<b>1 Balance-of-Payments Accounting and the Foreign-Exchange Market</b>	<b>1</b>
Concepts of the balance of payments	1
The accounting balance of payments	2
Balance-of-payments equilibrium	5
More on the concept of equilibrium	13
The foreign-exchange market	22
The demand for dollars	23
The supply of dollars	25
Capital movements and speculation	30
The forward rate of exchange	32
<b>2 The Capital Account of the Balance of Payments</b>	<b>37</b>
The components of the capital account	38
Official Reserves	41
Special Drawing Rights (SDRs)	46
The Balancing Item	49
The capital account and the net external wealth of the UK	51
<b>3 Exchange Rate Determination</b>	<b>59</b>
Theories of exchange rate determination	60
Purchasing Power Parity	60
Current Balance Model	65
The importance of theories of expectations formation	66

The Mundell-Fleming Model	69
Exchange Rate Overshooting Models	77
The Portfolio Model of exchange rate determination	85
Speculative Bubble Models of exchange rate determination	91
Exchange rate determination: what have we learnt	94
Exchange rate systems and policies	96
Fixed <i>versus</i> flexible exchange rates	97
Types of exchange rate regime	102
Controls on capital movements	121
Exchange rate policies in the 1990s	127
<b>4 The Balance of Payments and the National Economy</b>	<b>129</b>
The integration of the balance of payments into the national accounts	129
The conflict between balance-of-payments equilibrium and other objectives of economic policy	131
Income equilibrium in an open economy and the open economy multiplier	136
The open economy multiplier relating imports to expenditure	139
The 'new' open economy multiplier with foreign repercussions	145
Balance-of-payments adjustment	148
The classical price-specie flow mechanism	150
The elasticity approach	150
The absorption approach	152
The monetary approach	153
<b>5 The Elasticity Approach to the Balance of Payments</b>	<b>155</b>
The Marshall-Lerner condition derived	155
Devaluation and the response of firms	162
Lags and the <i>J</i> -curve effect	166
Devaluation and inflation	168
Devaluation and the terms of trade	177
The difficulties of measuring price elasticities	178
<b>6 The Absorption Approach to the Balance of Payments</b>	<b>183</b>
The direct effect of devaluation on income	185

The direct effect of devaluation on absorption	186
The interaction between changes in income and changes in absorption	188
Strengths and dangers of the absorption approach	190
The monetary aspects of balance-of-payments deficits	192
Domestic credit expansion	193
<b>7 The Monetary Approach to the Balance of Payments</b>	<b>195</b>
<b>8 Simultaneous Internal and External Balance</b>	<b>203</b>
Internal and external balance under flexible exchange rates with no capital movements	205
Internal and external balance under fixed exchange rates with capital movements	209
Internal and external balance in an <i>IS-LM</i> curve framework	214
The use of monetary and fiscal policy under alternative exchange-rate regimes	216
The assignment of policies in the United Kingdom	217
<b>9 A History of the UK Balance of Payments</b>	<b>219</b>
1854 to 1939	219
1940 to 1950	225
1951 to 1959	228
1960 to 1969	231
Devaluation, 1967	239
1970 to 1979	243
Since 1980	251
Appendix: a polemic on floating the pound, 1972	258
<b>10 Import Functions</b>	<b>272</b>
The determinants of imports	272
Imports and capacity	274
Imports and labour-market bottlenecks	278
Imports and income (estimates of income elasticities)	281
Imports and relative prices (estimates of price elasticities)	285
Import penetration	286

<b>11</b>	<b>Export Functions</b>	<b>291</b>
	The determinants of exports	291
	Exports and capacity	292
	Exports and world income (estimates of income elasticities)	298
	Exports and relative prices (estimates of price elasticities)	299
	Export performance in manufacturing	304
	The United Kingdom's declining share of world exports	306
	North Sea oil and the balance of payments	315
	Appendix: Commodity and geographic composition of UK exports and imports	319
<b>12</b>	<b>The Balance-of-Payments Equilibrium Growth Rate</b>	<b>323</b>
	The determination of the balance-of-payments equilibrium growth rate	324
	A fundamental law of growth	328
	The model with capital flows	332
	Use of the model for forecasting and simulation	333
	Conclusion	336
<b>13</b>	<b>Export-Led Growth</b>	<b>337</b>
	The importance of export-led growth	337
	Models of export-led growth	341
	An export-led growth model with a balance-of-payments constraint	347
<b>14</b>	<b>The Balance of Payments as a Structural Problem</b>	<b>351</b>
	Non-price factors determining exports and imports	354
	The 'new' trade theories	359
	Studies of non-price competition	361
	Research and development effort	363

<b>15 Deindustrialisation and the Balance of Payments</b>	<b>366</b>
Does deindustrialisation matter?	366
The causes of deindustrialisation	372
A trade strategy for the United Kingdom	378
The future	384
<i>Notes</i>	389
