Preface	xi
Introduction	xv
PART ONE: Unions as Organizations	
1. The microeconomic theory of the trade union	3
A. J. Oswald	
1.1 Foundations	4
1.2 Trade unions in the literature	8
1.3 A model of a utilitarian trade union	11
1.4 On extensions and problems	18
1.5 Conclusion	20
References	21
Appendix	23
2. Labour union objectives and collective bargaining	25
D. H. Blair and D. L. Crawford	
2.1 Introduction	25
2.2 The specification of union goals	26
2.3 The union's majority preference relation	28
2.4 Are the union's preferences cardinal?	33
2.5 Union-firm bargaining solutions	35
References	40
3. Union wages, temporary lay-offs, and seniority	41
G. M. Grossman	
3.1 A model of a unionized sector under seniority rule	42
3.2 Steady-state comparisons	48
3.3 The effect of the seniority rule for lay-offs	53
3.4 Concluding remarks	58
References	59
4. The determination of the union status of workers	61
H. S. Farber	
4.1 Introduction	61

4.2	A model of union status determination	64
4.3	The data and econometric framework	68
4.4	Estimation	71
4.5	Analysis of results	74
4.6	Summary and conclusions	79
	References	81
PART TWO: Union–Employer Relations		
5.	Wage bargaining and employment	85
	I. M. McDonald and R. M. Solow	
5.1	A simple monopoly union	87
5.2	Efficient bargains	90
5.3	The union as a commune: A digression	93
5.4	Some simple conventions	95
5.5	Formal bargaining theory	97
5.6	Sales constraints and incremental bargaining	100
5.7	Conclusion	102
	References	103
6.	Longitudinal analyses of the effects of trade unions	105
	R. B. Freeman	
6.1	Longitudinal models of what unions do	106
6.2	The problem of measurement error	108
6.3	Comparisons of longitudinal and cross-section estimates of union effects	117
6.4	Bounding the true impact?	123
6.5	Conclusion	126
	References	127
7.	Trade unions and optimal labour contracts	129
	H. Horn and L. E. O. Svensson	
7.1	Competitive equilibria	133
7.2	Optimal labour contracts and a union without internal risk-sharing	137
7.3	Efficient bargaining	142
7.4	Summary and concluding remarks	143
	References	145
	Appendix	146
8.	Testing the efficiency of employment contracts	151
	J. N. Brown and O. Ashenfelter	
8.1	Introduction	151
8.2	Some evidence from experimental data	154
8.3	A framework for inference	161
8.4	Empirical implementation	166

8.5 Concluding remarks	181
References	187
Appendix A: Definitions and sources for variables used in the empirical analysis	188
Appendix B: Problems of empirical implementation	189
9. Bargaining and strikes	197
O. Hart	
9.1 Introduction	197
9.2 A model with limited delay between offers	199
9.3 A model with decay	203
9.4 Concluding remarks	210
References	211
10. An investigation into the determinants of U.S. strike activity	213
J. S. Tracy	
10.1 Construction of the data and variables	214
10.2 Empirical specification and results	221
10.3 Summary of the findings	230
References	231
PART THREE: Unions and Macroeconomic Performance	
11. Hysteresis in unemployment	235
O. J. Blanchard and L. H. Summers	
11.1 Introduction	235
11.2 The derived demand for labour	236
11.3 Wage setting in a pure insider model	237
11.4 Wage setting with some pressure from outsiders	238
11.5 Unemployment duration and the wage setting process	240
11.6 Conclusion	241
References	242
12. Long-term unemployment and macroeconomic policy	243
A. Lindbeck and D. J. Snower	
12.1 Transmission of macroeconomic policies to the labour market	244
12.2 The labour market	245
12.3 Persistence of policy effects in the labour market	248
12.4 Concluding remarks	250
References	251
13. Macroeconomic stabilization policy and trade union behaviour as a repeated game	253
J. Driffill	
13.1 Introduction	253

13.2	Government intervention and union behaviour in a single-state game	255
13.3	Non-co-operative equilibrium in a multi-stage game	262
13.4	Conclusion	269
	References	272
	Appendix	273
14.	The rise in unemployment: A multi-country study	279
	C. R. Bean, P. R. G. Layard and S. J. Nickell	
14.1	Introduction	279
14.2	A theoretical framework for analysis	282
14.3	Empirical results	285
14.4	Accounting for the rise in unemployment	290
14.5	The role of institutions: A comparative assessment	297
	Concluding remarks	300
	References	301
	Appendix: Data sources	302
15.	The regulation of inflation and unemployment	305
	E. Tarantelli	
15.1	Wage price stability and the theory of public goods	305
15.2	The impact of a centralized system of industrial relations	307
15.3	Public good or private interest?	308
15.4	An Index of neocorporatism	310
15.5	Empirical verification	313
15.6	Concluding remarks	316
	References	317
	Author index	319
	Subject index	321
