

TABLE OF CONTENTS

CHAPTER 1. Introduction	1
CHAPTER 2. The Monetary Model of Exchange Rate Determination.	
I. Introduction	7
II. Monetary Models	8
III. The Asset Market View	13
IV. Empirical Evidence	15
V. Treatment of Nonstationary Variables	16
CHAPTER 3. Long Run Exchange Rate Determination I.	
I. Introduction	18
II. Some Preliminary Definitions and Engle and Granger Procedure .	21
III. Interpretation of Previous Results in terms of Cointegration	22
IV. Testing for Cointegration Using Engle and Granger Methodology.	25
V. Empirical Results	27
VI. Conclusions	31
APPENDIX A	33
CHAPTER 4. Long Run Exchange Rate Determination II.	
I. Introduction	41
II. Description of The Time Series Model	43
III. The Data And Diagnostic Tests	45
III.1. Data Description	45
III.2. Diagnostic Tests on the Assumptions of the VAR.	47
IV. Estimation And Testing For Cointegration	48
V. Tests of Several Hypotheses	52
V.1. Testing for Known Cointegrating Vectors	52
V.1.1 Testing for Trivial Cointegrating Vectors	54
V.1.2. Testing for Cointegration between Fundamentals.	56
V.2. Tests of the same Linear Restrictions on all Cointegrating Vectors	57
V.2.1. Testing the Exclusion of a Variable from all Cointegrating Vectors.	58
V.2.2 Testing for the Restrictions of a Monetary Equation	59
VI. Conclusions	61
APPENDIX A	63
APPENDIX B	69
CHAPTER 5. Short Run Exchange Rate Determination.	
I. Introduction	73
II. Weak Exogeneity of the Exchange Rate	73
III. Testing for Weak Exogeneity	76
IV. The Asset Market View Derived from an Error Correction Model .	77
V. Conclusions	79
APPENDIX A	80
CHAPTER 6. Effect of Non-Normal Disturbances on Likelihood Ratio Tests.	
I. Introduction	81
II. The Data Generating Process	83
III. Hypotheses Tests	85
III.1. Tests on the Number of Cointegrating Vectors	85
III.2. Tests of Linear Restrictions on the Cointegrating Vector .	88

III.3. Tests of Restrictions on the Loadings Matrix	88
IV. The Simulation Exercise	89
IV.1. Empirical Size of the Tests	91
IV.2. Power of the Tests	93
V. Conclusions	94
APPENDIX A: Size of the Tests	96
APPENDIX B: Power of the Tests	102
CHAPTER 7. Estimation of the Time Series Model.	
I. Introduction	105
II. Two Different Interpretations of the Time Series Model	106
III. Estimation of the Model	109
III.1. Unrestricted Model	109
III.2. Restricted Short Run Dynamics	110
III.3. Restricted Long Run Dynamics	112
III.4. Restricted Short and Long Run Dynamics	115
III.4.1. Gaussian Reduced Rank Maximum Likelihood Estimator	115
III.4.2. Two Step Procedure	117
CHAPTER 8. Prediction in Cointegrated Systems.	
I. Introduction	119
II. Properties of the True Forecasts from a Cointegrated System	120
III. Estimated Forecasts from a Cointegrated System	124
CHAPTER 9. Nominal Exchange Rate Prediction.	
I. Introduction	129
II. Review of Literature	130
III. Forecasting Exercise	135
IV. Conclusions	140
Appendix A	142
CHAPTER 10. A Simulation Exercise.	
I. Introduction	150
II. The Data Generating Process	153
III. Results	156
Appendix A	161
CHAPTER 11. Conclusions	
DATA APPENDIX	183
BIBLIOGRAPHY	185
