Cycles and Stabilization	50

PART II: PRICE FORMATION ON THE WORLD SUGAR MARKET

Chapter 4:	Characteristics of the Market	53
4.1	The Product	53
4.2	Substitutes	55
4.3	The Market Structure	57
4.4	Prices	71
4.5	The Data	75
Chapter 5:	Quantitative Analysis of the World Sugar Market	81
5.1	Testing for Unit Roots	82
5.2	Testing for Cointegration	85
5.3	Estimation of Production Functions	88
5.4	Protected Domestic Markets and the Inelasticity of World Systematic Excess Production	98
5.5	Prices ...	112
5.6	... and Price Expectations	121
5.7	World Systematic Excess Production	128
5.8	Stock Demand by Countries	134

PART III: PRICE STABILIZATION ON THE WORLD SUGAR MARKET

Chapter 6:	The International Sugar Agreements	159
6.1	Design of the International Sugar Agreements of 1968 and 1977	160
6.2	The Agreements in Practice	166
Chapter 7:	Structural Change on the World Sugar Market	171
7.1	Tests and Monte Carlo Results	171
7.2	Formulating Alternatives	175

7.3	Testing in Practice: Stock Demand Equations	179
7.4	Testing in Practice: Systematic Excess Production and Price Equations	201
Chapter 8:	Quantifying the Effects of the International Sugar Agreements	207
8.1	The Basic Idea: Using Simulations	207
8.2	Effects of the ISAs on Stock Levels: A Conservative Approach	210
8.3	Effects of the ISAs on Stock Levels: A Liberal Approach	216
8.4	Effects of the ISAs on World Systematic Excess Production	225
8.5	Effects of the ISAs on the World Market Price for Sugar	227
	CONCLUSIONS	235
	APPENDIX: Regression Diagnostics	
A1:	Testing Procedures	241
A1.1	Testing for Normality	241
A1.2	Testing for Serial Independence	243
A1.3	Testing for Heteroskedasticity	245
A1.4	Testing for Non-Linearities	246
A1.5	Testing for Structural Change	246
A2:	Regression Statistics and P-Values	247
	List of Abbreviations	261
	References	265
